

# Don't Burn Up Your New Dress

Scores of women will do it this winter, in some poor, old base burner; and they'll get very little warmth out of it, too.

Don't you think it would be a good idea to buy a First Class Favorite Base Burner, with Triple Exposed Flues, and save enough on your coal bills this winter to buy a new dress in the spring? It is a positive fact—the Favorite does burn less coal and throws out more heat than any other base burner made.

It took an organized body of stove experts nearly fifty years to perfect it. There is no other Base Burner like it, because the features that make it such a wonderful and economical heater are patented. It is the most attractive and best made stove, too.

In the Triple exposed Flues you will find one reason why it will save fully one half on your coal bills. But there are many other reasons—too many to mention here. Come and see us, and we will show you that there is no other base burner that will compare with the Favorite.

Thirteen voters, five of them republicans, turned out Wednesday evening to hear Willis E. Reed, of Madison, Neb., expound democratic doctrine. The scarcity of the crowd was due largely to the big game of "hearts" going on at democratic headquarters, where "the ceiling is the limit." ## Fire Destroys the S. A. Stinson Store

Fire broke out in the basement of the S. A. Stinson store about 2:30 Thursday afternoon, and in less than an hour the building and nearly all its contents were consumed. The gale that was blowing at the time made it impossible for the bucket brigade and chemical apparatus to head off the flames and they soon spread to the J. J. McAllister law office, consuming that building, and for a time threatened the Mrs. Altemus home occupied by Mrs. Mollie Brophy, but which by hard work was saved.

The fire originated in the cellar and was first discovered by John H. Gribble, head clerk for Mr. Stinson, who was quite seriously burned by the explosion when the oil tank in the basement caught. It spread so rapidly to the roof that it was fruitless to try to cope with it, and the crowd that had assembled at the first alarm began removing the goods from the burning buildings.

A call for aid was telephoned to the Sioux City fire department and they sent a chemical engine over, making the 6-mile run in 35 minutes; but the fire had done its work by the time they arrived.

This is the worst fire loss Dakota City has suffered in many years, and following the fires of the past summer, is a severe blow to the business interests of the town.

Mr. Stinson's loss will amount to about \$16,000, partly covered by insurance, carrying \$5,000 on stock and \$1,800 on the building. The McAllister law office was uninsured, and valued at \$350. About \$1,000 worth of goods and fixtures were saved from the Stinson store, and these were removed to the Fred Beerman store building.

Mr. Stinson has made no plans as yet for the future, but it is hoped that he will replace the burned building with a brick structure.
