November 23rd

bywehandle

Being a Story of How we Were Convinced

First, we were attracted by the handsome appearance of the Favorite, but we did not decide to handle it for this reason alone, although we decided it was the most handsome base burner on the market. We wanted a better reason than an attractive

looking stove, so we looked it over thoroughly, comparing it point by point with other base burners, and this is what we found: That the material from which it is made is all of

the highest grades—the doors, mica frames and joints being absolutely air and paper tight. We were told the Favorite produced the most satisfactory results with about half as much coal

as other base burners. We discovered this to be true. We found the reason to be in its Triple Exposed Flues. The sectional cut herewith explains these flues

better than we can in words. The heat passes

from the fire pot into the two outside down flues, across the bottom of the stove, under the ash pan, where it enters the central flue. It then passes back over the bottom and up the central flue to the chimney. Just think of this great radiating surface, and it is more than doubled, because the flues are SET OUT from the back of the stove. The flues therefore radiate from all sides, and the back of the stove radiates heat, also, This feature alone places the Favorite in a class by itself, making it the best and most economical heating stove in existence. But other features of its construction must not be overlooked. Would like to tell you all about them.

JURIA

Do not put off buying your heating stove until the cold days come. Come and see us now, and our Favorite will be your Favorite too.

Dakota City, Nebraska

HOMEMAKERS CLUB MEETING (Contributed)

An interesting meeting of the Dakota ounty Homemakers' club was held Friday afternoon of last week at the home of Mrs Mell A Schmied. The meeting was called to order by the chairman, the object of the neeting stated and an invitation extended to all present to become members. The minutes of the previous meeting were rend 3. Where a child of fourteen years and approved. In the discussion of Butter-Miss Rose of Nova Scotia. Mrs H J Rooney 4. Where the child is unable either gave a very practical talk on the subject, place Thursday, October 27, 1910, of the school

nachine used in working butter. Mrs Geo L Boals recited a parody on Maud fuller, while for select reading Mrs J F Sides gave "Like his Mother used to Cook." Both were humorous selections and much

enjoyed. Current Events-a review of the world's appenings for the last four months, read by Mrs Elizabeth Herweg, was well selected ad interesting. Recipe for Angel Food Cake, by Mrs Geo

Rarnett, was followed by general discus The paper, "The Possibilities, of the To mato," by Mrs Geo Bates, was well written and showed careful preparation.

The discussion, Fall Work in the Garden ed by Mrs Mell A Schmied, and Fall Work n the House, were ably discussed by the adles present. About thirty ladies attended the meeting. Phose from neighboring towns, were Mesdames W H Bradford, J L Phillips, Geo L Boals, M. R. Lioeum, H.J. Rooney, T. F. Mon ahan, and D DeLong, South Stoux City;
