An Exciting Town. Los Angeles is a truly exciting to live in. To say nothing of its heavenly climate and its bombs, there is always something stimulating in the occult line going on. Just the other day a widow of the angelic city began to long for a sight of one of her schoolmates whom she had not seen for 45 years. The longing brought Its fulfillment. A spirit told her to wok for him in Brooklyn. She obeyed, met him on the street a few hours after she arrived, and promptly married him. It is worth while to live in a city where things like this happen, even at the risk of being blown up now and then.

DRINK WATER TO CURE KIDNEYS AND RHEUMATISM

The People Do Not Drink Enough Water to Keep Healthy, Says Well-Known Authority.

"The numerous cases of kidney and Madder diseases and rheumatism are mainly due to the fact that the drinking of water, nature's greatest medi-

cine, has been neglected. Stop loading your system with medfcines and cure-alls; but get on the water wagon. If you are really sick, why, of course, take the proper medicines-plain, common vegetable treatment, which will not shatter the nerves or rain the stomach."

To cure Rheumatism you must make the kldneys do their work; they are the filters of the blood. They must be made to strain out of the blood the waste matter and acids that cause rheumatism; the urine must be neutralized so it will no longer be a source of irritation to the bladder, and, most of all, you must keep these acids from forming in the stomach. This is the cause of stomach trouble and poor digestion. For these conditions you can do no better than take the following prescription: Fluid Extract Dandellon, one-half cunce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in bottle and take in teaspoonful doses after each meal and at bedtime, but don't forget the

water. Drink plenty and often. This valuable information and simple prescription should be posted up in each household and used at the first sign of an attack of theumatism. backache or urinary trouble, no matter how slight.

Mysterious Mountain People Who, With Their Pigs, Live in Little Huts Raised Ten Feet From

London,-Mr. H. A. Lorentz, a Dutch explorer, the first white man to penetrate into the mysterious central snow range of New Guinea, has returned to Europe with a thrilling story of ad-

ventures. The explorer discovered a mysterious mountain tribe who, with their pigs, lived in little huts raised ten feet from the ground, into which both the people and the animals climbed by way of notched boards.

Doctor Lorentz says: "Suddenly we came across a se cluded valley which, to our amazement, we found to be thickly populated. We were walking in single file through the twilight shade of the great forest when we heard mysterious calls. Suddenly a small band of rows and stone axes, ran out from the celebrity by his sedulous insistence on curse is in store, and an insane world jungle. Scottish humor is dry rather than bolsterous, and I always think there Is exquisite drollery in the story of the Stonehaven railway porter and the Salvation Army "captain." To catch the hang of a little yarn readers must remember that Stonehaven lies to the south of Aberdeen. The London train had drawn up at Stonehaven on account of a slight mishap a mile or two ahead, and Andra, the old porter, had got into conversation with a Salvation Army officer who had popped his head out of the compartment to ask the reason for the delay.

"Aye, aye," mused Andra, after giving the desired information, "ye'll be for Alberdeen, I'm thinkin'?"

"Yes, my man," was the reply; 'Tm bound for Aberdeen-a very wicked place, I'm told!"

BABY WASTED TO SKELETON

"My little son, when about a year and a half old, began to have sores come out on his face. I had a physician treat him, but the sores grew worse. Then they began to come out on his arms, then on other parts of his body, and then one came on his chest, worse than the others. Then I called another physician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad that I had to tie his hands in cloths at night to keep him from scratching the sores and tearing the flesh. He got to be a mere skeleton,

and was hardly able to walk. "My aunt advised me to try Cuticura Soap and Cuticura Ointment. I sent to a drug store and got a cake of Cuticura Soap and a box of the Ointment and followed directions. At the end of two months the sores were all well. He has never had any sores of any kind since. I can sincerely say that only for Cuticura my child would have died. I used only one cake of Cuticura Soap and about three boxes of Ointment.
