SYNOPSIS.

Thomas Ardmore, bored millionaire, and Henry Maine Griswold, professor in the University of Virginia, take trains out of Atlanta. Griswold to his college, out of Atlanta. Griswold to his college, Ardmore in pursuit of a girl who had winked at him. Mistaken for Gov. Osborne of South Carolina, Griswold's life is threatened. He goes to Columbia to warn the governor and meets Barbara Osborne. Ardmore learns that his winking lady is the daughter of Gov. Dangerfield of North Carolina. He follows her to Baleigh, and on the way is given a brown jug at Kildare. In Rateigh he discovers that the jug bears a message threatening Dangerfield unless Appleweight, a criminal, is allowed to go free. Ardmore becomes allied with Jerry Dangerfield in running the affairs of the state in the absence of the governor. A scathing telegram is sent to Gov. Osborne. Griswold becomes adviser to Barbara Osborne, who is attending to her father's duties in South Carolina. Orders are sent to the sheriff to capture Appleweight.

"No; certainly not," Barbara re-

"But the papers all over the state are talking about the Appleweight gang. They intimate that those people enjoy immunity from prosecution and that the governor-you will pardon me, Miss Osborne-will take no steps to arrest them for personal rea-

"Your question is quite proper," re plied Griswold. "The governor's acts are subject to scrutiny at all times and it is just as well to have this matter understood now. I am employed by the governor as special counsel in some state matters. My name is Griswold. Take out your book and come to the desk here and I will give you a statement which you may publish as by the authority of the governor."

The three found seats at a table and Griswold dictated while the reporter wrote, Barbara meanwhile sitting with her cheek resting against her raised hand. She was experiencing the relief we all know, of finding a strong arm to lean upon in an emergency, and she realized that Griswold was not only wise, but shrewd and resourceful

"Please print this exactly as I give it: It having been intimated in certain quarters that the Appleweight gang of outlaws, which has been terrorizing the North Carolina frontier for several years, enjoys immunity from prosecution in South Carolina owing to t! fact that Gov. Osborne was at some time attorney for Appleweight, Gov. Osborne begs to say that steps have already been taken for the arrest of this man and his followers, dead or alive. The governor presents his compliments to those amiable critics who have so eagerly seized upon this pretext for slurring his private and in your stomach, or if you have character and aspersing his official cartburn, that is a sign of Indigestion acts. "Excellent," assented Griswold, and thus amended the statement was returned to the reporter.

"Now," said Griswold to the young man, "you are getting a pretty good item that no other paper will have. Please wire your story to Raleigh; Gov. Osborne is very anxious that the people up there shall understand fully his attitude in the Appleweight mat-

"I reckon this will wake up old Dangerfield all right," said the reporter, grinning. "He'll be paralyzed. May use your name in this connection.

"Not at all. My engagement with Goy. Osborne is of the most confidential character and our purposes would be defeated by publicity. "This is all right, is it, Miss Onborne?" asked the reporter.

"Maj. Griswold has full authority to act, and you need question nothing he tells you," Barbara replied.

These appraisals of "He has issued a statement to the real estate and securities owned were a complete inventory made of every thing we've got we can announce the facts to the public, start a new set of books, and begin our responsibility to stockholders right there."

How Inventory Was Taken. The most expert accountants and appraisers to be had were put at the task. Their labors lasted over eight months. Their report and its publication by the company marks an epoch in finance.

It began by recommending an adjustment of the difference between the appraised and book values by a charge of \$5,595,089 against surplus. Book values of securities held were reduced to market values, bad and doubtful accounts were "charged off," an allowance of \$2,000,000 was made for "depreciation," another of \$500,000 for "reserve," and so on, until the old surplus of \$18,867,000 came down to \$5,136,000.

It required courage, the publication of this statement to stockholders, saying in effect: "The property of your company has been revalued: the surplus isn't nineteen millions, as you have been led to believe, but five millions," but it was the truth, and President Vail did not flinch. "Accuracy and publicity," he declared, was essential. "The stockholder has a right to know. The shares of this company are scattered from one end of the Union to the other. This is more than a private corporation. It is a great national enterprise. The public is entitled to

the facts." The report was ordered published forthwith. Financiers of the old school and speculators generally were aghast. What would happen? Would the bottom drop out of Western Union when the shareholders realized that their propetry was worth \$13,000,000 less than they had supposed? But the amazing thing happened. The stock went up and

RED CROSS SEAL IN HISTORY

First Used During the American Civil War-Now an Aid in Fighting Tuberculosis.

Red Cross Christmas seals date back in their origin to "charity stamps," first used for the soldiers relief funds in Boston in 1862, during the Civil war. After the war, this method of raising money was discontinued in this country for a generation, although it found vogue in Portugal, Switzerland, Australia, France, Spain, Denmark, Norway, Russia, Sweden and other European countries. There are now several hundred different types of charity stamps used in all parts of the world.

Stamps or seals were first used to get money for the anti-tuberculosis crusade in Norway and Sweden in 1904. After being used in these countries for three years, as a direct result of the interest of Jacob Riis in this movement, the Delaware Anti-Tuberculosis association, headed by Miss Emily P. Bissell, and the Red Cross society of Delaware combined in issuing a tuberculosis stamp. So successful was this campaign that nearly \$3,000 was realized, and the next year, in 1908, the American Red Cross was induced to issue a national Red Cross tuberculosis stamp. From this sale, \$135,000 was realized, that amount being almost doubled in 1909. This year, for the first time, the sale is organized on a comprehensive basis, taking in all parts of the United States. A million for tuberculosis work is confidently expected.

Significance in Names.

In an Illinois town a workingman having been informed that a sixth baby had arrived at his home, exclaimed: "Sufficient," and his neighbors, referring to his having given that name-Sufficient-to the new arrival, credited him with originality. The incident resembles a case nearer home, adds the New York Tribune. A New York family was blessed with nine daughters, when the stork brought a tenth one. It was in the days when the slang term for an ofttold story was a "chestnut," and as the baby certainly came under that head she received the name, but for suphony's sake the French for the word was employed, and she was called Marron.
