Who Was There That You Knew?

N the shadowy ranks of those who marched to defeat or death or victory fifty years ago in the mighty conflict that convulsed this great nation, is there father or grandfather or uncle of yours? Would you like to see a photograph of him in that long ago day of his youth—a photograph that he never knew was taken? Perhaps we can show you one; and in any case, we can tell you a story, stranger than any detective fiction, of 3,500 priceless photographs that

3,500 Long Buried Photographs 12 of These FREE of the Civil War

THEY were taken by the greatest photographer in the United States of that days they were bought by the United States Government for \$30,000, they were buried in the War Department for 50 years—they are buried there still. But a duplicate set was kept by the photographer who still. But a duplicate set was kept by the photographer who died poor and broken down; that duplicate set was knocked from pillar to post for nearly 50 years, until it was discovered by a New England collector. J. Piertont Morgan tried to secure the collection—Ex-President Garfield and General Benjamin F. Butler said it was worth \$150,000—set with the help of the Raview of Raviews, the entire collection has been gathered into 10 great volumes and is placed within your reach at less than the value of one of the photographs. It is the one accurate, impartial history of the Civil Warfor the camera cannot lie. It talls the story of the War you never heard before. Taken under protection of the Secret Service, these photographs bring to light thousands of littleknown phases of the war; they penetrate to strange places and record strange things.
