

HOW TO MAKE A SAIL WAGON

Dees Not Take Average Boy Long to Arrange One to Suit Himself-General Description.

In Fig. 1 the sail wagon is shown complete with an end view at "a" showing the steering arrangement. A board about 3 feet, 6 inches in length. by 18 inches across and about one-Walf or three-quarters inch thick, is cut into a shape something like an

froning board, narrower at one end than at the other. A one-inch piece of board is secured to the front end to by a German swimming master is give strength for the mast and steer- both for trained swimmers and those ing gear.

One pair of large wheels and one pair of small ones must be procured large wheels and axle can be secured to the bottom board by means of two blocks of wood as shown in Fig. 1 and

Fig. 2, the latter being a view of the under side of the wagon. The two small wheels must be rigged up a little differently. A board

about the same thickness as the axle is shaped at one end into a round handle, which should fit loosely into a bored hole in the front end of the wagon. The broad end of this board rests on the axle, and is bolted to two pieces of board the same width, which

feel like a second Columbus, For I have discovered, you see, world in the shape of an orange Which grandma has given to me

Tis covered with wrinkles and creases Which represent mountains and seas, Deep caverns, large Islands and rivers 1 trace on its surface with case.

Another Cure by Thunder.

Another case has been added to the long list of those who are said to have been cured of deafness and dumbness by a sudden shock. This time the story comes from Amlens, where a woman is said to have recov-

ered her speech after a particularly loud clap of thunder. There have been heavy storms in the region for the last few days, accompanied with hall, rain, thunder and lightning, and trees in some places have been pulled up by the roots. At others lightning struck houses and barns and horses and cattle have been killed. A woman forty-eight years of age, the wife of a workman, had completely lost her speech since 1905 She was still able to hear, but the only way she had of communicating with any one was by writing. She was subjected to various treatments, among others that of electricity; but they seemed to have no effect. During the recent thunder. tects of skill, and has not been develstorms she was seized with a terrible

nervous attack, and suddenly she re-

covered her speech, and is now able

to converse as easily as before. Sev-

eral physicians have come to question

her, and her cure is talked of as al-

the Counts of La Guayere is of an even earlier period. Ancient buildings, however, soon be come commonplace to the European traveler says Country Life in America, and so probably the first thing one notices in this interesting vilme as a prodigal and expected a lage is the prevalence of window

They are everywhere. No matter how old or tumbledown the house may be, there are always flowering plants common, except the picnics and the in the window, and they brighten up the whole town wonderfully. Gay colors are the rule; pink and red geraniums are most common, although one sees a few nasturtiums and carnations, with an occasional hydrangea. Unlike American window boxes, which are boxes in actuality containing a considerable quantity of soil, these usually found in Switzerland are a sort of grated box, with sides much like a picket fence, in which potted plants are placed. These boxes are either set upon the broad window sill itself or just outside upon brackets secured to the wall of the house.

When there are very heavy storms which might do damage to the plants the blinds may be closed to afford protection in the former case or the pots may be taken indoors by one in the latter.

up and leave a scale. Then it would MAKE THE SUBURBS PRETTY

Unsightliness in Development Usually Due to Greed of Speculators and Promoters.

The unattractiveness of most suburban development lies, first, in the fact that the land is hopelessly subdivided into uniform and monotonous units admitting of little or no variety, excepting by an expenditure of money which the investment does not justify: hence the attempt to obtain variety by stunts and detail, much of which is tawdry, John M. Carrere writes in Country Life In America.

Secondly, the designing of these two bottles of Resolvent, two boxes of houses, which has been mostly in the Ointment and three cakes of Soap he hands of spectators and promoters, was sound and well, and never had has not usually been intructed to archioped with the idea of elevating and

come down on the front and rear sides of the axle, and are bolted to it. Fig. 2. A. A. The fifth-wheel bearing is made out of tough wood, and placed so that the steering wheel turns eastly (Fig. "a") A round stick is put through the stern of the piece, to press the feet against when steering (Fig. 1 "b").

Some boys make a rail (Fig. 1, "c") around the end, that they sit on. The mast can be made from a round

stick about 4 feet, 6 inches long. A broom handle will do for the cross arm, to which the sail is attached. The sail should be so arranged that it can be very quickly lowered should the wind get the best of the wagon.

Should it be found inconvenient readily to procure a set of discarded baby buggy or express wagon wheels, they can easily be made by an in

genious boy as shown in Fig. 3. A hub is made from a round block of wood, as shown at "c," and round sticks, cut from light curtain poles or broom handles, made into spokes as at "b," care being taken to get them all the same length. The rim is made from barrel hoops, although some boys make them of thin wood. well soaked in warm water and bent into shape. A nail or screw is put through the rim at each spoke, as shown at "a," the completed wheel.

While this is a general description of a sail wagon, it does not take the average boy long to make one to suit himself out of almost any old thing he is sure to find about the place. It is interesting to notice the many and different designs of wagons and sails when once the craze is started. Smooth roads, an open space and plenty of wind is all that is necessary for a successful sail-wagon race.

The Truth.

recreations will be picnics and strawberry festivals. There will be a girl, Isn't sailing interesting?"-Youth's a sweet, charming, conventional giri with domestic tastes and little knowledge of the outside world."

"There is such a girl there." "An old sweetheart, Jack?" "We grew up together in the little

city. She is my ideal woman-conventional, domestic and innocent." "You will be very happy," she commented dully. The color had left her

face and her lips were rigid. "I wish you would leave the stage, Eleanor. You have been a good friend, a true comrade in this last month. I shall be happier if I can

think of you in a different, less distilusionizing environment."

developing public taste, but rather of catering to passing fancies.

Assuming four lots, each 50 feet wide, if, instead of building, as usual, four houses with a narrow frontage and extending back into the lot-all in a row, with a small garden in front, a contracted space separating them, and ugly yards in the back-it were planned to place the two end houses with narrow fronts and extending back, and the two middle houses set back and designed with broad fronts, thus forming a court, a composition would immediately be possible, and a better distribution of light, air and

grounds-whether for ornamental or merely back yard purposes-would immediately result without any interference of property lines or of light ensements.

Holland a Land of Flowers.

There are two Hollands, one of the likes and windmills, and one of the flowers, that is seen by comparatively few, says Country Life in America. The Holland of the flowers is a thing of the past each year by the time the average traveler gets around that way, which, as a rule, is July or August.

what sort of capers 1 was guilty of, So carly as February the annual to take delight in telling of my intoxiflower nageant gets a start with the rare Tulipa haufmanniana, winter conversation. Once they had told me aconite and snowdrops, until it makes of a few things I decided to have its first grand demonstration with nothing more to do with the laughing scilla and crocus in March. Then in the glory of the tulip and hyacinth comes the greatest burst of color, followed by the Spanish iris, early gladiolus and lily to provide an anti-climax There is reason to believe that the that runs over into June. But for ady mentioned in this bit from the sheer gorgeousness, nothing can match Cleveland Plain Dealer knew more the heydey of the tulip, the banner about cooking than about navigation, or, to put it nautically, was more at bulb of Holland.

Texas Women Beautify Their City. This is the time of year when housewives are cleaning the interior of their homes. But there are little touches that may be made in the yards that will give more pleasure to a greater number than even the clean home. The women in a block in which the alley is neglected could get together and change things very soon if they would. There is a woman's civic league down in Sherman, Tex., says the St. Louis Globe-Democrat, with sel, "that means that schooner had five hundred members, that has done her mains'l out to port and her fores'l marvels, it is said, in the way of beautifying the city. It made a beautiful "Oh, I see!" cried the lady. "It's square, with flowers and plants, in just like a chicken-a wing on each what was an unsightly "hitching" side. Now I understand why they place. It will erect fountains there, expects to secure a library, will fight 'jibs.' It's short for 'giblets,' of course. the mosquitoes and do numerous othe: things.

Improving House Yard.

The house yard should never be overlooked. As a rule, the lawn appears better if not fenced; a gently sloping lawn gives the best effect. Ornamental shrubs may be planted with good effect. The trees may be arranged in rows or placed irregularly so as to give the appearance of a grove. White elm, box-elder or catalpa make good shade trees. Walks should be laid where secessary, and then as direct as possible. Flower beds along the sides of the walk are very attractive.

his head. I don't think anyt would have cured him except Cuticura.

"I have bought Cuticura Ointment and Soap several times since to use for cuts and sores and have never known them to fail to cure what I put them on. I think Cuticura is a great remedy and would advise any one to use it. Cuticura Soap is the best that I have ever used for tollet purposes." (Signed) Mrs. F. E. Harmon, R. F. D. 2, Atoka, Tenn., Sept. 10, 1910.

A New Sensation.

Little Jean had visited one of the large summer amusement parks for the first time, and with the courage possessed only by those girls whose playmates are boys and girls older than themselves, she had not hesitated, when invited, to take a ride on one of the "thrillers" that abound in such places.

"To her mother, on her return from the park, she confided the emotions she had experienced as she swept round the curves of the "figure eight" with her elder brothers.

"Mamma," she said, "when I went round those awful turns so fast I felt just as if I had freckles on my stomach!"-Youth's Companion.

With Emphasis.

Mistress (hastily sticking a flager into either ear)-Kittle, for heaven's sake! what does that frightful noise and profanity in the kitchen mean? Kittle-Oh, that's nothin', ma'am! It's on'y cook rejectin' a propos'l av marrij from the ashman!-Harper's Bazar.
