

SUFFERED AGONY.

Backache, Headache and Dizziness Caused Untold Misery. Henry J. White, 416 No. 3rd St., Ft. Smith, Ark., says: "I suffered every thing but death from terrible kidney trouble. I did not have a moment's peace. The urine resembled blood and left a red stain when I touched the linen. When passed, fire could not have burned more. I had awful headaches and dizzy spells and my back ached constantly. I began using Doan's Kidney Pills after various remedies had failed to help me and was completely cured. I have had no sign of kidney trouble since."

Remember the name—Doan's. For sale by druggists and general stockkeepers everywhere. Price 50c. Foster-Milburn Co., Buffalo, N. Y.

SHE WANTED FULL WEIGHT.

Butcher—Haven't seen you in my shop lately, ma'am. I hope you haven't stopped trading with me entirely. Mrs. Blunt—Yes, entirely, sir. I'm a woman that doesn't believe in half weight measures.

BABY'S HAIR ALL CAME OUT

"When my first baby was six months old he broke out on his head with little bumps. They would dry up and leave a scale. Then it would break out again and it spread all over his head. All the hair came out and his head was scaly all over. Then his face broke out all over in red bumps and it kept spreading until it was on his hands and arms. I bought several boxes of ointment, gave him blood medicine, and had two doctors to treat him, but he got worse all the time. He had it about six months when a friend told me about Cuticura. I sent and got a bottle of Cuticura Resolvent, a cake of Cuticura Soap and a box of Cuticura Ointment. In three days after using them he began to improve. He began to take long naps and to stop scratching his head. After taking two bottles of Resolvent, two boxes of Ointment and three cakes of Soap he was sound and well, and never had any breaking out of any kind. His hair came out in little curls all over his head. I don't think anything else would have cured him except Cuticura."

"I have bought Cuticura Ointment and Cuticura Soap several times since to use for cuts and sores and have never known them to fail to cure what I put them on. Cuticura Soap is the best that I have ever used for toilet purposes." (Signed) Mrs. F. E. Harmon, R. F. D. 2, Atoka, Tenn., Sept. 10, 1910. Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book, will be mailed free on application to "Cuticura," Dept. 16 L, Boston.

Resting Must Be a Business. Will M. Ross, a well-known writer of Stevens Point, Wis., who is himself a cured consumptive, holds that unless resting becomes a business to the tuberculosis patient, he might as well give up his fight for health. "The period of infection with tuberculosis," he says, "is not a vacation. It is a twenty-four-hour-a-day job. True it is a period of idleness, but one of intelligent, directed idleness. The day's work should consist of rest; rest should be the only business on hand. The light exercise, or hour of reading, should be considered as the reward of a good day's work, like the evening of slippers and the tired business man at the end of the day. This recreation, however, should be considered only as an incidental result of the patient's work, not the main object."

New Penal System for Ontario. The Ontario government has recently abolished the system of prison labor contracts in that province. In future the majority of the prisoners in the penal institutions of Ontario will be employed upon farms and the making of roads in the newly opened districts. There will, however, be a percentage of the prisoners whose health or other circumstances prevent them from joining in this open air work. These men will manufacture hospital supplies—beds, blankets and so forth.

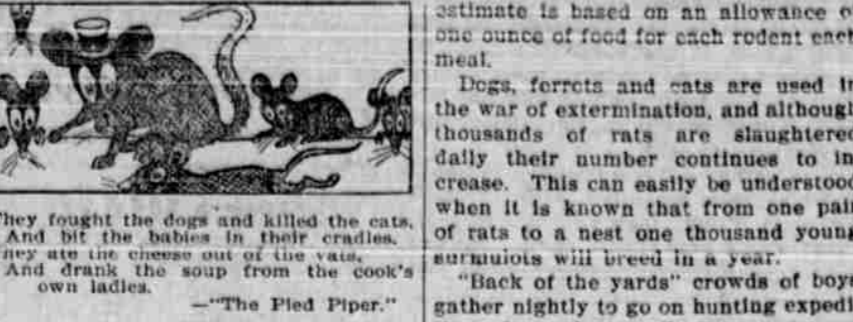

A Distinction. Mrs. Gaddy—There are some distinctions in life which are very puzzling to me. Professor Pundit—Like what, for instance? Mrs. Gaddy—When you write everything bad and mean in a man's life in a book for everybody to read, it is biography; but when you just tell the same things to a few people on a front porch, it's gossip.

Generous. "Was he generous when a boy school?" "Yes; he always let his schoolmates take his share of the punishment."—Judge. A love affair can end two ways: in one the letters and pictures are burned; in the other the letters and pictures are forgotten.

HAPPENINGS IN THE CITIES

City Wages War to Rout Army of Rats

CHICAGO—The health department estimates there are more than 600,000 rats in Chicago and that the number is increasing day by day, despite the efforts of professional rat catchers and the use of mechanical devices for their destruction. War of extermination against members of the vermin tribe is carried on in all parts of the city, but in no place is the slaughter greater than at the stock yards. There the battle is waged continually. Every morning for breakfast men who have studied the subject say the little brown rat in this city consumes a quantity of food equal to the meat of 52 cows. Since they eat three meals a day in each twenty-four hours, they consume three times that quantity, or equal to 156 head of cattle. This estimate is based on an allowance of one ounce of food for each rodent each meal.

Dogs, ferrets and cats are used in the war of extermination, and although thousands of rats are slaughtered daily their number continues to increase. This can easily be understood when it is known that from one pair of rats to a nest one thousand young survivors will breed in a year. "Back of the yards" crowds of boys gather nightly to go on hunting expeditions for rodents. Garbage cans are overturned, and as the rats scamper away dogs accompanying the boys catch and kill them. The boys carry sticks or clubs in their hands and kill the rats when they attempt to escape. Many become so expert at rat catching that in after years they embark in it as a profession. Some of the stores in the loop district have a pack of trained fox terriers to keep the rats away, but the animal which has earned the name of "nature's police woman" is the plain alley cat that stalks the street at night. Rats cause heavy losses to business houses. They burrow through bolts of cloth to build their nests, destroying many thousands of dollars' worth of goods.

Weeping Widow Quickly Weds Consoler

SWAINSBORO, Ga.—Standing beside the open grave into which the body of her husband was about to be lowered, Mrs. J. J. Jewell was hysterical with grief, and friends had to restrain her from throwing herself into the grave upon the casket of the man with whom she had lived happily for 15 years and who was the father of her six children. Women tried in vain to comfort her and the scene was an unusually painful one until Robert S. McDaniel, a young man who recently came here from Joplin, Mo., and who had become very friendly with Jewell, stepped close to the widow and whispered a few words through her heavy veil of black. Whatever McDaniel said seemed to give the widow courage to bear up during the soul-trying "ashes-to-ashes, dust-to-dust" period of the ceremony, and she waited through those painful moments with surprising fortitude, considering her pitiful condition before the whispered consolation given to her by McDaniel. Turning from the grave when it was all over, she leaned on the arm of McDaniel as she walked to the gate, where she and her children were helped into a carriage by kind-hearted neighbors and were driven to the fatherless home, a little farm for which it wasn't the probate judge that Mrs. Jewell was looking for, however, but the marriage license office. Guided by McDaniel, she walked into the office and gave her age as thirty-one while he gave his as twenty-six. Lifting her black veil so that she could see to write her name, the widow signed the affidavit and in a few minutes they were married and on their way back to the Jewell farm.

Horse-Poisoning Is the Newest Graft

NEW YORK.—The police here believe that they have finally succeeded in breaking up one of the strangest as well as one of the meanest forms of graft which the members of the underworld, always fertile in such schemes, have ever developed. This form of graft in no way resembles the good old bunko games of the professional sharper, but has brought about instead the new calling of the professional horse-poisoner. The methods of earning a livelihood in this manner, as revealed by the capture of a gang of poisoners, are simple. As practiced here, the game has been worked by men acting in couples, one to handle the finances, the other to do the poisoning. The former, to begin operations, selects a certain section of the city, preferably one in which one or more big stables are located. His assistant is then sent out to poison two or three horses a day for a week. This is accomplished by giving them, as the opportunity may occur, a lump of sugar, half an apple or some other equine delicacy, loaded with poison. There is no monetary gain in this, the preliminary stage, which is merely done to create a favorable state of affairs—that is, from the viewpoint of the grafter. As soon as the poisonings begin to be talked of the financial man gets busy. He goes to the owner of a large stable, mentions the numerous deaths from poison, and offers protection for a sum varying from \$25 to \$100 a week. If the owner refuses to pay, coercion is brought to bear in the shape of a few deaths among his animals. The fact that the two grafters were never seen together made the game a difficult one to stop, but the final rounding up of the gang of poisoners should end this peculiar graft, since the penalty under the law is a heavy one.

Texas Papas May Prevent Elopements

FORT WORTH, Tex.—Elopements of lovers under the legal age, twenty-one for the young man and eighteen for the girl, will be effectually checked in Texas by the new law adopted by the late legislature and now effective. Under this law no person under the legal age can obtain a marriage license without the written consent of the minor's parents, and the paper must be acknowledged before a notary public like a deed. If a minor has no parents, a county judge's consent to the union is necessary. If the clerk doubts that either the prospective bride or bridegroom has attained the legal age, he is authorized to require the affidavit of some other than the contracting parties. County Clerk Beavers has interpreted the law to mean that the written consent of both parents, properly executed, must be filed, and that the consent of the father or the mother singly is not sufficient. The old law authorized the county clerk to require the bridegroom or other person applying for a marriage license to make affidavit to the ages of the parties. In case of doubt, but this law was frequently and successfully evaded. A common method of evasion was for the young man, if under age, to put a slip of paper, bearing the number 21, in his shoe, and for the girl to put in her shoe a slip of paper with the number 18, and then the man would cheerfully make affidavit that he was "over twenty-one," and with equal sincerity the girl would make affidavit that she was "over eighteen."

The Comeback. Comedian Boarder—I have named this coffee November, my dear madam. Stern Landlady—Indeed, sir. And why? Comedian Boarder—Because it is so cold and cloudy. Stern Landlady—What a brilliant young man! I thought of naming it after you. Comedian Boarder—And why? Stern Landlady—Because it is so long before it settles. The Next Step. "I've seen pictures of King George V. when a baby, King George V. when a schoolboy, King George V. when a sailor, King George V. in uniform, King George V. in street attire, King George V. in his coronation robes, and now—" "Well?" "I'm just waiting to see what newspaper will be the first to print pictures of King George V. in his royal pajamas."

Investigations show that the majority of men working on salaries are paying out one-quarter or more of their entire earnings in rent. Take paper and pencil and sit down and figure out what this rent bill amounts to in the course of a year; then see the amount it comes to in ten years. You will be almost appalled at the size of the amount. In most cases it is enough to buy outright a fine house and lot, a valuable property that can be made into a real home. But what has the renter to show for this money at the end of ten years? Nothing but a big pile of rent receipts. Nothing that he can call really his own after paying out enough money to buy the house. He has no more right to it than he day he moved in, and may be turned out into the street any time his everlasting rent payments are not made. And, after all, the investment feature, the money end of the proposition, is really of minor importance, compared to some others. Parents having the welfare of their children at heart should make any sacrifice needed to provide a real home for them to grow up in. Think of the delights of the "Old Home" you once knew. What fond memories cluster about it. What an influence for good that old place has been to you in your life! You have looked back to it with reverence and have hurried back to it eagerly whenever there was a chance. "Home" is the most beautiful word in the English language. There is no place on earth like home. What do you suppose your children are to do for a home, when you have

Sworfish Rams a Dory. A monster sworfish rammed its sword into a dory sent out from Capt. Richard Noonan's Dorys, near Boston, breaking the dory to splinters and hurling into the sea George Noonan and Thomas O'Rourke, fishermen, who were rescued with great difficulty by three of their mates off Block Island. Just as they were sinking in water probably a quarter mile deep Capt. Noonan, Engineer Louis Griffin and another man plunged into the sea and rescued them. All five were liable at any time to be rammed and killed by the mad sea monster. With the seamen safely aboard the fishing vessel the fight with the sworfish was renewed. The fish was weakened by the first fly iron thrust deep into its side, and Engineer Griffin despite his dripping clothing put out in another dory and again speared the fish. This time it succumbed and yielded to the rope which hauled it in.—Boston Post. It Helped Him, Anyway. "Your husband doesn't look very sick, Mr. Anderson," said the doctor who was called in to attend a patient suffering from too much hot weather.
