

FARM AND GARDEN

HOT WEATHER? GARDEN WORK

Pulling Up Weeds Whenever Found Will Save Considerable Labor Next Year—Care for Lilacs.

(By EREN E. REXFORD.) Weeds and weed again. In brief, pull up every weed as soon as you see it. All the work of this kind done this season will save a great deal of labor next year, for every plant allowed to go to seed will most likely be perpetuated by a thousand seedlings.

Make a practice of going over the garden beds and clipping away seed vessels. The plants will at once set about making good their loss and as flowers are the first step toward the formation of seed, they will soon produce a new crop of blossoms. Therefore, keep them down from the start and you will have nothing to complain of. A place without the lilacs would be one that failed to live up to the privileges warranted. I consider the lilac one of our very best shrubs.

Keep the ground about the lilac bushes mowed or hoed closely. If this is done the suckers about this plant of which so much complaint is made, will cause no more trouble than ordinary weeds. It is when they are allowed to grow for a season that the trouble begins. Therefore, keep them down from the start and you will have nothing to complain of. A place without the lilacs would be one that failed to live up to the privileges warranted. I consider the lilac one of our very best shrubs.

SURE TO DESTROY WEEDS

Ingenuous Implements Arranged to Allow Injection of Liquid Around Roots of Plants.

A most ingenious implement for destroying weeds has been invented by a Washington man. A rod has a sharp metal point at one end and

Sure Weed Destroyer.

a reservoir extending out from it just above this point, which is hollow and has an opening at the bottom. The reservoir has a discharge spout leading into the hollow point and a rubber bulb, by means of pressure on which the contents of the reservoir are discharged through the spout. This reservoir is filled with tobacco juice or some other liquid that will kill plants. The garden er then inserts the point at the root of a weed and presses on the rubber bulb with his foot. An injection is thus squirted on the roots of the weed, which soon kills it. Compare this method with the laborious system of pulling weeds up, one by one, and tearing up the turf into the bargain—to say nothing of the wear and tear on the only back you'll ever have.

STACKING HAY FROM WAGONS

Trolley May Be Arranged to Do the Work in Fields Where There is Much Hay to Be Piled.

The accompanying illustration shows how to make a trolley stacker that will do service in the field where there is much hay to be stacked. In constructing this a wire cable one-half inch thick is required, says a writer in the Farm and Home. It may be made any length, according to the requirements of the farm.

Trolley Hay Stacker.

This cable is attached to stakes in the ground and is run up through a notch made by two long poles at each end of the stack. On this cable and c show details of attaching the cables to the poles.

Large Silos Practical.

Silage settles very compactly when it is into the silo, and the pressure build approximately follow the same way as apply to liquids. Thus the pressure per square inch at the bottom of the silo would be largely governed by the height to which the silo is filled. If the silo is of stave construction with hoops, this would mean that a silo 150 feet in circumference would require hoops practically three times as strong as a 50-foot silo. This means there would be three times as much pressure per square inch received on the silage. It is entirely practicable to provide for such strain.

Corn Fodder.

The chemist tells us that 70 per cent of the feeding value of corn is below the ear. If this be so, how much do you lose by feeding the whole when you use but the stalk? It is worth about as much as the ear, and the ear has lost none of its value.

DEVICE TO MEASURE FIELDS

Simple Contrivance Shown in Illustration Much Better Than Surveyor's Chain or Tapes.

The simple contrivance shown in the illustration for measuring fields is much better than a surveyor's chain or tapes, because it can be used by one person, says the Homestead.

Hub and Spokes.

one-half inches long. The hub (b) is made of two circular pieces of board one inch thick and six inches in diameter bolted face to face together, and holding the spokes firmly in the grooves previously cut. There should be eight spaces between the points, as there are eight spokes, which at the end should be twenty-four and three-fourths inches apart. The points of the spokes must not be sharp, or they will sink into soft ground and the distance will not be accurate. Paint one spoke a different color from the rest, so that it may be easily counted every time it comes around. Push the wheel ahead like a wheelbarrow. Measure the field lengthwise, then crosswise, multiply length in rods by breadth and divide the result by 160, which will give the number of acres the field contains.

BALE YOUR HAY THIS YEAR

Kept Compact, is Easy to Handle and Takes Up Comparatively Little Room—Always Clean.

Loose hay is so bulky that it takes up five or six times the barn space of baled hay. Loose hay quickly gathers dust—which causes coughing of stock and perhaps disease. The whole outside of a stack of loose hay is practically wasted by wind, rain, sun and the other elements. This often amounts to 20 per cent of the stack. Loose hay can not be shipped far, and the local dealer knows it. So he pays you its price, and you sell because you know that your loose hay must be sold near home.

Baled hay is compact—easy to handle—takes up comparatively little space, so can be stored until prices reach the top, when you can sell anywhere, distance does not matter much. Baled hay is always clean and fresh, loses none of its nutritive qualities, and there is no waste.

Grub Worms. Under no circumstances should you use the same garden spot again until you have rid the soil of the worms and grubs. To do this plow the land, roll, drag and roll again to hold the moisture so all the weeds will start to grow. Then give it another thorough working.

In September go over the ground again making sure all weeds are destroyed, and next spring you may again use the space for a garden.

Loosening the Soil. Loosening of the soil on the surface forms a mulch which conserves the moisture and also offers the most favorable conditions to pack and store rainfall. The soil is also aerated. The foul gases arising from decaying organic matter are removed and oxygen is supplied to the growing plants. More than this, the fertility of the soil is developed by cultivation.

Don't Disappoint. Don't disappoint your customers. Make sacrifices if necessary to live up to your promises. Be prompt, be courteous, be accommodating. Make your patrons feel that your produce is the best, and make certain that there is at least nothing better.

FARM NOTES

Remember that bees crawl up instead of down. Extracted honey will candy much sooner than comb honey. The drains should be properly laid out and carefully graded. You give the weeds a big advantage if you let them go to seed.

Send your honey to the market in as attractive a form as possible. When the crops begin to grow it's easy to find where the manure spreads. The breeder that is afraid of the real test of his breed will never do the breed much good. Some weeds have such tenacious roots that the only way to kill them is to pull them up. One of the chief causes for alfalfa failure is that the young plants are crowded out by weeds. Deep plowing is one of the most effective ways of keeping a good moisture content in the soil.

The automobile is an important addition to the farm equipment. It is more than a luxury. Do not plow when the ground is wet. When this is done the soil is compacted into hard lumps. Old fence posts are worth more if cut up and put in the wood house than if left lying around to rot.

For the Hostess

"Can" Shower.

At a jolly affair given for a bride who had lived in the town all her life, and was a great favorite, the hostess asked each guest to bring a "can" of something for an emergency shelf. Then she gave this "can" contest, reading the questions, each one keeping account of the number answered.

1. Though this can is a can, you all will agree, the can is termed thus, because it holds tea.
2. This long, narrow can holds so precious a stock That oft you will find it has more than one lock.
3. The most wicked can, tho' safe from police, Should you search for its heart you will find it in grease.
4. This can is a can that delights you and me, It always is "open," and likewise is free.
5. Where breezes blow, and surges roll, With swelling form and manner proud, This can in triumph rides the waves, The sailor's living and his shroud.
6. Here's a can which, bear in mind, Lives on others of its kind.
7. They say empty cans will produce the most noise, But if properly filled, this will startle the boys.
8. Most cans are hardly fit to eat, Yet you'll like this kind, nice and sweet.
9. The waltz or the glee or the bold and martial strain, Each one, as his favorite, indorses, But for those who prefer oratorio style.
10. This can sweetest music discourses, Now who would elect in a can to reside.
11. Yet this as a shelter is known far and wide.
12. What a horse should use cans seems indeed strange to say, Yet if pressed to have one, he'd not utter a nay.
13. To put cans in poems no one is I've found.
14. In tubs and in barrels men have ventured from land, And in cans of this kind, so I understand.
15. Now here is a can that is yellow and round, 'T would seem little prized, for it grows on the ground.

Their prominence in the coronation celebration has brought rich oriental fabrics again to the fore.

Dressing Gowns

THE gown on the left is a pretty gown of cream Vivella, cut Magyar and trimmed with colorful and cuffs of turquoise Vivella; the right front is taken over to the left side, where fastenings are formed by buttons covered in blue. A girle draws the gown in at waist. Materials required: Five yards Vivella 33 inches wide, 1 yard blue for trimming, 9 buttons.

A real kimono, in style, is the second. It is made up in Japanese cotton crepe, edged down front and on sleeves by bands of saten of the same color as design on crepe. A sash draws the gown in at the waist, and is loosely knotted at the left side of front, where ends are left hanging.

Materials required: Seven yards cotton crepe 28 inches wide, 1 1/2 yards saten. Sweet peas in their delicate pink, blue, lavender and pink shades are ideal for the afternoon hats.

The Kimono Cape. The kimono cape is to be noticed among the latest fashions, and a most attractive fashion it is, giving the faintest of finish to the one-piece gown of linen or pongee. These two materials are for the moment the most desirable, but just as in the other model this can serve for next winter in cloth or velvet or in velvet with fur. It is smart, it is novel, and most becoming, and surely there is nothing more that could be desired. It is very charming made up in cerise tussor with facings of a darker satin and with pipings of the satin, and it affords an excellent opportunity for good color combinations or contrasts.—Harper's Bazar.

Chamois Trimmings. An odd but beautiful evening gown is of chamois-colored tulle, with em broderies worked on real chamois leather in Japanese style with Boss silk. The designs are alysanthiums in lovely shades of yellow, gray and drab, and here and there a dragon worked in silver thread.

HE HAD THEM IN A CORNER

Clergyman's Rebuke to Thoughtless Youths at Once Neat and Disconcerting.

A well-known clergyman was one day in a barber's shop, when four or five young men walked in whom he knew by their voices, but who did not recognize the man in the chair, with latter all over his face. They proceeded to spend the time by telling stories and using expressions which, to say the least, were rather strong. When the barber pulled away the towel the clergyman, cleanly shaved, stood before them. So nonplussed were they that no one tried to take the vacant chair, and the barber called several times—"Next gentleman! Next gentleman!"

The clergyman smiled somewhat grimly as he said: "It isn't a bit of use, John. There's not a man here who has the effrontery to answer to that name."

TO KEEP THE SKIN CLEAR

For more than a generation, Cuticura Soap and Cuticura Ointment have done more for pimples, blackheads and other unsightly conditions of the complexion, red, rough, chapped hands, dandruff, itching, scaly scalp, and dry, thin and falling hair than any other method. They do even more for skin-tortured and disfigured infants and children. Although Cuticura Soap and Ointment are sold by druggists and dealers throughout the world, a liberal sample of each, with 32-page book on the care of the skin and hair will be sent post-free, on application to "Cuticura," Dept. 22 L, Boston.

SURE.

Man in the Big Hat—'I've always made money out of politics. Man in Small Hat—Are you a political orator? Man in Big Hat—No; I'm the leader of a brass band. The musicians always get paid, but the orators are expected to talk for nothing.

NEW STRENGTH FOR BAD BACKS.

Those who suffer with backache, headache, dizziness and that constant, dull, tired feeling will find comfort in the advice of Mrs. C. S. Tyler, Grand N. Dak., who says: "My back became terribly sore and lame. I was tired and restless and would arise so exhausted I could scarcely dress. The kidney secretions were terribly annoying and my feet became so swollen I could not wear my shoes. Nothing helped me until I began using Doan's Kidney Pills. They gave me prompt relief and in a short time I was entirely cured."

Remember the name—Doan's. For sale by druggists and general storekeepers everywhere. Price 50c. Foster-Milburn Co., Buffalo, N. Y.

The Fly. "Where on earth do those flies come from?" is a frequent and despairing question. They may come down the chimneys, if the flaps have tipping dampers. These should be tightly closed in fly-time. An appreciable falling off in their number will be the result.

If the chimneys have not the tipping damper, a screen such as is used for a window can be fitted into the fireplace, or, easier still, a bundle of paper may be stuffed up the chimney. Either method is successful, and no trouble is too great to get rid of these summer pests.

Plenty of Stability. A western mining prospector was paying his first visit to New York. "What do you think of it?" asked the proud Gothamite as he pointed out the skyscrapers.

"Wall," replied the miner, "it looks like a permanent camp all right."—Success Magazine.

BEAUTIFUL POST CARDS FREE Sent in stamp for five samples of my very choice Gold Embossed Birthdays, Flowers and Motto Post Cards; beautiful colors and loveliest designs. Post Card Club, 731 Jackson St., Topeka, Kansas.

A sordid love of money is certainly a very senseless thing, for the mind much occupied with it is blind to everything else.—Diphilus.

Classifying Member of Inferior Sex. Stella—Is her husband a stick? Bella—No, a lubberhook.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce which they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them. Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases. It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.—take the advice received and be well.

HAD CAUGHT THEM.

He (after he had kissed her)—My! What's that noise back of us? She—I guess papa's trying his new motion picture machine.

Cruel Disappointment. Jurgend tells this story: "In the lower court of a small town in Saxony William had served faithfully and well as attendant to the presiding judge for many years without ever having received any reward, aside from his legal stipend. On the day of adjournment for the season, when visitors had retired, the judge, who was also about to leave, asked: 'William, do you smoke?' Seeing a square box under the judge's arm, he answered respectfully: 'Yes, your honor.' 'I knew it by the smell of your coat,' said the judge, as he walked out."

Important to Mothers Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Chas. H. Fletcher* In Use For Over 30 Years. Children Cry for Fletcher's Castoria.

His Way of Life. "War is hell." "You seem to believe that in times of peace one should prepare for war."

The man who plays poker for pastime usually passes more or less coin over to the other fellow.

Mrs. Whitson's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, etc. a bottle.

For the son of man there is no noble crown, but a crown of thorns.

BETTER FOR MEN, WOMEN AND CHILDREN THAN CASTOR OIL. SALTS, OR PILLS, AS IT SWEETENS AND CLEANS THE SYSTEM MORE EFFICIENT, Y AND IS FAR MORE PLEASANT TO TAKE.

SYRUP OF FIGS and ELIXIR OF SENNA

IS THE IDEAL FAMILY LAXATIVE, AS IT GIVES SATISFACTION TO ALL, IS ALWAYS BENEFICIAL IN ITS EFFECTS AND PERFECTLY SAFE AT ALL TIMES. NOTE THE NAME CALIFORNIA FIG SYRUP CO. In the Circle on every Package of the Genuine.

ALL RELIABLE DRUGGISTS SELL THE ORIGINAL AND GENUINE WHEN CALLED FOR, ALTHOUGH THEY COULD MAKE A LARGER PROFIT BY SELLING INFERIOR PREPARATIONS, YET THEY PREFER TO SELL THE GENUINE, BECAUSE IT IS RIGHT TO DO SO AND FOR THE GOOD OF THEIR CUSTOMERS. WHEN IN NEED OF MEDICINES, SUCH DRUGGISTS ARE THE ONES TO DEAL WITH, AS YOUR LIFE OR HEALTH MAY AT SOME TIME, DEPEND UPON THEIR SKILL AND RELIABILITY.

WHEN BUYING Note the Full Name of the Company CALIFORNIA FIG SYRUP CO. PRINTED STRAIGHT ACROSS, NEAR THE BOTTOM, AND IN THE CIRCLE, NEAR THE TOP OF EVERY PACKAGE, OF THE GENUINE. ONE SIZE ONLY, FOR SALE BY ALL LEADING DRUGGISTS. REGULAR PRICE 50c PER BOTTLE.

SYRUP OF FIGS AND ELIXIR OF SENNA IS THE ONLY PERFECT FAMILY LAXATIVE, BECAUSE IT IS THE ONE REMEDY WHICH ACTS IN A NATURAL, STRENGTHENING WAY, AND CLEANS THE SYSTEM, WITHOUT UNPLEASANT AFTER-EFFECTS AND WITHOUT IRRITATING, DEBILITATING OR CRUEL, AND THEREFORE DOES NOT INTERFERE IN ANY WAY WITH BUSINESS OR PLEASURE. IT IS RECOMMENDED BY MILLIONS OF WELL INFORMED FAMILIES, WHO KNOW OF ITS VALUE FROM PERSONAL USE. TO GET ITS BENEFICIAL EFFECTS ALWAYS BUY THE GENUINE, MANUFACTURED BY THE CALIFORNIA FIG SYRUP CO.

FOR PINK EYE

Distemper, Catarrhal Fever, and All Nose and Throat Diseases. Cures the skin and acts as a preventive for others. Liquid given on the tongue, safe for brood mares and all others. Each bottle contains 10 cents and \$1.00 a bottle; \$5.00 and \$10.00 the dozen. Sold by all druggists and horse goods houses, or sent express paid, by the manufacturers.

SPOHN MEDICAL CO., Chemists, GOSHEN, INDIANA.

W. L. DOUGLAS

\$2.50, \$3.00, \$3.50 & \$4.00 SHOES. WOMEN wear W.L. Douglas style, perfect fitting, easy walking boots, because they give long wear, same as W.L. Douglas Men's shoes. THE STANDARD OF QUALITY FOR OVER 30 YEARS. The workmanship which has made W.L. Douglas shoes famous the world over is maintained in every pair. If I could take you into my large factories at Brockton, Mass., and show you how carefully W.L. Douglas shoes are made, you would then understand why they are warranted to hold their shape, fit better and wear longer than any other make for the price. CAUTION: The genuine have W. L. Douglas name and price stamped on bottom of shoe. If you cannot obtain W. L. Douglas shoes in your town, write for catalog. Shoes sent direct from factory to wearer, all charges prepaid. W. L. DOUGLAS, 145 Spark St., Brockton, Mass.

ONE PAIR of my BOYS' \$3.50 or \$4.00 SHOES will positively outwear TWO PAIRS of ordinary boys' shoes.

THAT AWFUL BACKACHE

Cured by Lydia E. Pinkham's Vegetable Compound

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills, and an enjoying good health. It is now more than two years and I have not had an ache or pain since I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so surely as Lydia E. Pinkham's Compound.

Write to Mrs. Pinkham, at Lynn, Mass., for special advice. Your letter will be absolutely confidential, and the advice free.

ALLEN'S ULCERIN SALVE For the treatment of Chronic Ulcers, Boils, Ulcers, Scalds, Burns, Varicose Veins, Erysipelas, Mercurolic Ulcers, White Swellings, Abscesses, Carbuncles, Etc. Price 50c. Sold by all druggists. W. N. U., SIOUX CITY, NO. 33-1911.
