A merry war has been going this week between the Crystal Lake Improvement association and the farmers on Walker's Island over the opening of the waterway at the east end of the lake. At the session of the board of county commissioners Monday the board denied the prayer of the Crystal Lake Improvement association to have the grade across the outlet between the lake and river opened and culvert placed therein. Monday night the association took the bull by the horns and with a force of workmen opened the grade and put in a 4 foot galvanized iron culvert to let the river water into the lake. Tuesday night a posse of farmers took out the culvert and filled the gap again, and during the day got out an injunction restraining the association from replacing the culvert, and the end is not yet.

Two couples telephoned over from Sioux City Wednesday afternoon to the county judge to be in readiness to tie a double matrimonial knot, as they would be over immediately after supper on the street car. In the meantime his honor became so "indisposed" that he was helped to his room to recover. The intended brides and grooms arrived on schedule time, but was unable to procure a license, as his honor could not be revived, even by "administering stimulants." The next car carried home four disappointed and young peop e.

In ordering The Herald for another year R V W Oberholzer writes from Albuquerque, N. M.—"I often think of 'up north' and the days spent by the 'Big Maddy' and of course naturally enjoy the message of The Herald each week. It is a bit over two years now that we sojourn in what is generally called the region of sunshine. This climate is very much like 'West Texas' and of course is milder than farther north. Today is quite pleasant in the warm sunshine. It is much like a May afternoon. Our boy is out playing on the sidewalk as I pen these lines. At eight, however, it gets quite frosty. We have seen many things of interest in this big country since we 'folded tent' in Nebraska, and we have enjoyed it all. This is the largest place in the new state, and the largest for many miles in some directions out of the state. It would seem that the future of the place is fine, although one cannot tell what the west-ern spirit of change will work. Well, I suppose you know Christmas is coming most any day. Printers and preachers ought to get something about that time if they have been able to survive the pressure for twelve week-months. Well, here is a lot of good wishes for you and yours if you should happen to be short that Christmas g'oble."

HIGH SCHOOL NOTES

Mr and Mrs Niewanger visited the Intermediate and Grammar departments Friday afternoon.

This is the 11th week of the school year and the above mentioned are the only parents who have visited the institution which is educating and preparing for life so many children. Patrons, you will not only make our work easier and more pleasing but you will also greatly benefit your children by paying a visit to the school and giving us your kindly suggestions.

Donald Hall has been absent from school the past week.

The fifth grade has a nice collection of woods mounted.

The fifth and sixth grades are much interested in making product maps of the New England states.

Henry Fowell recaptured school Monday.

Part of Friday afternoon was devoted to construction work. The third and fourth grades made some Christmas boxes.

Clark Cook and Charles Derry were on the truant list Monday afternoon.

Last Thursday afternoon the quietude of the school was destroyed by a runaway team which endeavored to come in the front entrance. Had not one of them fell on the steps they might have caused considerable damage. We are thankful that this wild caper did not occur at recess.
