Boys' Acre Corn Contest.

The Nebraska State Board of Agriculture offer to the Nebraska boys under eighteen years of age, growing the largest yield of corn from one acre of Newbraska land during the year 1912, \$25.00; second \$20.00; third \$15.00; fourth \$10.00; fifth to eighth \$5.00 each; ninth to twelfth \$4.00 each; and thirteenth to sixteenth \$3.00; and to the boy growing the largest yield on an acre of land west of the east line of Boyd, Holt, Wheeler, Greeley, Howard, Hall, Adams and Webster counties, \$25.00; second 15.00; third and fourth \$5.00 each; fifth and sixth \$4.00 each; seventh to tenth \$3.00 each; and twelfth to sixteenth \$2.00 each.
The Lincoln Weekly Star duplicates the above awards, and an entry in one is good for an entry in both offerings.
The entire labor of preparing the ground, planting, cultivating and harvesting of this acre of corn to be performed by the contestants who enter contest by recording his name in the office of W R Mellor, Secretary, Lincoln, not later than May 20, 1912.
Said acre to be measured, husked and weighed in the presence of two disinterested free-holders, residents of said county in which the acre of corn is located. Said committee to forward affidavit as to weight and requirement of specifications in this contest to the secretary of the State Board of Agriculture, not later than December 1, 1912.
The contestant shall file with the secretary a full and detailed account of his method of performing the work, fertilizer used, if any, whether bottom, hill or table land, and the character or kind of soil on which the crop was grown; with an accurate account of the cost of production, rent of ground, cost of plowing, harrowing, discing, planting, cultivation, husking, and every feature of expense in labor, seed, fertilizer, etc, based on the actual time that entered into the production of this acre of corn.
If requested, prize winners must forward a sample of ten ears of corn grown to W R Mellor, Sec'y, Lincoln, Neb.
NOTE: Practically all corn in the state is raised in altitudes varying from 1000 to 2400 feet above sea level, therefore the division made through the state is as nearly as possible along the 1700 foot altitude line. In the contests carried on for several years past only two premiums have gone west of this line.
