- THE BILL HE HAS PREPARED

Secretary W. R. Mellor of the state board of agriculture, who originated the bill introduced by Congressman Maguire of Nebraska for an appropriation for a \$100,000 government building on state fair grounds in states that appropriate funds for a state fair and where the state owns the grounds appeared before the committee on agriculture of the house in Washington in support of the Maguire bill. If the bill is passed and all states eligible take advantage of it the total government appropriation will be \$4,800,000, distributed over several states.

A dispatch from Washington states granted. that Mr. Mellor expressed himself as much pleased with the attention given by the committee to his statement and regarded it as a good omen in connection with the possible passage of the measure.

In speaking to the committee Mr. Mellor said in part:

"An objection raised is that the provisions of the bill are not broad possible to make such a proceeding

constitutional, we would cheerfully say 'Amen,' for we are firm in our belief that more solid practical instruction is imparted for the money expended than by any of the present recognized subsidized methods.

"We also believe that the conditions of this bill are broad enough to permit each state to participate in its benefits. Section 2 of the bill sets forth 'That the appropriation herein made shall inure only to the use of those states which now or hereafter shall by statute recognize and make appropriation toward the establish-

ment and support of a state fair or exposition upon land owned by and under control of the state or a state

board since its organization in 1891 has issued a total of 4,454 certificates to practice medicine in Nebraska. Of this number 154 were practicing physicians who were not possessed of diplomas, but under the provisions of the law were granted permission to practice. The last of these permits was issued in 1895. Of the total permits issued 1,111 were issued the first year the law was in operation, 1,211 have removed from the state after receiving permits ,and 210 have died leaving 3,171 certificates in force at the present time. Of these 2,327 are of the so-called regular school, 473 eclectic and 371 bomeopath. Of the total number who have taken the examinations of the board 325 have failed to pass. During the yeat 1911, 13,987 male children were bcrn, 12,-832 girls, all but sixty-nine of the births being additions to the white population. There were 293 sets of twins and three sets of triplets. There were 11,499 deaths reported to the board during the fiscal year. The report shows there were 11,556 marriages performed and 1.714 divorces

Arbor Day Proclamation. Governor Aldrich issued the following Arbor day proclamation:

The return of spring reminds us that a holiday of special interest to Nebraska is approaching, and citizens of the state should see to it that the

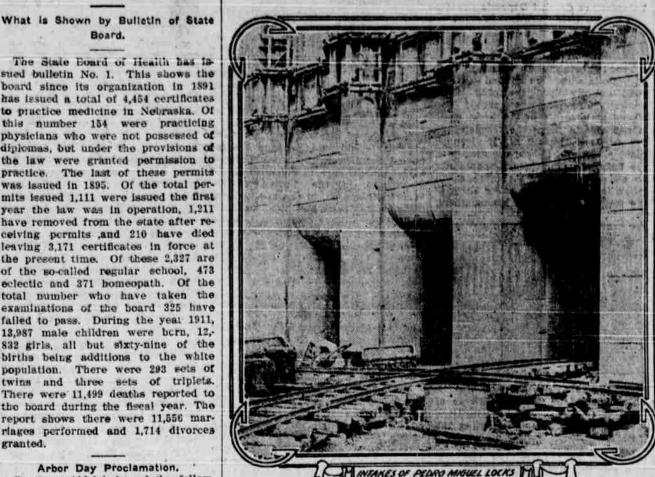

day should be fittingly observed. April 22 has been designated by enough, that it should take in fairs law as Arbor day, and the fact that owned by municipalities and other the founder was a distinguished citiquasi-public corporations. Were it zen of this state gives the occasion added significance.

Therefore, I, Chester R. Aldrich, governor of the state of Nebraska, in accordance with the usual custom and pursuant to the statute in such case made and provided, do hereby proclaim that April 22 be observed throughout the state as Arbor day,

and I suggest that it should be made an occasion of special observance in all schools and that the people of the state generally engage in the planting of trees, shrubs and vines and such other undertakings as shall be fitting with the general character of the occasion

"One of the conditions mentioned in section 5 is 'That the government of the United States hereby reserves not to exceed 20 per cent of the space within said building so erected for departmental exhibits' by giving thirty days' notice. This provision may not be clearly understood. For several years it has been customary throughout the more purely agricultuarl states to make naval exhibits at the state fair. According to statements made by recruiting officers, the boys from the rural districts are better specimens of manhood, make sturdier soldiers and are not addicted to cigarets and other health undermining and vicious habits; therefore, enlistments made from the agricultural states are a paying proposition for

the government, and exhibits made for the purpose of inducing a sturdy class of recruits is desirable to the government for future results." 12.40
