## NEBRASKA'S PRIMARY.

Enough Returns to Indicate Successful Candidates.

While returns from the primary election are not complete at this writing, and will not be for several days, enough reports have been received and tabulated to make certain the successful nominees are in every instance except possibly the democratic candidate for delegate in the Sixth district, where four men endorsed by the Progressive league and one who is said to stand for Harmon, are in the race. In no case is the contest so close that the remaining counties, in view of the way the vote is running, can change the final result.

The vote for presidential candidates as tabulated includes seventy-five counties and 187 scattered precincts, most of which are in Douglas and Lancaster counties. For delegates at large the vote was taken from seventy-one counties complete, or nearly so. For state offices the vote was taken from a total ranging from sixty-three to sixty-nine complete counties.

Compared with primary elections of other years this year will mark the record vote. With about ten counties yet to hear from the total vote to date for presidential candidates is 129,000, not counting the populists, the socialists and the prohibitionists. It would not be surprising if the total vote reported finally to the secretary of state reaches 140,000. The largest previous primary vote was 128,000.

With remarkable steadiness Roosevelt's vote has stayed at 50 per cent more than Taft and LaFollette's combined votes. Champ Clark is now 6,000 votes ahead of Wilson and almost 8,000 votes ahead of Harmon. The latter had a strong lead in Douglas county.

Congressman Norris' vote finally will not be far from 4,000 ahead of that of Senator Brown.

Victor Rosewater will preside at the deliberations of the present national convention up to the time it is called to order and the permanent organization effected. He must then step down and out in favor of R. B. Howell of Omaha by virtue of a verdict of the people of 10,000 majority for the latter at the recent primary. In the contest over delegates Bryan is, so far, 4,000 votes ahead of Hitchcock, though the latter had a lead of 2,000 in Douglas county.

Morehead's majority for democratic candidate for governor will not be far from 3,000 votes. Only a few counties are still to be heard from and these will not materially affect the present standing of the two candidates.

George, state treasurer, is 10,000 votes ahead of Hamer, despite the latter made a vigorous campaign.

**Lost From the Titanic.**  
Kearney County.—A. J. Danborn of Axtell has received word of the death of his cousin, Ernest Danborn, a passenger on the ill-fated Titanic. Douglas County.—In South Platte county, where it was feared that the winter wheat had been damaged by the heavy crust that formed on the ground after the snow went off, conditions are found to be in splendid shape. Weather conditions for the month of April were just about normal, according to the report of the weather bureau. Normal temperature for the month of April is placed at almost 51 degrees, while the average for the past month has been 53. Normal precipitation for the month is placed at 2.77 while there really was 2.50 during the past thirty days. Only eight clear days were observed during the month while sixteen were cloudy and the rest partly cloudy. On eight days there was rain.

## PREPARING FOR DOLLY MADISON BREAKFAST

An interesting spring hospitality, which is absorbing much attention, is the breakfast to be given by the Democratic women of Washington on May 20. Like the Jefferson day banquet given annually by the men of the Democratic party on the birthday anniversary of the father of Democracy, the breakfast of May 20 will honor the patron saint chosen by the women of the party, Mrs. James Madison, the one woman of all who have presided in the home of presidents who has been handed down to fame under an abbreviated Christian name. The beloved "Dolly" during her long life was said to be the most popular woman in the country.

## HIGH COST CHECKED

Morehead's majority for democratic candidate for governor will not be far from 3,000 votes. Only a few counties are still to be heard from and these will not materially affect the present standing of the two candidates.

## CO-OPERATIVE UNIONS CAUSE

Washington, May 7.—The president on Monday transmitted to congress the second installment of the reports of consular officers on co-operation and the cost of living which are the result of the investigation he some time ago directed should be made. The countries included in this installment are France, Belgium, the Netherlands and Denmark.

It appears from the information collected, the acting secretary says, that the rising cost of living has directed attention to and augmented the membership of the co-operative societies, more especially in France and Belgium. The French co-operative associations are in the main arranged upon the same system as those in the United Kingdom. The tendency is towards small societies and the great majority of the associations represent groceries and bakeries. The most successful distributive societies are in the manufacturing cities of northeastern and central France. Among these societies relief funds are administered and insurance against illness and forced non-employment is supplied. Arrangements are made with dentists, doctors and artisans for their services by members on a commission basis.

The operation of the agricultural societies has been especially successful in southern France. The French government has given encouragement to these societies by furnishing expert advice, granting subsidies, and permitting long term loans by agricultural credit associations. The general buying is done principally through district unions. High-grade farm machinery such as is beyond the reach of many individual members is purchased gratuitously or upon the payment of nominal fees.

In regard to industrial co-operative production it appears that plants owned and operated by the operatives are not uncommon in France.

## OUTLAW IS SCORED

PROSECUTOR ARRAIGNS ALLEN AS COLD-BLOODED MURDERER. Lawyer for Slayer Declares Client Did Not Shoot Until After He Had Been Wounded.

Wytheville, Va., May 4.—Floyd Allen, typical native of Virginia's isolated hills, probably for the first time in his life, has arrived at a realization of the determination of the law when it deals with the man who has taken human life.

At the opening of his trial Thursday for the murder of Commonwealth Attorney William M. Foster, Allen, propped up in an easy chair to alleviate the pain of his own wounds, heard a new prosecutor thunderously denounce him as the arch-conspirator in one of the most atrocious crimes in the history of the world.

J. C. Wysof, chief counsel for the state, in his opening address characterized the Allen gang as ruffians, outlaws and cold-blooded assassins. He laid great stress on the charge of conspiracy.

The opening address of Attorney R. H. Willis for the defense was brief. He declared his client had been the victim of gross exaggerations. He denied that Allen killed Miss Nancy Ayers; it was the bullets of either Clerk Dexter Goad or one of his deputies which killed her, he said. He denied the existence of a conspiracy and declared Allen did not draw his own gun until after he had been shot and then he drew it from his hip pocket, not from his vest pocket, beneath the sweater.

Judge D. W. Bolen of Hillsville, who had been Floyd Allen's counsel, took the witness chair and detailed the shooting at the courthouse. He declared that Claude Allen fired the first shot.

B. Weddell, a former resident of Hillsville, said he saw Floyd Allen there the day before the tragedy. Allen told him that day, the witness declared: "I will kill Bill Foster before the sun goes down tomorrow night if I am convicted."

Weddell said he had always been a close friend of the prisoner.

WORKERS HOLD NUMEROUS MEETINGS.

Supporters of President White Favor Peace While Foreign Element Want a Strike.

Wilkesbarre, Pa., May 6.—At the numerous meetings held throughout the anthracite region by the miners, at which the situation was thoroughly discussed and instructions given to delegates to the convention to be held here May 14, when the concessions offered by the operators will be acted upon, the sentiment among the workers as to whether the concessions should be rejected or accepted was about equally divided.

Many of the older men, and particularly those who are strong supporters of National President White, are heartily in favor of peace and expressed their intention of demanding that the report of the committee be adopted. Others, many of the foreign-born mine workers being among them, who are strongly in favor of rejecting the report of the subcommittee and demanding that there shall be a strike if the operators refuse to grant recognition of the union, which embodies the collecting of the union dues from the mine workers by the coal companies by the check-off system.

## AMUSEMENT BAN IS LIFTED

Resolution Condemning Secretary Wilson for Connection With Brewers' Congress Adopted.

Minneapolis, Minn., May 6.—The board of bishops of the Methodist Episcopal church reported to the general conference of the church Friday in favor of lifting the church ban from dancing, card playing, gambling and attendance at horse racing, theaters and circuses.

In making this radical recommendation the 24 active bishops who formulated the report declared that the American people are too far advanced longer to be restricted by church rules as to what their amusements shall be. It is suggested that each individual follow the dictates of his own conscience.

A representative from Missouri offered a resolution condemning Secretary of Agriculture James Wilson and virtually threatening to vote against the Taft administration. This was adopted by a vote of 544 to 241 after a sharp fight on the floor of the convention. An effort was made to have it referred to a special committee and there was sharp debate before it passed. The resolution was the outgrowth of the Brewers' congress, of which Wilson was made honorary chairman.

The resolutions were signed by Rev. J. W. Anderson, Rev. W. P. Burris and Rev. W. E. Christy, all of Missouri.

## BOY PLUNGES INTO DEEP OPEN SEWER

The Youngster Is Swept Out into the Ocean, Where the Body Disappeared.

Victim of Tragedy Was Doing Balancing Stunts on the Tops of the Piling When He Topped Into the Water.

## COULD NOT BE SAVED

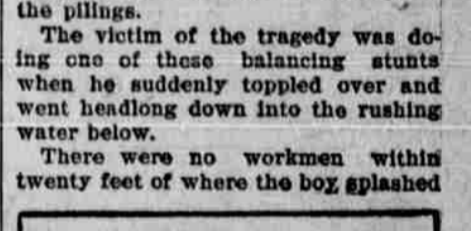

New York.—By tumbling into a street excavation opposite 813 East Seventy-first street the other day, William Hoberley, about four years of age, plunged into the uncovered sewer 12 feet below and was swept out into the East river, and three blocks away, where the body sank and was whirled south with the tide.

For a distance of almost fifty feet a half score workmen saw the body carried in the thick, murky waters of the sewer and then vanish where the excavation ended, a hundred feet or so west of First avenue.

The excavation is the width of the sewer main and shored up with heavy planks on each side. The top was removed for repairs and for a distance of 50 feet is uncovered. The shoring planks rise above the street level in irregular pillars for the purpose of fencing the excavation and preventing unwarly pedestrians from tumbling in. But there are breaks here and there in the shoring and the boys that swarm the neighborhood have persisted in wriggling through and walking along the edge of the excavation or doing balancing stunts on the tops of the pilings.

The victim of the tragedy was doing one of these balancing stunts when he suddenly toppled over and went headlong down into the rushing water below.

There were no workmen within twenty feet of where the boy splashed.

in, and there was no possibility of saving him. The tide in the sewer washes swiftly toward the river and the small body was borne along as if it had been a chip. To those who looked on and were unable to act it seemed only a matter of seconds before the boy's body vanished.

Several workmen and a troop of boys sprinted down the street for the East river, but it was not likely that they went as fast as the body of the boy was whirled along. When they reached the pier that looks down on the mouth of the sewer they provided themselves with boat hooks and ropes and watched for about half an hour.

They watched in vain. Later experiments were made by tossing pieces of timber into the excavation and trying to keep pace with their progress down the sewer, but the fleetest runners among the boys in the district were unable to keep pace with the progress of the rushing waters.

The tide was running out at the time the boy was lost—about 2:15 o'clock.

**Shows Nerve, Then Faints.**  
Camden, N. J.—At the point of a revolver, Mrs. Mary Borich of Master street and Ferry avenue the other afternoon compelled a thief to drop some jewelry he had stolen after he had engaged board at the house, and then hustled him into the street. Hardly had the thief disappeared before the woman fainted, but soon was revived by neighbors. Early in the day a well-dressed youth, who gave the name of Stanislaus Sobleski, was directed to a room upstairs. Mrs. Borich later became suspicious and caught him in the act of taking jewelry from her room.

**The Governor Promised.**  
Albany, N. Y.—When Governor Dix's auto became stuck in the mud, a farmer refused to pull it out until the governor would promise to sign a good roads bill. The governor promised.
