"From your druggist get one ounce of Toris compound in original sealed package) and one ounce of syrup of Sarsaparilla compound. Take these two ingredients home and put them into a half pint of good whiskey. Shake the bottle and take a table-spoonful before each meal and at bed-time." This is said to be the quickest and best remedy known to the medical profession for rheumatism and backache. Good results come after the first dose. If your druggist does not have Toris compound in stock he will get it for you in a few hours from his wholesale house. Don't be influenced to take a patent medicine instead of this, Insist on having the genuine Toris compound in the original one-ounce, sealed, yellow package. Hundreds of the worst cases were cured here by this prescription last winter. Published by the Globe Pharmaceutical laboratories of Chicago.

Demagogue. William H. Maxwell, the superintendent of New York's schools, said the other day, apropos of certain demagogic proposals:

"But the best definition of a demagogue will always remain that of a little girl of seven, who said: 'A demagogue is a vessel containing beer and other liquids."

A Diplomat.

Son-Pa, is a diplomat a man who knows how to hold his tongue? Father-No, my boy. A diplomat is a man who knows how to hold his

## LIFE'S STRUGGLE WITH ILLNESS

Mrs. Stewart Tells How She Suffered from 16to 45 years old-How Finally Cured.

Euphemia, Ohio .- "Because of total ignorance of how to care for myself then verging into womanhood, and from taking cold when going to school, I suffered from a displacement, and each month I had severe pains and nausea which always meant a lay-off from work for two to four days from the time I was 16 years old.

"I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedies but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has been my home for the last 18 years.

"The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or any one the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blest with excellent health for a wowoman of my age and I can thank Lydia E. Pinkham's Vegetable Compound for it

Since the Change of Life is over I have been a maternity nurse and being wholly self-supporting I cannot over estimate the value of good health. I have now earned a comfortable little home just by sewing and nursing since I was 52 years old. I have recommended the Compound to many with good results, as it is excellent to take before and after combirth."—Miss EVELYN ADELIA STEWART, Euphemia, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

FOLLOW THE JAPANESE STYLE

Many Prefer This Form of Landscape Art in Making Plans for Their Gardens.

Many admirers of Japanese art have treated their backyards in the Japanese style, which lends itself admirably to small places. It is a style which requires considerable taste and artistic ability to handle properly. If not well done, It becomes grotesque and ridiculous. One very successful example of this style is the garden of Mrs. Lilliam Burkhardt Goldsmith. the well known actress and dramatic reader. The mossy hills, the water fall, paths and tiny stream were all laid out and very largely made by her skilful hands. One of the loveliest things in the garden is the wistaria arbor, in spring a mass of pendent lavender chains.

Instead of laving the emphasis or the garden plan, one may use the back yard as a place to collect rare and unusual plants. Better still, one may make a collection of all the species and varieties of one family or may raise trees and shrubs from seed.

collection of iris and is now looking forward to the blooming periods of 18 new varieties recently imported from Palentine. Watching these come into Ex-Congressman Asserts English bloom will not only give pleasure to the family, but to many friends and neighbors.

Growing Illies, trises, dahlias and gladiolus from seed are very fascinating. They vary so from seed that any one is likely to get some new and beautiful varieties. There is great pleasure in watching the blooming of each new seedling.

The forms of back yards are endless as the people themselves, for each back yard should express the individuality of the owner, and should be in keeping with the house and the surroundings.

A simple cottage will have a simple yard gay and sweet with homelike flowers. The stately colonial house will have the formal garden with sundial, pool and rose garden. The lines of the house will dominate the garden and both will form that harmonious whole which we delight to call home.-Boston Globe.

HAVE THEIR SPECIAL CHARM

Shrubs Planted Around House or in Garden Convey the True Homelike Appearance.

The charm of shrubs lies in their and corners about buildings, in the as in my own country. easy to do, and can be avoided by the planter having in mind the finished the double decked tramcars controlled effect before he begins to plant. A by the London county council. They background is made up most naturally of trees of various kinds and sizes. at the base for their height, and the sing a spirit of murder in his heart In this border many specimens of rough and uncouth growth can be be too great. It seems surprising that used which do not look uncouth when a judicious planting of shrubbery is made in the foreground. The gardener should bear in mind that plants in the foreground must stand close examination. For this reason special care should be exercised in their choice. Flowering shrubs and herbaceous plants are especially adapted for use in such places.

For Beautiful Chinatown. The idea of "the city beautiful" is gaining ground. Even Chinese residents of America are taking it up. The Chinese chamber of commerce in Los Angeles has adopted a plan for creating a Beautiful Chinatown in that city. It includes projects for a large number of buildings of the Oriental type, with pagodas, a tea gar-den and other things. This sounds like a permanent Midway of the Chinese type. Of course, business considerations are at the back of the enterprise; the projectors think that the Chinese residents will thus win more attention from Americans. But if this Los Angeles movement helps to end the Chinatown eyesores that exist in many places, it is a movement toward the good. It is interesting to note that many Chinese progressives urge steps in an opposite direction; they would have Chinamen in America adopt American customs in the matter of buildings, clothing, etc. If this progressive idea carries the day. the distinctive Asiatic features of Chinatowns would disappear.

Beautifying the Home.

All decorative planting of home grounds should have for its first and ighest aim the beautifying of the home, for the enjoyment of the home people. How it will look to outsiders is never to be lost sight of, but the first consideration should be, must be, how it will look from within. It must be a home picture for home-folk. This same law of construction should rule within and without.

Systems Superior to Others.

A. M. Todd of Michigan Discusses Public Services-Have Wonderful Method of Bookkeeping-Co-Operation's Part.

London.-Former Congressman A. M. Todd of Michigan, who early last rica and South America. And all of spring came to Europe to make an | these vast enterprises in one are opexhaustive study of the system in erated simply and easily, because the vogue among the public services, with principle of co-operation behind it inspecial reference to municipal owner- sures a unity and harmony of both ship, has come to the conclusion that purpose and effort for the common the best managed public service sys- profit." tems in the world are those of Great Britain

"In France and Germany," said Mr. Todd, according to a London correspondent. "I found much to admire, and perhaps even more to condemn. So far as mere mechanical methods are concerned both countries show many important and valuable improvements, but in nearly every case their organization and management which of course means a certain increase in the cost of operation and a corresponding decrease in profits. Politics and the necessity for providing places for party supporters purely natural adaptation to nooks may have something to do with this,

are not broad enough or heavy enough danger of capsizing seems to me to so few accidents happen, considering the tremendous congestion of traffic in most of your streets. Perhaps this danger is discounted by the superb way in which the cars are handled.'

Mr. Todd was particularly struck with the running of the various public departments in Glasgow. "Politics is eliminated there, and the sole aim of the authorities seems to be to give the public the best possible service at the least possible cost. Birmingham and Manchester are much the same in many respects, with only minor differences due to a changed environment.

"One striking phase of these public service systems of England and Scotland, which I found well worth studying in detail, is the wonderful system of bookkeeping and auditing of accounts on so large a scale, where even the smallest item may be traced at a moment's notice, while a balance sheet can be furnished practically on demand. In the published report of and submarines at the present time. my investigations, which will be submitted to the governing bodies of all States, I shall recommend the adoption of this comprehensive system of ment. This will not be for some month, yet, as the volume of information I have collected is very large, and it will probably take me all winter to prepare my report.

"At the same time I shall start an effective campaign in my own state for the municipalization of all public services along the same lines that I believe no better system of really efficient service could be devised in the present stage of our civilization."

But Mr. Todd's enthusiastic eulogy does not stop here. He has been particularly struck with another peculiarity of English civil life, the big cooperative concerns which have begun to play a leading part in the British world of business. He says:

"One institute whose plant I inspected with the most absorbing interest not only manufactures an immost wholesome conditions and sani- ship amid the cries of terror and the a box party given by the elder Toptle.

ASK A 1913 CHILD LABOR DAY

Speeches Are Sought from 6,000 Clergymen Who Aided Movement Last Year.

New York.-The 6,000 clergymen who last year observed Child Labor day are being asked to speak on that subject. For seven years the national child labor committee has issued such an appeal and the interest aroused by the last Child Labor day resulted in a general demand for the passing of the federal children's bureau bill, in improved child labor laws in ten of the fourteen states holding legislative sessions and an increasing use of lecture slides and exhibits about child

The day has never been used as an appeal for funds and this year special attention is called to child labor in tenement house manufacturing. The national child labor committee also reminds clergymen that child laborers become unskilled adult workers, and practically unknown in Mexico, and the Chicago vice commission gives as the states further south. THE FLYING AGE.

De Swift's younges

It's just learning to fly."

### WHITE PIMPLES ON HEAD

Ransom, Ill.-"The trouble started on our baby when he was only about two weeks old. Started like little white pimples, looked like an old scab of blood and matter. His whole head was covered for a few months, then it went to his ear, shoulders, and his whole body. It seemed to come out thick and sticky on his head, while on the other parts of his body it was more like water coming out of the skin. He would scratch until the eruption would be all covered with blood and gradually spread. The least little stir or rub would cause the sores to bleed, spread and itch. Never had a full night's sleep, restless all night.

It lasted until he was about two and a SMALL PILL, SMALL DOSE, SMALL PRICE half years old. Then we saw an eczema advertisement in the paper to use ----, but it did no good. Then we used Cuticura Soap and Cuticura Ointment. We put the Cuticura Ointment on thick at bed time and put s tight hood on so he could not scratch the sores. Then we washed it clean with Cuticura Soap and warm water twice a day, and he was completely cured." (Signed) Mrs. E. F. Sulsber ger, Dec. 30, 1911.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."
