He began teaching in Ohio in 1863. Dr. J. A. Beattie of appointed food commissioner, was Cotner university, secretary of the twice a candidate for railway commisclub, was the second in time of ser- sioner. He is an active young man Both of the men started as new duties. country school teachers and the were not many miles apart.

#### Good Roads Association Officers.

Lincoln-Members of the State Good Roads association elected officers for the coming year, at the final session held here in connection with the organized agriculture meetings. Those chosen were: W. B. Banning, Union, president; C. W. Meeker, Imperial, first vice president; H. M. Allison, Superior, second vice president; R. E. Dearborn, Osceola, third vice president; R. F. Johnson, Neigh, fourth vice president; John M. Clark, Auburn, and William G. J. Dan, Hooper, fifth and sixth vice presidents. A. W. Richardson of Lincoln was elected secretary-treasurer to succeed W. S. Whitten, also of this city.

#### Fatally Injured in Runaway.

Grand Island -- Floyd Miller, & young farmer residing near Wood River, passed away here before an operation to relieve his condition could be attempted. He was taking his brother to school on Sunday evening. Their horse became frightened at a mover's wagon and the rig was overturned. Floyd was apparently unburt. The next day, however he became ill and unconscious, and was brought to this city for an operation. It was found that the skull had been severely fractured, although there had been no outward evidences.

# INDUSTRY, AND MECHANICS

DEVISE CHEAP PIPE WRENCH

Implement Described That Is Simple and Most Efficient-No Danger of Crushing Work.

Quite frequently it becomes neces sary to have a pipe wrench, especially duce the required results without crushing the tubing.

Here is described one of the cheapest, simplest and yet most efficient of pipe wrenches. It consists of two parts: A piece of hard wood about 11/2 x11/2 x18 inches and a piece of strong two-inch leather belting about three feet long. The strap should be riveted to the wood with rivet heads well sunk below the surface of the

Wrench for Polished Brass

side of the lever. The loose end of the strap should have holes punched at intervals of one inch or so, to made it adjustable to the work, with the stud the opposite side of the bar.

The strap should be turned down over the end of the lever, then up and around the opposite end, where it is fastened to the stud on the under side. The object of throwing the strap around the end of the lever rather than to fasten it at the end is to insure a maximum amount of pull on the strap with a minimum strain

where it is fastened to the stud. Use this device like any other pipe another pull, simply pull it away from favor of removal had been made by the pipe far enough to allow it to Regents Coupland and Whitmore and loosen its grip, and begin for the new pull by simply repeating the first op-The end of the strap must not be taken from the stud after it is Phillip Ackerman of Lincoln has adjusted until the operation of turning

With the use of this wrench an even traveling salesman. He will take the strain is placed upon the tubing on its place formerly held by R. D. McFad- entire surface without any possible danger of marring or crushing it. With a few trials the work can be done as quickly as with an open pipe wrench.

#### HANDY IN FARMER'S KITCHEN

#### IRON AND GOLD PRODUCTION

In Year of 1911 27,878,282,094 Tons of Metals Mined in U. S. Valued at \$788,925,046.

The total production of all metals in the United States in 1911 was 27,-878,282,094 tons, valued at \$788,925,-046 In the volume of "Mineral Resources," published by the United States geological survey, is a short chapter by H. D. McCaskey that contains a unique table in which, for the sake of comparison, the production of all metals is reduced to short tons. Thus, pig iron, with a production from both domestic and imported ores of 26,048,162 short tons, valued at \$327,-324,624, is contrasted with platinum, the production of which was less than a ton (0.999 ton), valued at \$1,308,-480, and gold, with a production of

190,704 tons, valued at \$114,981,080. In the several mining industries various units are commonly employed which do not admit of convenient comparison. For instance, the production of anthracite coal is always stated by the producers in long tons, but that of bituminous coal is given in short tons. Again, the "flask" pounds) is the customary unit for the measurement of quicksilver, except where the metric ton is used. The Troy ounce is used for measuring the precious metals.

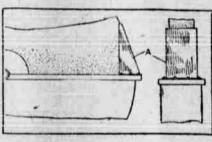

As shown by the tables in this report, however, the value of the total production for 1911 was \$86,732,580 less than that for 1910.

Another table gives the production of domestic crude metallic ores, and this, together with imports of foreign supplies treated in domestic metal production, shows the sources from which these metals are derived. The total production of all ores in 1911 was 105,258,492 short tons.

#### WATER GUARD ON GRINDSTONE

Upshooting Moisture is Deflected Back and Down Into Basin Below -Prevents Wet Floors.

A grindstone that rotates with a small part of its lower circumference immersed in a reservoir or basin for the purpose of moistening the stone. has a tendency to pick up the water and throw it in the direction in which wrench. To release the wrench for the stone is turning. The larger the stone, the greater the amount of wa-

Jocial Journ

A Perplexing Query.

It is right for a girl twenty-six years of age, keeping house alone in one room, to receive visits from gentlemen? If not, is it right if she has a private sitting room? Is the sitting room of a boarding house always at the disposal of the boarders? If there is not a sitting room, what is a girl to do with gentlemen visitors?-

The living room of a boarding house should always be at the disposal of the people in the house, and it should be attractive, so girls should feel no qualms in asking their friends to call. You would be open to adverse criticism if you entertained in a room alone; if you have a sitting room ar range for a chaperon, then your selfrespect will be maintained and your men friends will think all the more of

Entertainment for Young People. Would like to entertain a crowd of about twenty girls and boys (ages from eighteen to twenty) at an evening party, but am perplexed as to the entertainment. All of our parties seem so very much alike. Can you help me?-Jim.

One of the liveliest parties I ever saw was conducted in this fashion: Each of the boys was asked to come wearing something to represent a famous man and each of the girls to dress as a famous woman. Programs and pencils were provided to write dowr "who was who" and prizes were by the guests to be taken home if awarded. There was "Paul Revere" with his lantern, "Washington" and his cherry tree, "Betsy Ross" and her flag, "Francis Willard," wearing a little white ribbon, etc. Try it.

Two Questions.

Will you please tell me where I can get a good book on etiquette? Would it be correct to have the day of the week best suited for me to receive callers put on my calling cards?-Mrs.

For your first question I must ask you to send me a self-addressed stamped envelope.

It will be perfectly correct for you venience to the man who attempts to to have an "at home" day engraved grind tools on that side of the stone. upon your visiting card. But be sure if the person is at home The accompanying sketch shows a you adhere strictly to the day given pyramid-shaped guard, A, that can be and remain at home all prepared for

> Mourning Veil. Will you please tell me how a widow should wear her veil? Should it be afternoon frocks. The rateen of laboratory will be in position to recand should it he worn thus at night?- this season has gained in beauty con-W. H. H.

> At the funeral and for a few weeks after a widow usually wears her veil over the face: after that a face veil of fine net bordered with crape is worn, the long veil falling from the back of the hat or bonnet. The veil is reds, deep purples and chestnut ultimately responsible for vice. If never worn over the face at night.

Acknowledging Wedding Cards. Will you kindly tell me how to acknowledge a wedding announcement? -Grace.

Unless the wedding announcement includes the "at home" address of the are embroidered in steel or dull gold happy pair, no notice need be taken. beads on colored velvet or moire, to If it does, make a call upon the day match the gown worn.

mentioned, or, if that is impossible, send your card to arrive upon that date. If the announcement is from a very dear friend, a personal note of love and good wishes would not be

TO STUDY PROBLEM

BUREAU OF SOCIAL HYGIENE IS

EXPLAINED BY JOHN D.

ROCKEFELLER, JR.

WAS FOUNDED TWO YEARS AGO

Son of Retired Oil Magnate Describes

the Origin, Work and Proposed

Plans for the investigation of Vice

New York, Jan. 27 .- In order that

the public might better understand

D. Rockefeller, Jr., on Monday gave

out a statement explaining the origin,

work and plans of that institution. The

bureau, he said. came into existence

about two years ago as a result of the

work of a special grand jury ap-

pointed to investigate the white slave

traffic in New York city. This jury

recommended that a public commis-

sion be appointed to study the social

Mr. Rockefeller was foreman of

gave the subject deep thought and

conferred with a large number of lead-

ing men and women. "These confer-

ences," says Mr. Rockefeller, "devel-

oped the feeling that a public commis-

sion would labor under a number of

disadvantages, such as the fact that

It would be short lived; that its work

would be done publicly; that at best

it could hardly do more than pre-

sent recommendations. So the con-

viction grew that in order to make a

real and lasting improvement in con-

ditions, a permanent organization

should be created, the continuation of

which would not be dependent upon a

temporary wave of reform, nor upon

the life of any man or group of men,

but which would go on, generation

after generation, continuously making

warfare against the forces of evil. It

also appeared that a private organiza-

tion would have, among other advan-

tages, a certain freedom from public-

ity and from political bias, which a

publicly appointed commission could

"Therefore, as the initial step, in

the winter of 1911 the Bureau of So-

cial Hygiene was formed. Its pres-

ent members are Miss Katharine Bem-

ent Davis, superintendent of the New

York state Reformatory for Women

at Bedford Hills, N. Y.; Paul M. War-

burg, of the firm of Kuhn, Loeb & Co.;

Starr J. Murphy, of the New York bar,

and John D. Rockefeller, Jr. As the

work develops new members may be

"One of the first things undertaken

by the bureau was the establishment

at Bedford Hills, adjacent to the re-

formatory, of a laboratory of social

hygiene, under Miss Davis' direction.

In this laboratory it is proposed to

study from the physical, mental, social

and moral side each person committed

to the reformatory. This study will

be carried on by experts and each

case will be kept under observation

ommend the treatment most likely to

reform the individual, or, if reforma-

tion is impossible, to recommend per-

reaching out beyond the individuals

involved, it is believed that thus im-

portant contributions may be made to

a fuller knowledge of the conditions

not so easily avoid.

added.

Conditions.

Refreshments for Bridge Tea. I am going to have a friend to visit me for a week and wish to give a bridge tea in her honor. What refreshments can I serve besides sandwiches, tea and candy? Would an ice be proper? I want to do the correct thing and will depend so much on your answer .- M. A.

I presume you wish to serve refreshments after the game. A fruit salad, served in grape fruit shells, with cheese, crackers, a bit of bar de duc in center of each: with it serve coffee. I would pass an ice or frappe the Bureau of Social Hygiene, John during the middle of the afternoon, when one is apt to be thirsty. You could serve individual russe and hot chocolate or oyster cocktails and sardine sandwiches, with coffee.

"G.'s" Questions. When one is dining out and the host serves more than you really care for, is it a breach of etiquette to leave the plate quite well filled? I am nineteen evil. years old and the eldest girl in the family. How should my visiting that grand jury and he thereafter cards be engraved?-G.

One is never compelled to eat more than is desired. It might be well to caution your host by saying, "That is quite sufficient, thank you.' Your card should be engraved simply, "Miss Brown." To your other questions I must say I fear the reply is too late to be of benefit. I only have just so much space and only a limited number of letters can be answered each week.

Use of Place Cards. I have never used place cards, and I think them a great convenience. Do you write the names of the guests and put them at the place you wish them to sit and are they supposed to carry

them home with them as souvenirs?-"Ignorant." The place cards bear the names of the guests and are put at the places they are to occupy. They are usually laid on the napkins and are retained

they wish. Where there are many to be seated or few these cards certainly make it easier for everyone.

The Matter of Cards. I am at present visiting here in the city, but live in a small town. Quite a few people have called on me. In returning their calls do I leave my card. providing I find them at home?-A. L.

When returning a first call it is quite the proper thing to leave your card as a matter of record, as well as to show you know the proper thing to do. In the case of very intimate friends whom one calls upon frequently, it is not necessary to leave a card

MADAME MERRI.

New Fabrics.

are the fabrics pressed into the service of new models of the nature of costumes tailleurs and as may be required. When the diagsiderably since it first laid claims on our affections last year. It still retains, however, its rough surface, manent custodial care. Furthermore, although it has acquired a lovely velvety finish in addition. This modified "mirror" effect shows to advantage in the new shades of rich browns.

New Handbags. Handbags are seen in a variety of form. The newest is the long double sac bag, passed through a ring to wear over the fingers or sufficiently large to wear as a bracelet. These bags

#### this experiment is successful the principle may prove applicable to all classes of criminals and the conditions precedent to crime, and lead to lines of action not only more scientific and humane but also less wasteful than

those at present followed." That its work might be done intelligently the bureau employed George J. Kneeland to make a comprehensive survey of vice conditions in New York, and Abraham Flexner to study the social evil in Europe, and their reports are now being prepared. These studies will be followed by others in various American cities, and it is the hope of the bureau that, based upon all of them, may be devised a prac-

evil. In conclusion Mr. Rockefeller's statement says: "It cannot be too strongly emphasized that the spirit which dominates the work of the bureau is not sensational or sentimental or hysterical; that it is not a spirit of criticism of public officials; but that it is essentially a spirit of constructive suggestion and of deep soientific as well as humane interest in a great world problem."

tical plan for dealing with the social

Cashler is Short \$100,000. High Bridge, N. J., Jan. 24.-The High Bridge National bank is temporarily closed as the result of a confession by Abram L.
