Livery Barn Goes Up in Smoke

The livery barn of Chas D Hall in this place was totally destroyed by fire last Friday night, entailing a loss of about \$2,000, which was fully covered by insurance.

The fire started in the hayrack at about 9 o'clock. Mr Hall, the proprietor, was putting down some hay in a transient team that just drove in, and in some manner the lantern which he was using was overturned. The oil and fire from the lantern quickly spread in the hay and in less time than it takes to tell it the barn was a mass of flames. Fifteen head of horses that were in the barn were quickly removed, also all buggy, harness, etc.

The volunteer firemen turned their attention to the surrounding buildings, which at times were almost covered with burning embers. The heavy rain during the day and a liberal supply of water prevented the spreading of the fire.

Mr Hall carried \$1,500 insurance on the building and \$500 on hay and grain.

As soon as the loss is adjusted Mr Hall states that he will begin the erection of a new barn of more modern construction—probably of cement.
