

**REMINGTON UMC METALLIC CARTRIDGES**  
Made by the Foremost Ammunition Concern in America

The biggest name in the ammunition and firearms world today is Remington-UMC. Whether your arm is a Remington or any other standard make, whatever its calibre and the load you need, you want Remington-UMC metallics—not because they are necessarily stamped with the same name as your firearm, but because they give more accurate results.

This Company has been making ammunition for fifty years. We produce metallics for every standard make of arm—and every Remington-UMC Cartridge is tested in the arm for which it is made.

There is a dealer in this community who can give you Remington-UMC Metallics for every rifle, your pistol. Find him, and ask him for them. Look for the Red Ball Mark on every box of metallics and shot shells you buy.

The order was temporary, in view of the fact that the divorce proceedings filed by Mrs Dierking will come up during the September term of the district court, and the question of the child's custody again will be fought out. Lois seeks to conceal herself when she hears an unusual footstep, and thinks it is her father approaching to take her, her mother said. Under the order she holds Dierking can reclaim the child at any time before the divorce hearing.

**Farm Land Sale**

An Opportunity of a Lifetime to Buy a Farm.

The above Farm Home, together with 200 acres of the finest farm land in the Corn Belt Will Be Offered at **Public Auction** Wednesday, Sept. 24, 1913

This land consists of a black, sandy loam, equal in quality to the best land on earth. Located as it is, only 6 miles from Sioux City, Iowa, and adjoining Dakota City, the county seat of Dakota County, Neb., through the farm on an air line east and west and the other O. B. & Q., only a block away, make shipping facilities unexcelled. A good high school and churches are within easy walking distance, and there is a direct street car line to Sioux City. A telephone service to Sioux City, free of toll charges, puts the stock feeder in easy touch with the market so that he may take advantage of market or weather conditions. The main traveled automobile highway between Sioux City and Omaha passes by this farm, and the roads in general are excellent.  
There is no better general or special farming proposition anywhere in the corn belt than is offered by this farm. Yields of 90 bushels of corn per acre, 30 bushels of wheat and 50 bushels of oats have been made, while, with a proper rotation of alfalfa—which does remarkably well, yielding 5 tons per acre—and with live stock the above yields can be surpassed. Hogs do remarkably well on this farm, disease of no kind having been on the place in twenty years.  
The improvements on this farm are of the best to be found anywhere, as the above photograph will show. A cordial invitation is extended to anyone who wishes to inspect this farm at any time previous to the sale, and they will be shown every courtesy while here.  
The sale will be held at the farm on Wednesday afternoon, Sept. 24, 1913. **SHOWING SECTION OF MILLION DOLLAR STOCK PARADE**

**AN INTERSTATE FAIR FEATURE IN BLUE-BLOODS.**  
One of the most attractive features of the Interstate Live Stock Fair at Sioux City, is the annual parade of blue-blooded cattle and horses. This year the parade will be staged on Friday, September 19. Over \$1,000,000 worth of stock will be represented in the parade, and all the animals will show the badges captured during the show.  
The parade is always led by a military band and other musical organizations are worked in to break up the various sections. From ten to fifteen states usually are represented in this stock promenade, and the proud bloods of their kind are led by the owners. The parade takes place before the grandstand, and the crowds in motor and bleacher row.  
Entries now in the hands of Secretary Joe Morton, of the fair association, indicate that this stock parade will rival any similar showing in the big fairs, east and west. Many members of the horse and cattle aristocracy entered in the Sioux City show have carried off the honors in Chicago, Des Moines, Lincoln, Huron and Hamline. The pick of the animals shown at these fairs this year will be entered at Sioux City. Because of the excellence of the Sioux City market and the interest in better stock in the adjacent territory breeders make hard fights for recognition at the Interstate Fair.
