Lincoln, Neb, Special in Omaha Bee, Feb 18th: The lure of the farm is beckoning United States Marshal William Warner back to honest toil, according to that gentleman while at the state house this morning. "I re-

ceived quite a consignment of garden seeds a few days ago," said the marshal to a newspaper man, "and you don't have any idea how it makes me long for the fresh breezes of the farm and a chance to get away from the job of holding office under a democratic administration." Mr Warner said he had hoped to have been released from office right away and especially by April 1, but was afraid that the powers were not going to be able to agree on his successor at the present progress they were making. He did not know whether he would file as a candidate for governor or not, but said he believed there was a good chance to elect a full state ticket.

Sioux City Journal, 24: Mrs Ida Coleman, who swallowed bichloride of mercury tablets Sunday night in an attempt to destroy her life, showed improvement at St Vincent's hospital at an early hour this morning. Her condition, however, is still critical. There is every prospect of early activities on the project to relevel the banks of the Missouri river at Rvinger's bend, according to W E Holmes, secretary of the Commercial club, who has returned from Washington, D C. Mr Holmes presented the project to the war department, and surveys and estimates will soon be ordered. No emergency bills for river appropriations can be put through at this time, Mr Holmes was informed, but money in the upper Missouri fund will be available June 1. As a result it is expected that bulkheads will be in place to avert danger during the June rise, which usually comes the latter part of June.

uary 27, 1912. In her petition Mrs Seney alleges her husband began to abuse her a few months after the wedding. He has associated with women of bad character, the petition asserts. Mr Seney is said now to be in California. The marriage of Mr and Mrs Seney was part of a double elopement in which the other principals were John M Young and Miss Josephine Wilcox. Mrs Seney is a sister of Mr Young. Each of the brides was 19 years old. Mr Seney was 23 years old, and Mr Young was 22. The four young people met by prearrangement near Sixth and Water streets and drove to Dakota City in a carriage. Justice D C Heffernan performed the ceremony. The decision of Miss Young's parents to send her to New York to study music was said to have caused hastening of the marriage plans. Mr Seney had previously served in the United States navy. He was on the "world tour" fleet commanded by "Fighting Bob" Evans.

Sioux City Journal, 23rd: Worry over the safety of her son, who is an operative for the American Detective Agency, employed as a "spotter" by the police department, last night caused Mrs Ida Coleman, a saleslady living at the Landel hotel, to attempt self destruction by swallowing two bichloride of mercury tablets, according to Maurice Coleman, her son. Coleman asserted that since the recent attack upon the "spotters" by a gang his mother feared that he might be killed. Yesterday afternoon she pleaded with him to give up the dangerous work. He refused and left the room. Returning in a short time he found his mother in a faint with an empty vial by her side. Dr W H Hancock and Dr A Anderson were called. Antidotes were given and the poison was pumped from her stomach. She was taken to St Vincent's hospital. Reports from the hospital at an early hour this morning were that the patient was resting easily and has a fair chance for recovery. M J Herman, of Homer, Neb, father of Mrs Coleman, was notified last night and was at his daughter's bedside throughout the night.

There is only one case of smallpox in Homer at the present writing and by the end of the week there won't be any, unless there are new cases. The health authorities have taken every precaution and are keeping close watch for any new cases that may develop. Coroner Mungler swore out a warrant yesterday for Millard Weiger charging him with breaking quarantine. He was arraigned before Justice McKinley the same day and pleaded guilty to the charge. McKinley gave him the minimum fine of \$15.00 and costs. Wilma Carroll Drake, youngest child of Mr and Mrs George Drake, was born in Winnebago on August 24, 1913, and died at the home of Charles Smith in Homer, February 13, 1914. The baby had not been well for some time and was brought to Homer for medical treatment. Although all that medical skill and good nursing could do was done for the child, the spirit took its flight. Funeral services were conducted by Rev L R Koehler at the Smith home Sunday afternoon. Burial was in the Omaha Valley cemetery. George Bassenger, a farm hand, can thank himself that he was not ground up under a through freight which passed through Homer Saturday afternoon about 5 o'clock. Mr Bassenger, in trying to board the train at the depot, which was going at a high rate of speed, missed his footing and was thrown under the car, but was thrown in the clear after striking the rod which runs from one end of the car to the other underneath. He received several bruises about the head, his face being quite badly bruised. He was hurried to Dr Stidworthy where the injuries received good treatment.
