ماله علا عله عله عله عله عله عله عله عله Experience

Is One Ingredient That Should be Put Into **Every Prescription**

As medical science is making wonderful strides, it becomes necessary that pharmacists be experienced and progressive so that physicians' prescriptions may be properly compounded. We put knowledge and EXPERIENCE into every prescription that comes to our store.

This is why our prescription department-and business in general-continues to grow constantly. If our experience means anything to yon, let us fill your next prescription. It's worth while to feel certain.
