The initial steps have been taken in an effort to obtain government aid for the construction of a permanent highway between Dakota City and the combination bridge in South Sioux City. County Clerk George Wilkins has written the Bureau of Good Roads at Washington, D C, for information in regard to the procedure of securing the required aid from the government. Under the law proposed road can be built on a plan whereby the government pays half the cost and does the construction work, while the road district benefited and the county each pay one-fourth of the cost. The proposed road will cut in the neighborhood of \$6,000 per mile. The National Bureau of Public Highways will superintend the construction in case the plan is favorable to them.
Now is the time to go into the field and select seed corn, select from hills with 3 to 4 stalks growing therein, never from the one stalk hill. Select ears well filled to the end with straight regular rows and all as near one type as possible. It is not especially advisable to gather only the big ears but rather pay attention to uniformity, carry a sack through the field and empty at the end of the row where it can be easily gathered and taken to a dry airy place and hung up with husks pulled back. Do this as soon as corn can be selected as it should be as thoroughly dried as possible before winter, when freezing might injure its growing quality, if full of water. To hang up in an attic with open windows is an admirable place. Be sure and test your seed in the spring. Do not let the month of October go by without selecting seed.

Fatal Automobile Accident.

Patrick Duggan and Patrick Green, two residents of Hubbard, Neb, were killed yesterday last Thursday, when their automobile was struck by the O St P M & O flyer, No 4, at the Hartnett crossing about half a mile east of Hubbard. The train was traveling about thirty miles an hour when the auto in which the two men were riding sped down the road leading to the crossing. The car reached the track just in time for the train to catch it broadside, throwing the car and occupants over the fence and onto the right-of-way. Green was killed instantly, being thrown violently against the fence. His skull was fractured and several other bones broken. Duggan's arms and legs were broken and he was internally injured. He lived about three hours after the accident, which occurred about 10:30.
Green is survived by a widow and one child. Mrs Green is a daughter of Frank Ulling. Duggan leaves a widow.
J F Covert, of Omaha, engineer, probably was the only witness of the accident. He declared that as his train approached the crossing the automobile appeared from behind the grove of trees traveling at high speed. The two men apparently did not see the train, Covert said.
Before Covert could apply the emergency brakes to stop the train the locomotive was a hundred yards beyond the crossing. The train was packed with scores of persons on their way to attend the Interstate-Live Stock Fair. Numbers of these saw the demolished automobile lying in a field and the bodies of the two men along the fence. Engineer Covert stopped the train with a jolt and backed it to the point where the motor car was struck. Assisted by Conductor T H Johnson and passengers, he picked up the bodies of the men, placed them in the baggage coach and backed the train to Hubbard.
Duggan was still unconscious when the train reached Hubbard.
Trainsmen stated that the whistle was sounded as the flyer neared the crossing. They were of the opinion, however, that Duggan, who was driving the car, did not hear the warning, because of the direction of the wind.
"Neither man was aware of the flyer until the car was hit," one of the train men reported. "It is doubtful whether they realized what struck them."
The inquest held Friday by Coroner Ed Munger, of Homer, developed the fact that the accident was purely accidental.
Funeral services were held for the two men Saturday morning from St Mary's Catholic church, and it was in a pathetic and sorrowful occasion for the stricken families and relatives. Burial was in the Hubbard cemetery.

SCHOOL NOTES.

There are a number of boys and girls in school, who should be attending, but who are staying out because of trivial excuse. What do you suppose will become of them in later years, when they will be pitted against trained minds in the keenest competition?

It is hoped that none of the school children will be permitted to loaf on the streets or around the depot. Such waste of time is usually the beginning of vice and filthy habits.

Next Friday evening the girls of the school will give an oyster supper for the benefit of the girls' athletic fund. You are invited to come and enjoy a social evening with pupils and teachers.

Friday afternoon October 2, at 3:45 the first football game of the season will be played on the local field in which Dakota High School hope to carry off the scalp of the South Sioux City team. Come and support your home team.

Mondell Homesteads: Your Chance Going

Farmers are just realizing how much money is to be made in dairy farming on these Free Wyoming 320 acre homesteads and that live stock and the silo are what will make the future increased values of these farms; 100 acres more adjoining, if you wish, at \$1.50 per acre; 480 acres, all told, for only \$260. Nine thousand Mondell farms taken last year. This shows how your chance, or your boy's chance is growing less every week. Claim one of these homesteads as land wealth in your family before all free land east of the Rocky Mountains is gone. No free land left in Nebraska. Write me. Join our excursions. See the West's 1914 crop. Find out for yourself. I am paid to help locate you.
