Dearness Cannot Be Cured by local applications, as they essnoot reach the dis-eased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or im-perfect hearing, and when it is entirely closed. Deaf-ness is the result, and unless the inflammation can be taken out and this tube restored to fits normal condi-tion, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that caunot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggista, 7ae. Take Hall's Family Fills for constipation. A Christmas tree and a box social will be given at the Elk Valley school house December 23. All are invited. Ladies to bring their boxes and the Open house receptions occupied the men not to forget their pocketbooks. The World's Phones

More than 64% of all the world's telephones are in the United States. There were, on January 1. 1913, exactly 8,729,592 telephones in operation in the United States and only 4,841,282 in all the rest of the world.

Here are the latest telephone statistics:

Country	Population (Estimated 1913.)	(Jan. 1st, 1913.)	% of World's Telephones
United States	97,402,000	8,729,692	64.32
Germany	66,000,000	1,302,672	9.60
Great Britain	46,128,000	738,738	5.44
France	39,610,000	293,195	2.16
Sweden,	5,604,000	217,544	1.60
All other nations	1,480,000,000	2,289,133	16.88

The wonderful telephone development has been built up in the United States because the people here get the most efficient telephone service in the world and get it at a less cost than the people of any other nation.
