Deafness Cannot Be Cured Dearness Cannot Be Curred by local applications, as they cannot reach the diseased portion of the ear. There is only one way to euro dearness, and that is by constitutional remedies. Dearness is eaused by an inflamed condition of the muscous initing of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Dearness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
