Most VENERATED CHRISTIAN SANCTUARY

THE Holy Sepulcher at Jerusalem for the possession of which Crusades of the middle ages were undertaken, will at last become the property of Christianity in case the allies win in the European war. Today the keys of this, the most venerated sanctuary in Christendom, are held by the Turks, and Moslem sentinels stand outside of its doors, while the pavement in front of its main entrance is occupied at all hours by beggars and street peddlers, who assault visitors and passers-by.

The sepulcher is contained within the walls of a church, in which not only the Catholics, but also the Greeks, the Armenians and the Copts have altars of worship. It is a grotto, or cavern, consisting of two rooms hewn out of living rock. The outer chamber, which is 16 feet long by 10 feet wide, is called the "Chapel of the Angels." The inner room is the sepulcher itself, and contains the stone on which the body of Jesus reposed. Both are lined with white marble.

It was in the outer chamber, the visitor is told, that the angels announced the resurrection to the holy women. In the middle of the floor, covered with white marble, richly carved, is a portion of the stone on which, as described in the Scriptures, the angel sat on Easter morning. Suspended from the roof are fifteen lamps, representing as many Christian nations, which are always kept burning.

Burial Place of Jesus.
A door so low that the visitor can pass only by stooping gives entrance to the inner room, pointed out as the actual burial place of Jesus, which is hardly more than six feet square. The stone on which the body of the Redeemer lay is raised three feet above the ground, and, covered with a marble slab, is used as an altar. Inasmuch as only four persons at a time can find room in the small chamber, the Catholics, Greeks and Armenians

CHURCH OF THE HOLY SEPULCHER

are obliged to take turns in performing services.

The Church of the Holy Sepulcher is surrounded by a dome. Beneath the dome is a rotunda, off which is the "Chapel of the Apparition," marking the place where the Savior first showed himself to his mother after the resurrection. But this is only one of the many sacred associations pertaining to the ancient basilica. Just inside the main door is the Stone of Invention on which the body of Jesus was laid while it was anointed by the holy women before burial.

On entering the church the visitor ascends to the top of a stairway, where a tablet set in the wall states that this was the place where Christ was "stripped of his garments." For it should be understood that the sacred edifice here described actually covers

BUY 75,000 HORSES FOR WAR

No Danger of Shortage in This Country, Says Expert—Big Demand Later, However.

Warring European nations have bought and exported more than 75,000 horses from the United States, but there is no immediate danger that continued exports will cause an acute shortage of horses in this country, says G. A. Bell of the bureau of animal husbandry in the Agricultural Outlook.

"We could sell two or three times the number already exported without there being any appreciable shortage of work horses," the statement adds. "The kind purchased are for the most part very mediocre animals, which would ordinarily sell for less than \$100 per head, and are a class of which we can well afford to be rid."

"The big demand for horses will probably occur after peace has been declared. At that time the countries now at war, with the exception of Russia, will no doubt be very short of

Thought to Be Quitters.
"It is said that fashionable hotels in this country contain a large number of foreign noblemen who have no idea of going to the front."
"What do you infer from that?"
"If the report is true, I conclude that no injustice has been done by the public to foreign noblemen as a class."

HAD CONFIDENCE IN JANITOR

Landlady Knew to Whom to Apply When She Wanted References as to a Tenant.

Smith, just established in a new flat, happened to discover that the landlord—or landlady, rather—had not investigated the references he had furnished, upon her very particular request.

"Why didn't you ask anybody about me?" he asked.

"I did," was the answer. "I asked the janitor at your old place. I always do that. After finding out from the old landlord whether a tenant is good pay, I make a personal call on the janitor of the house he has been living in."

"But are janitors always to be trusted?"

"By no means. I can usually tell whether a man is truthful. I use my judgment in each case. It isn't hard to guess whether he has been unduly influenced by tips or the lack of them. Generally speaking, the janitor knows the tenant better than anybody else, and I prefer his estimate to that of the friends and business associates whose names are supplied as references."

A Mean Man.
"Does your husband anticipate your every wish?"
"Yes, and then he says I can't have it."

The Difficulty.
"He simply refuses to throw any light on his past."
"Perhaps he can't; it's so shady."

MAY BE COFFEE
That Causes all the Trouble

When the house is a drear, it's about the same as when disease begins to show, it's no time to talk but time to act—delay is dangerous—remove the cause of the trouble at once.

"For a number of years," wrote a Kansas lady, "I felt sure that coffee was hurting me, and yet it was so fond of it, I could not give it up. At last I got so bad that I made up my mind I must either quit the use of coffee or die.

"Everything I ate distressed me, and I suffered severely most of the time with palpitation of the heart. I frequently woke up in the night with the feeling that I was almost gone—my heart seemed so smothered and weak in its action. My breath grew short and the least exertion set me panting. I slept but little and suffered from rheumatism.

"Two years ago I stopped using the coffee and began to use Postum and from the very first I began to improve. It worked a miracle! Now I can eat anything and digest it without trouble. I sleep like a baby, and my heart beats strong and regularly. My breathing has become steady and normal, and my rheumatism has left me.

"I feel like another person, and it is all due to quitting coffee and using Postum, for I haven't used any medicine and none would have done any good as long as I kept dragging with coffee." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms: Regular Postum—must be well boiled. 15c and 25c packages. Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious, and cost per cup about the same.

"There's a Reason" for Postum.

IF BACK HURTS CLEAN KIDNEYS WITH SALTS

Drink Lots of Water and Stop Eating Meat for a While if the Bladder Bothers You.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach aches, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

Canadian Wheat to Feed the World

The war's fearful devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and there is an unusual demand for Canadian wheat. Canada's invitation to every industrious American is therefore especially attractive. She wants farmers to make money and happy, prosperous homes for themselves while helping her to raise immense wheat crops.

You can get a Homestead of 160 acres FREE and other lands can be bought at remarkably low prices. Think of the money you can make with wheat at its present high prices, where for some time it is liable to continue. During many years Canadian wheat fields have averaged 20 bushels to the acre—many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax.

Mixed farming is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, markets convenient, climate excellent.

Military service is not compulsory in Canada, but there is an extra demand for farm labor to replace the many young men who have volunteered for the war. The Government this year is urging farmers to put extra acreage into grain.
