Farm Notes.

Issued by the University of Nebraska College of Agriculture.

FREE STORAGE TANK SERTCHES

The department of agricultural engineering at the University Farm will and sketches, estimates of cest, and bills of material for a concrete storage tank having a capacity of 115 barrels. Sketches may be had of several types of tanks, either round or rectangular, having a aloping shingled roof, flat roof, or concrete slab roof. Anyone sending for sketches should state whether the tank be round of rectangular, the exact hind of roof, and also whether he expects to use steel rods or wire fencing for teinfore ment.

GIVE ENOUGH STRUS

When vaccineting pigs by the simultaneous method it is important to give not only enough serum but enough virus. Where the dose of serom has been too small some pigs may show symptoms of cholera in from 10 to 15 days. When too small a dose of virus is given, some of the pigs will not cave a permament immunity, especially if from immune a wa. As such pigs have usually faborited mome measure of protection, it is better to double rather than pinch the prescribed dose of virus. It is not necessary that pig show any effects of vaccination or to have even a rise in temperature in order to become permanently immune -Department of Animal Pathology, Uni-

STATE STOCK JUDGING UNITEST

A high school competitive stock judging contest is to be held Saturday. April 3, at the University Farm under the auspices of the animal husbandry department On Friday, the day pre vious, the teams will be given a prelimioary work-out at the farm. Each of the high schools in the state has been invited to send a team of three members. Entries in the contest up to the first of the week included Blair, Crete, Fairfield, Geneva, Ockland, Pawnee, Red Cland, and Wahoo. A Recommon second source second sec number of other schools have indicated their intention of entering a team. Awards will be given both to individnals and to the winning teams.

HORSE PARTURE MIXTURE

SEEDING SWEET CLOVER

sown on an acre, while at least five pounds more of the unbulled seed should be used. Frequently 50 per cent or more of the seed is hard, which with not germinate readily. For this reason more seed is necessary than would o herwise be the case. Altho this rate makes sending expensive, the general experience has been that it is not too much under average conditions. The seed may be sown broadcast and covered with a smoothing harrow set rather slanting or else with a grain drill with grass seed attachment. In either case the seed should not be sovered more than about three-fourths of an inch deep.-Extension Bulletin 22, Nebraska Agricultural Experiment

BULLETINS FOR MOTHERS A list of free bulletins for mothers has been prepared by the women's club section of the Agricultural Ex-

tension Service, University Farm. The following may be obtained from the United States Department of Labor, Children's Bureau; Prenatal Care, Infant Care, Infant Mortality, Birth Registration, and Baby Saving

The following may be obtained of the department of child helping of the Russell Sage Foundation, 105 E. 22d St., New York City: The Care of the Baby, the Need of Child Welfare Work in Rural Communities

The following may be obtained from the Extension Service, University as far as Rosalie. Care and Feeding of Children.

A folder on Hints on Nursing for Babies may be obtained from the University of Nebraska, College of Medi cine, Omaha.

Phenomenal Bargain.

you a year's subscription to Farmer and Breeder and the Herald for only \$1.00. This is an unusual bargain; take advantage of it TODAY. Your subscription to Farmer and Breeder means that you are entitled to free consultation with the Special Service Department of Farmer and Breeder upon any question pertaining to farming and stock rateing during the term of your subscription to that magazine. This service alone is worth the price we ask for both publications. Let us

ABOUT FARMER AND BREEDER.

Farmer and Breeder is pre-eminently a magazine of farm and stock facts. It shows exactly how to do the things the way they are being done by the most successful farmers and breeders. It gives clear, DEFINITE and intelligent explanations of farm methods and systems. It is broad and varied in scope and gives you ideas, plans, and ra-thods that you can supply at once and put dollars in your pockets.

The crime charged against Frederickson is that of embezzling nearly \$1,200 government funds while postmaster.

City, delivered an address,

after visiting in Omaha and Lincoln, Neb H. O. Dorn, a retired farmer, was named to make the race for mayor of South Sloux City last night at a meeting of antisaloon forces of the community, held in Manning's hall. P. M. Martin was chosen to run on the dry slate for city clerk, and J. W. Mullens, a butcher, was selected to run for the office of city treasurer. W. H. Bradford, city engineer, was chosen to run for re-election. Candidates to seek the office of councilmen on the dry ticket have been named. Bert Gibbs will run for councilman in the First ward. Judge J. J. Eimers has announced his candidacy for councilman of the Second ward. William Hogan will make a run for councilman of the Third ward. Petitions to the council asking that body to place names of candidates on the election ballots must be in by Thursday, it was announced at the meeting. This is ten days before the election, which falls on Tuesday, April 6. Voters belonging to the wet faction have named all but two of their candidates. Joseph Kloster has been selected to run for mayor, Fred Curry for councilman of the First ward, L. A. Hall for council-man of the Second ward, Oscar Stamm for city clerk and Dude Fouts for treasurer. Henry Skidmore is circulating a petition for councilman of the third ward, and men interested in the wet slate stated last night that he would undoubtedly make the race in that ward. Interest in the coming election is increasing, according to candidates and voters who are working either for or against saloons for South Sioux City. Men on the wet ticket at a meeting last week agreed to boost for a town with saloons and wholesale houses. Men selected to run for office on the wet ticket declared last night that there is little doubt but that South Sioux City will go wet for this year at least. state that there is urgent need of money to pay bills and make imauthorities have been working on provements in the town. From a financial standpoint, they assert, it located their man. At the time of is necessary for South Sioux City to have saloons and wholesale liquor

Warranted by the Government What?---a Farm

You have yet a chance to select one of the 51 irrigated farms in the Big Horn Basin which were specially approved by Government Experts. Since my recent announcement about these 51 choice Government farms a number have been taken. The remainder will go soon. You can take one now and get a crop this year. Why don't you have your son take an 80 acre tract and put it in alfalfa? Only three years' residence required for title and five month's vacation allowed each year.

The Government, acting as your banker, charges you only \$2.60 per acre cash down with no interest payments-no subsequent annual payments for five years-and gives you 20 years; time to clean up the deal. Powell, Wyo., is the town in a well settled community. It is one of the best towns in the Government irrigated areas.
