## GEN. OBREGON FAILS

CANANEA IS TAKEN, BUT GEN. JOSE RODRIGUEZ HAS NOT BEEN CAPTURED.

## HASTENS TOWARD NOGALES

Carranza General's Forces "Fail Miserably" in Closing Roads of Escape to Villa Army Under Rodriguez—An American Killed.

Washington, Nov. 24.—All the plans of Gen. Alvaro Obregon, Carranza commander in chief, to capture in Cananea the Villa forces of Gen. Jose Rodriguez have failed. The capture of Cananea, which Obregon now holds, was an empty victory, it was intimated in Carranza circles, for Rodriguez, eluding Obregon, escaped.

The Villa commander, with a large force, has been definitely located en route to Nogales to reinforce Villa troops already there. In making his escape Rodriguez is reported to have killed an American engineer, who aided in the escape of his army.

While no official expression could be obtained in Agua Prieta, it was intimated in official circles that some of Obregon's commanders, to whom was assigned the task of closing all roads from Cananea, "failed miserably" and that because of the failure Obregon's plans of campaign require a complete readjustment.

The arrival of Rodriguez at Nogales, it was said, would mean that instead of attacking a few hundred Villa troops there Obregon, taking the offensive, would have to fight a force variously estimated at from 3,000 to 7,000, equipped with Villa's heaviest artillery.

## BIG SUBMARINES ARE BEST.

Value of the Large Type Now Under Consideration.

Washington, D. C.—Abandonment of the present coast defense submarine for larger seagoing submarines may be recommended by the navy department as a result of lessons learned during the recent maneuvers of the Atlantic fleet and unofficial information concerning the size of underwater craft now in service in Europe.

There are indications, it was said, that the United States is going behind in submarine development, even with one 1,000-ton submersible nearing completion and two of 1,300 tons soon to be ordered. Navy officials have been particularly impressed by the apparent probability that a submarine of approximately 1,500 tons and measuring 250 feet in length has been engaged in the warfare against allied merchantmen.

## Women Urge Peace.

New York.—Five thousand telegrams addressed to women's clubs and organizations of all kinds have been sent out by the women's peace party. The telegrams, which are to be followed by others until \$10,000 has been expended for the purpose, call upon women to telegraph President Wilson urging him to call a conference of neutral nations to settle the European war. The messages bore the signature of Jane Addams.

## Four Million Troops.

Paris.—Karl Kitchener, the British secretary of war, in conversation with Greek officials in his recent visit to Athens, is reported to have declared that England will have by next March 4,000,000 soldiers under arms, and will be in a position to arm and provision 6,000,000 Russians, and that consequently it would show great stupidity to think the war would end otherwise than in complete defeat for Germany.

## GETS CLUE TO PLOTS

ATTORNEY GENERAL GREGORY SAYS U. S. AGENT WAS GIVEN EVIDENCE.

## SAW GORICAR AND EDITOR

Statement issued at Washington Says Important Information Was Obtained Concerning Activities of Austrian Consul Von Nuber.

Washington, Nov. 20.—Attorney General Gregory officially announced on Thursday that A. Bruce Bielaski, chief of the bureau of investigation of the department of justice, at his conference in New York with Dr. Josef Goricar, former Austrian consul, "obtained much valuable information" concerning the activities of Austrian Consul General von Nuber and his associates.

A full report will be transmitted to the state department. It is expected that the cancellation of exequatur of Consul General von Nuber and possibly of other consuls will be the result.

John R. Rathon, editor of the Providence Journal, with whom Bielaski also conferred, turned over to the department officials evidence in substantiation of Doctor Goricar's charges.

The attorney general's statement was as follows: "Mr. Bielaski, chief of the bureau of investigation of the department of justice, returned after his visit to New York, during which he conferred with Mr. Rathon, editor of the Providence Journal, and Doctor Goricar.

"While Doctor Goricar may not be able to testify directly to all matters under investigation, much information of a valuable nature was obtained concerning the activity of the Austrian Consul General von Nuber and his associates, the details of which cannot be disclosed at present. Prompt investigation, however, will be made.

## BULGARS TAKE MONASTIR

Last City in Serbia Falls Into Hands of Teutonic Allies—Greece May Intern Serbs.

London, Nov. 20.—The Bulgarians who entered Prilep on Wednesday occupied Monastir on Thursday, the last city of any size in Serbia, according to a news dispatch from Saloniki.

The capture, which was conceded to be inevitable when the Serbs lost Babuna pass and Prilep, means practically the end of the Serbian defense. Retreat for the southern army into Greece, where it faces possible internment by the Greeks, and retreat of the central army into Montenegro and Albania appears to be an absolute necessity and is believed to have begun already.

Monastir is only 15 miles from the Greek border and is the second city in Serbia in size. It is the last rail head position to be held by the Serbs.

According to a news dispatch from Athens, the French have captured the town of Kasturino and the British have advanced on the Valandovo-Razovo front.

According to news received by Athens newspapers, the French won a striking victory over the Bulgarians on the Tithirkovo-Schevo Krushevitsa front. The battle was waged for two days. The Bulgarians are said to have sustained such heavy losses that they gave up the fight and retired northward to the right bank of the Vardar river.

Bulgarian troops operating southward of Nish occupied Ordelje, 22 miles from the capital on the Nish-Saloniki railroad.

## JOSEPH HILLSTROM IS SHOT

President Wilson's Plea to Governor Spry Fails to Save the I. W. W. Post.

Salt Lake City, Utah, Nov. 19.—Joseph Hillstrom, the I. W. W. poet convicted of the murder of J. G. Morrison and the latter's son Arlington, was shot to death at 7:41 a. m. after efforts by President Wilson to secure a reprieve for the condemned man had failed and after the state board of pardons had decided that eleventh-hour evidence which had come to light was insufficient ground for a reprieve.

Hillstrom staggered to the chair plainly a broken man. His head drooped as he was blindfolded and strapped in the chair. Every one of the four bullets pierced his heart. There was no falter in the plans.

## DEFECTIVE BABY DIES

CHICAGO DOCTOR REFUSED TO OPERATE ON CHILD.

Declared That Infant Was Deformed and Braves Criticism for His Act—Big Problem.

Chicago, Nov. 19.—Baby Bollinger is dead. Deformed, partly paralyzed and subnormal of brain, the human mite, whose life was held in the hand of Dr. H. J. Haiselden, was allowed to slip back peacefully into the shadowy mystery whence he came.

Five days was the span of his life. He came as do all humans, breathed the breath of life, partook of food, then slept the unending sleep at the German-American hospital.

Yet he left behind him a nation agitated by his existence to a degree few full lives bring to pass. His going crowded before the eyes of every living parent the burning question:

Has a physician the right to judge whether a life appearing on earth has, by reason of deformities and physical handicaps, a right or no right to be saved?

Doctor Haiselden says he could have saved the baby by an operation to complete its digestive system. But the partial paralysis, the current malformations, he declared, were so great a bar to happiness or attainment that he did not feel justified in saving the baby from the death which nature ordained.

Chicago, Nov. 22.—A jury of Chicago physicians decided on Friday that society has the right to refuse life to a baby born hopelessly defective. Dr. Harry J. Haiselden was exonerated from blame for permitting the death of Baby Bollinger after deciding that the child, if allowed to live, would be doomed to a life of misery and uselessness.

Washington, Nov. 20.—Associate Justice Hughes of the Supreme court on Thursday notified the secretary of state of Nebraska he would not be a candidate at the coming presidential primary election and requested that his name be not placed on the ballot. The attorney general of Nebraska has been quoted as saying Justice Hughes could not withdraw his name from the primary ticket.

The petition stated that Justice Hughes' name was filed without his knowledge and that while the petitioners were aware he was opposed to any consideration of his name as a candidate they were convinced "that the welfare of the nation, in its broadest sense, demands the drafting of its highest and most available talent to lead in the approaching contest for triumph of Republican principles, and that the emergency demands a resort to conscription."

## MUNDAY IS GUILTY

CONVICTED AS WRECKER OF CHICAGO BANK AND ITS SUBSIDIARIES BY JURY.

## GETS FIVE YEARS IN JAIL

Associate of Former Senator Lorimer on Verge of Nervous Collapse as Verdict Is Rendered—Jurors Out Six Hours—Two Others Face Trial.

Morris, Ill., Nov. 22.—Late Friday Charles B. Munday was found guilty of having conspired with former Senator William E. Lorimer and others to wreck the La Salle Street Trust and Savings bank and its four Chicago subsidiaries.

The jury fixed his punishment at five years in the penitentiary, the greatest sentence it could impose.

Although the jurors were out for six hours, it required only a few moments for them to fix the guilt of the indicted banker. Only two ballots was taken. They were unanimous in their belief that Munday, as vice-president of the LaSalle Street bank, conspired with William Lorimer, erstwhile United States senator, and H. W. Huttig of Muscatine, Ia., to loot the bank and its allied concerns out of more than \$3,000,000.

Munday was pale and nervous when the verdict was being read and gazed pitifully at Judge Stough. He refused to discuss the case.

Arguments on the motion for a new trial will be deferred for ten days it was announced. State's Attorney Hoyne announced that the trials of Lorimer and Huttig on similar indictments will take place the first part of next year.

Under double guard and behind locked doors the jurors began their deliberation shortly after 4 p. m. on Friday.

The evidence included bank records and letters between Munday, William Lorimer and H. W. Huttig. The latter two were indicted with the defendant on a charge of conspiracy to defraud depositors and others out of more than \$3,000,000.

Assistant State's Attorney Hayden N. Bell closed his plea for conviction at the noon recess. His address contained the startling charge that not only had Munday and his fellow conspirators wrecked the La Salle Trust and its subsidiary banks, but also that \$228,000 of the alleged loot had been traced directly into Munday's pockets and not a word of explanation had been offered as to its whereabouts.

Following the prosecutor's final argument, Judge Samuel C. Stough read his instructions to the jury.

The instructions were in some respects unfavorable to the indicted banker, while in others the prosecution was hit hard. It required nearly two hours to read those instructions, which covered every count in the indictment.

The heaviest blow dealt the defense was when Judge Stough declared that the law provides that the capital stock and surplus of banks about to be organized must be paid in cash and not in notes or other securities.

The mere failure of the banks, causing enormous losses to depositors and others, the court declared, would be insufficient evidence upon which to base a verdict of guilty.
