transmission of this paper through the mails as second-class matter. Telephone No. 48.

Farm Notes.

Issued by the University of Nebraska College of Agriculture.

BUY SEED CORN NEAR HOME Do not get excited when you see a catalog from a distant seed house advertising seed corn that has produced marvelous yields. Perhaps the seed offered for sale would not produce the same results when planted under Nebraska conditions. The University College of Agriculture has found that in most cases native corn gives a fourth larger yield than the prize-winning variety from another state. The Nebraska Agricultural College has also found that it is even safer for western growers to use their native seed than to try that from another section of the state. Corn grown near home produced 4.5 bushels more than that visited his brother Art this week. imported from another part of Nebraska. In any case, however, it should always be tested. The results of native grown seed compared with imported seed may be obtained from bulletin No. 126 of the Bulletin Departmet, University Farm, Lincoln.

APPLE AND CRANBERRY JELLY An excellent combination for homemade jelly, according to the home economics experts of the U. S. Department of Agriculture and the State College of Agriculture, is cut into small pieces should be just Bennett. covered with water and boiled until first, boil the pulp a second time, strain as before, and combine the two lots of juice. Add three-fourths son. sugar by measure as juice, and boil again. The jelly ed in boiling water and thoroughly drained. Cool the glasses in the ordinary way. CORN VARIETIES IN WESTERN NEBRAS-

Platte and Mitchell as well as other He reports a good market. experimental stations seem to indicate that U. S. Selection 133, a yelriety, which is a flint corn, is pointed out as being deserving of further trials, especially where corn for hog-ging off is desired. Of the varieties tested, the medium early seems superior to the very early or late ones. KITTIE A GOOD PRODUCER

Lincoln, the seventh calf of Katy Gerben, the noted Holstein cow of the College of Agriculture produced 4,114 pounds more milk (containing 1,065 pounds at the age of one year spirit in some of our athletes. and was estimated to be worth \$500.

AVERAGE 60 BUSHELS AN ACRE state corn club members last season was 60\$\frac{2}{3}\$ bushels. The average net profit per acre of a large number of the members was \$15.62. Membership in this club is open to any boy in the state between 10 and 18 Rush were married at the Catholic and the control of the state between 10 and 18 Rush were married at the Catholic and the control of the state between 10 and 18 Rush were married at the Catholic and the control of the state between 10 and 18 Rush were married at the Catholic and the control of the state between 10 and 18 Rush were married at the Catholic and the control of the state between 10 and 18 Rush were married at the Catholic and the control of the state between 10 and 18 Rush were married at the Catholic and the control of the state between 10 and 18 Rush were married at the Catholic and the control of the state between 10 and 18 Rush were married at the Catholic and the control of the years of age. A large number of awards is provided each year for the winners. Monthly instruction sheets, rules for the contest, and other in-formation may be had without cost a farm south of Waterbury.

the home folks. Master Eugene Kearney, who was ill the past six weeks with pneumonia and other complications, is much improved.

Hugh F. McKeever, who has been confined to his home the past two weeks by illness, is somewhat improved.

Lutheran Church Notes

DAKOTA CITY-SALEM

It certainly is encouraging to see the readiness with which the Salem boys and girls pick up the Easter cantata music. Enthusiasm counts there, you can see it. The young folks are enthusiastic. We have good times, and we work, too. The two must go together. All work and no play makes Jack a dull boy. The same is true of Jack's father John. If we take hold with a will and a spirit any thing that is right can be made to go. That is especially true in the church. The pastor must Ia., Friday evening for a week-end have the backing of the congregation or he cannot do annthing. He is only a leader, not the whole thing, he has responsibilities, and so have all the rest of the people. "Ye are members one of another." So we all have a part. Many people think they are thru when they have paid. That is the last thing God looks at He wants love and service. Don't grunt, do your stunt. You have as much time as anybody, all there is. It depends on how you use it, where We have heard rumors of the sec- your greatest interest is. That's all.

The boys and girls sang a Te Deum Mrs. Will Leamer is on the sick About 35 of them on the platform made a fine showing. How they enjoyed it; and the congregation—well, Mr. Boals got up, came forward, and in the name of the congregation thanked the chorus for the music and offered the hope that they "come back" and then called for a rising vote of thanks and would you believe it, every mother's son and Mrs. Aldrich and children are on even some of the boys got up. That made everybody glad and feel good. Miss Hattie Wilkins returned from The children appreciate encourage-

thoughtlessness. Thank them privately, express the hope they will Dakota City Grocery favor the congregation soon again. Boost. We will all feel better. Our catechism class is still making additions. There are nearly twenty now and they are wide awake, too. It is a great privilege to teach a bunch of young enthusiasts. Some

Encouraging the Employee

We feel sure that the best service is only to be had when fidelity and loyalty are reciprocal in employer and employee.

It is our purpose to pay employees sufficient compensation to secure their best services and so they may live in as comfortable circumstances as the men and women engaged in other lines of work.

We strive to assist worthy employees to accumulate by making it easy for them to acquire a financial interest in the business. Nearly half of all the men employed by this company are stockholders in the company.

We have endeavored to keep our working quarters sanitary and comfortable, for without such conditions the best work would not be possible.

With no expense to the employes, we provide for sickness, disability, injury, old age and death in a broader spirit than any corporation or government.

To make for the highest efficiency in our personnel, we rigidly enforce the principle of advancement dependent upon integrity, ability and meritorious work alone,
