Precious Language.
Language is the amber in which a thousand precious thoughts have been safely embedded and preserved. It has arrested ten thousand lightning flashes of genius, which, unless thus fixed and arrested, might have also been as bright, but would have also been as quickly passing and perishing as the lightning. Words convey the mental treasures of one period to the generations that follow; and laden with this, their precious freight, they sail safely across gulfs of time in which empires have suffered shipwreck, and the languages of common life have sunk into oblivion.—Trench.
