"I appeal to you as a statesman—"
"Don't dig up that statesman rumor about me just now," interrupted Senator Sorghum. "I'm a statesman most of the time. But with several conventions looming up in the near future and a large following of practical citizens to satisfy, I want to go on record as a politician."

WONDERFUL HOW RESINOL STOPS SKIN TORMENTS

The soothing, healing medication in resinol ointment and resinol soap soothes and cools the irritated skin, and usually stops itching at once. The resinol treatment speedily heals eczema, ringworm, and similar eruptions, and clears away disfiguring pimples even when other treatments have been almost useless.

Resinol is not an experiment. It is a doctor's prescription which proved so wonderfully successful for skin troubles that it has been used by other doctors all over the country for twenty years. Every druggist sells resinol ointment and resinol soap.—Adv.

GET AFTER POP FLIES

Manager Jones Wants His Men to Catch Texas Leaguers.

Shows Outfielder Marsans How Trick Can Be Done and Cuban Star Grows Wise—Fly Chasers Must Be Ready to Rush In.

There will be no loafing on the part of Brownie outfielders on pop flies or Texas leaguers in back of the infield, as long as Fielder Jones is directing the plays of the Sportsman's park team. The fly chasers should and must be ready at all times to rush in to get short pops that frequently elude a pursuing infielder who is running with his back to the diamond in an effort to make the catch. Jones has instructed his men to this effect.

During practice session the other day a pop fly was hit into the air by one of the rookies, which dropped just behind the infield. Lavan tried desperately to make the catch, but could not judge the ball, and missed it by a few inches. Marsans, who was playing center, started in at the crack of the bat, but suddenly stopped when he discovered Lavan dashing wildly out into the field to make the catch.

When the side had been retired and Marsans was heading toward the

bench, Jones motioned Armando to his side and queried why he had stopped on the pop fly.

"Why, I thought Lavan would make the catch," answered Marsans.

"You outfielders will have to take more chances on short flies than you do," returned Jones.

"You would have made an easy catch of that ball if you continued to come in," said the Browns' manager.

"Fewer Texas leaguers will drop behind the infield if you fellows take more chances and attempt to make a catch," continued Fielder.

"Well, if I continued running I might have collided with Lavan and either of both of us might have been injured," answered Marsans.

"Nothing of the sort," said Jones. "We have a field captain who is appointed for no other purpose than calling to the men on such plays.

"It is much easier for an outfielder to come in at breakneck speed on a

pop fly than for an infielder to be dashing wildly with his back to the diamond trying to make a catch," continued Jones.

About this time Marsans had been convinced that he had used poor judgment, and continued on to the bench.

In the next inning or two that followed a similar fly was sent up into the air. Lavan again started backward and Marsans was dashing in to make the catch, and Lavan stopped. Marsans made the catch easily.

This proved that Jones' baseball knowledge was correct.

Joe Berger is playing great ball for the Oakland team of the Pacific Coast league this year.

The rumor that Walter Johnson is to be traded to Cleveland has been denied by Manager Griffith.

Ward Miller is playing in the outfield for the Browns right along now and Tobin is on the bench.

It is a good thing for the American league to have a change of leaders, as it is having this year.

Al Wickland is going back. He's going further back each day. Nothing but the fence ever stops him.

CY YOUNG'S RECORD NOT ENDANGERED

Two Sterling Pitchers of National Fame.

Cy Young's sterling pitching record may endure for all time. Only one pitcher in the game today—Christy Mathewson—had a chance to eclipse it. But the sun seems to be setting on Matty's major league pitching life—and, wonderful as is his work, it cannot compare with that of the old war horse.

Young survived the terrific pace of 22 campaigns. He quit the game along in 1910 or 1911, and retired to his farm after having taken part in 819 combats. Of these he won 508, giving him a grand pitching average around .620 for the entire period.

At the end of the 1915 season Mathewson's record showed that over a stretch of 16 years under the big canvas he had worked in 614 games—205 less than Young figured in. To equal Young's record in games pitched, Mathewson must remain in the majors at least six years longer—a seeming impossibility.

Mathewson has won 368 and lost 185 of his games. The others did not figure in his win or lost column. Matty's grand average to date is .665. Even should he by some miracle remain in the major league spotlight until he has pitched more games than Young, it is beyond the range of probability that he can win 60 per cent of the remaining games. And that is just about what the weakening arm must accomplish to beat the record of Young.

When one compares Young's record with that of Mathewson and the other great pitchers of today, there comes the full knowledge of what an amazing twirler was Old Cy—a hurler whose like may never again illuminate—and glorify—the baseball world.

NOTES of the DIAMOND

Cy Williams of Chicago is a real sensation this year.

"Curses" Jack Dalton is not doing much villainous work in the American league.

PICKING RUNNERS OFF BASES

Nick Altrock Established World's Record for Performing This Particular Little Stunt.

Nick Altrock, in the opinion of Fielder Jones, manager of the St. Louis Browns, was about the best pitcher he ever had in picking men off the bases.

It is a certainty that in Phil's opening game this year, Grover Cleveland Alexander, pitching premier of the National league, averted defeat for himself by catching three of the Giants of their bases. This stunt does not compare at all with what Jones says Altrock did when he was pitching out on the Pacific coast.

"In one game," says Fielder Allison, "Nick permitted 13 men to nick him for safeties and he caught 12 of the 13 off base."

This is undoubtedly a world's record.

COLONELS GET FLYING START

Louisville Team Noted for Getting Away Early in Season With Long Winning Streak.

This is not the first sensational winning streak that Colonels of recent years have engaged in. In 1913 Jack Hayden's pennant contenders, easily the best club in the circuit at the time, captured 11 successive battles mainly on keen pitching by Northrop, Toney and Lowdermilk. They were halted on July 18 by Ralph Cutting. In that run of 11 games the remarkable feature was the pitching. The three heavies held the opposition to an average of 1.5 runs per game. Another unusual feature was that only one of the games in that spurt was won at home. The jump put the Colonels in the hunt for the flag until the Brewers nosed them out at the season's close. In 1914 the Colonels won seven games on a stretch upon two occasions, but last year they were lucky to put four wins alongside of each other. Somebody was always breaking a leg or a finger or a head.

GOLD IN EASTERN STATES

With Silver and Other Metals Year's Production is Around \$30,000,000.

Not all of the gold of this country comes from Alaska and the Rocky Mountain states. A good-sized lump of it, more than 10,000 ounces, worth \$224,250, is dug out of the mountains here in the East, remarks the New York Sun.

Gold hunters dreamed for years of hidden wealth of yellow metal in the southern part of the Appalachian range. Some of them stopped dreaming and went to work, missing an Eldorado but gaining enough profit to pay well for their daily labor. As a result 59 gold and placer mines and 24 deep gold mines have been developed.

The most productive of these are in North Carolina, Georgia and Alabama. The last-named state has not done so well as in some previous years, but both the others have exceeded the production of 1914. The largest placer mine is in Rutherford county, North Carolina, and the most productive deep mine in Montgomery county, in the same state.

But the whole story of metal mining in the East is not told in the quest for gold. Besides this precious mineral, silver, copper, lead and zinc have been produced in quantities sufficient to make a total last year of almost thirty million dollars. This is nearly three times the value of the preceding year's production, the increase in gold alone being more than fifty thousand dollars.

Saving. "Old Van Gelder began life as a poor boy, and look at him now. He's worth millions."

"He saved every cent he earned, I suppose."

"Yes, and some that other people earned besides."

Hippopotami Can Run. In spite of its clumsy build, the hippopotamus can trot fast. That is why he was given the name of river-horse. The hippo's feet are kept far apart by the wide body and make paths with a ridge down the middle, so as to be recognizable at once. They swim well, but go at their greatest speed when they can gallop along the bottom in shallow water. They can stay under water a long time, and when they come to the surface they send little jets of spray from their nostrils. The cow is devoted to the calf. Prizes Awarded to Western Canada for Wheat, Oats, Barley, Alfalfa and Grasses

The winnings of Western Canada at the Soil Products Exposition at Denver were easily made. The list comprised Wheat, Oats, Barley and Grasses, the most important being the prizes for Wheat and Oats and sweep stake on Alfalfa.

No less important than the splendid quality of Western Canada's wheat and other grains, is the excellence of the cattle fed and fattened on the grasses of that country. A recent shipment of cattle to Chicago topped the market in that city for quality and price.

Western Canada produced in 1915 one-third as much wheat as all of the United States, or over 300,000,000 bushels.

Canada in proportion to population has a greater exportable surplus of wheat this year than any country in the world, and at present prices you can figure out the revenue for the producer. In Western Canada you will find good markets, splendid schools, exceptional social conditions, perfect climate and other great attractions. There

is no war tax on land and no conscription.
