Does Prohibition Prohibit?

Many Nebraskans have the mistaken idea that state Prohibition makes a state "dry" in the actual sense of that word.

A Confession of Failure:

(From the Topeka State Journal, of Jan. 14, 1916.) "Are the prohibition forces of Topeka cheerfully smiling under a feeling of false security in ignorance of the situation which they have to combat? * * * Legally Topeka is 'dry.' But—"

The Record:

In the same article the Topeka Journal states that the INCOMPLETE record of shipments for 1915 shows that citizens of Topeka ordered and received during that year a total of 160,169 quarts of various kind of liquors.

The Actual Condition:

Prohibition fails to remove the opportunity and the desire on the part of the people to purchase and to use alcoholic beverages. Denied the opportunity to purchase from manufacturers and dealers operating under license within the state, resort is had to express shipments to bootleggers and to "alley joints."

The Chaplain's Testimony:

"About 37 per cent of the prison population are floaters from other states. Most of them came by the 'dope' and liquor routes. It must be confessed that a large percentage of Kansas citizens incarcerated here came by the same route. * * *"

So long as the desire to purchase and to use exists, better results are achieved by REGULATING the manufacture and sale of alcoholic beverages than are secured by enacting a state Prohibition law.
