

HE KEPT US OUT OF WHAT WAR?

Disingenuous to Boast That It's Through Any Act of Wilson We Are Out of the European Contest.

RATHER SHOULD BE BLAMED FOR MEXICAN BELLIGERENCY

During the Present Administration We Have Seized a Mexican Port and Sent Our Entire Army and Militia to Fight Mexicans While Armed Mexican Forces Have Invaded American Soil and Fought Battles Against Our People.

Sometimes you hear men, sensible men, too, say, "I'm going to vote for Wilson this year because he kept us out of war."

Ask such men a short question. Ask them, "Out of what war?"

Did Mr. Wilson keep us out of the European War? No. He has himself in a formal address to congress spoken of the European war as "a war with which we have nothing to do, a war whose causes do not touch us."

How could Mr. Wilson keep us out of a war with which we have nothing to do and whose causes do not touch us? Did he keep the rest of the western hemisphere out of the European war? No independent nation on this side of the world is involved in it; the only people in it are the colonies of European powers and they had no voice in their fate, for they were automatically at war when their mother governments went to war.

Who kept Argentina, Brazil, Chile, Peru, out of the European war? Did Mr. Wilson? Did Mr. Wilson keep us out of war with Mexico? No. In his term more Americans have been killed by Mexicans and more American property has been destroyed by Mexicans than by Spaniards during the whole Spanish war.

In his term we have seized a Mexican port and have sent our entire regular army and militia to fight Mexicans. In his term Mexican armed forces have invaded American soil and fought battles against our people within our boundaries.

President Taft went through two Mexican revolutions during his term, the revolution against Diaz and the revolution against Madero. American lives were safe in Mexico during that time. No Mexican cities were seized by Americans and no armed Mexicans invaded the United States while Mr. Taft was in the White House.

Yet Mr. Taft never thought of asking the American people to vote for him because he kept us out of war with Mexico. He put an embargo on arms so that American weapons would not be sent across the boundary, and he refused to interfere in Mexican affairs.

When he left office Mexicans liked Americans and Americans were safe in Mexico. Since he left office Mexicans hate Americans and Americans dare not remain in Mexico. Did Mr. Wilson keep us out of war with Mexico? Not if words mean anything.

Mr. Wilson did not keep us out of the European war and he did not keep us out of war with Mexico. Out of what war, then?—Detroit Free Press.

HUGHES' LABOR RECORD.

When Mr. Gompers, remembering only that he is a Democrat and forgetting that he is a leader of organized labor, ventured to assert that Mr. Hughes is unfriendly to labor because he concurred in the unanimous decision in the Danbury hatters' case, he ventured on very thin ice.

The Chicago Tribune promptly reminds him that an honest judge must apply the law as he thinks it is, not as he thinks it ought to be; and asks him to tell those who look to him for political advice something about the record of Mr. Hughes as Governor. Read what the Legislative Labor News, the official organ of the New York Federation of Labor, said editorially when Mr. Hughes left the Governor's chair at Albany for his place on the supreme court. Here it is:

"Now that Gov. Hughes has retired from politics and ascended to a place on the highest judicial tribunal in the world, the fact can be acknowledged without hurting anybody's political corns that he was the greatest friend of labor laws that ever occupied the Governor's chair at Albany. During his two terms he has signed fifty-six labor laws, including among them the best labor laws ever enacted in this or any state.

"He also urged the enactment of labor laws in his messages to the Legislature, even going so far as to place the demand for a labor law in one of his messages to an extra session of the Legislature.

"Only 102 labor laws have been enacted in this state since its erection in 1777—in 133 years. One-third of these, exceeding in quality all of the others, have been enacted and signed during Gov. Hughes' term of three years and nine months."

Let organized labor take to heart what the Chicago Tribune says on this point: "Mr. Hughes is no demagogue and no visionary. He is a man of courage and conscience, and if labor cannot confide its cause to his rock-bottom Americanism there is something wrong with its cause."—Boston Herald.

Farm Notes.

Issued by the University of Nebraska College of Agriculture.

WORM REMEDIES

If hogs are to make the greatest profit, they must be kept free from worms, says the veterinary department of the university agricultural college, Lincoln.

Hogs become infested with worms by taking them up with food and drink. Hence, well-drained, clean lots reduce opportunity for them to become infested. It is best to keep a good worm preventative before them at all times. Any tested commercial remedy may be used, but the following preparation is very successful: Air slaked lime, 2 parts; salt, 2 parts; charcoal, 2 parts; and pulverized coppers, 1 part.

Where the herd is badly infested, use for each 100 pounds of shoot, 8 grains santolin and 6 grains calomel thoroly mixed with a thin slop. Let the shoots miss the evening feed, and give them a treatment in place of the morning feed. If necessary, repeat in one week.

CARE OF BROOD SOWS

The way a sow is handled before farrowing has much to do with the value of her litter, according to the university agricultural college.

The sow does best when she is kept in healthy condition but is not allowed to become too fat. Heavy corn feeding makes sows fat, and they are not likely to produce large, healthy pigs. For this reason, breeding stock must be separated from fattening pigs if best results are secured. Feeds that produce bone and muscle are best. Any one of the following rations supplemented by alfalfa hay in the rack will give good results:

- (1) Corn, 1 part; shorts, 1 part. (2) Corn, 5 parts; shorts, 3 parts; oil meal, 1 part. (3) Corn, 3 parts; shorts, 4 parts; tankage, 1 part. (4) Corn, 8 parts; tankage, 1 part. (5) Corn, 1 part; ground oats, 1 part; shorts, 1 part. (6) Ground barley, 1 part; ground oats, 1 part.

COLDS-CATARH-ROUP

Fall rains, damp and unclean roosting quarters, poorly ventilated houses, and exposure to drafts every year bring about the same poultry complaints, colds, catarrh, roup, diphtheria, pneumonia, and indirectly many more diseases, says the poultry department of the agricultural college, Lincoln.

The result is that 5 to 10 per cent of the stock dies, and egg production drops off. To remedy this, new buildings must be constructed or old houses remodeled to insure dry floors, plenty of sunlight and fresh air, and sanitary arrangements.

In erecting new buildings, select a well-drained site. Place floors at least 6 inches above the grade. Use a muslin front or wind baffle to break drafts, and clean out droppings every week.

HAVE COWS FRESHEN IN COOL WEATHER

The breeding of cows during September, October, and the first half of November is not good practice because cows bred at this time freshen in June, July, or the first part of August, says the dairy husbandry department of the college of agriculture. At this time, poor pastures, heat, and flies cause rapid falling off of milk flow.

The best time to have cows calve is in October and November, as they will then give the largest flow when prices for milk products are highest and are nearly dry when hot weather comes. To calve at this time, cows must be bred between December 20 and February 20.

MAKING SILAGE

Corn makes the best silage when the kernels are well dented, says the dairy department of the state agricultural college.

Three-fourths of an inch is recommended as the best length to cut the corn, the finer it is cut the better it will pack, and the better the cattle will clean it up. Course-cut corn does not keep as well, and a great deal is wasted in feeding.

Silage is usually wet when put in the silo; but if it does not feel wet, water should be added. This may be done by means of a hose thru the blower, or by wetting successive layers of silage as they are added. It takes several weeks for corn to pass thru the heating process which changes it to silage.

Notice

There are many reliable farm papers issued nowadays that supply the farmers and stockmen with cashable and workable ideas, but the best suited to the farmers of this section is Farmer and Breeder. It is issued semi-monthly at Sioux City, Ia., and is intensely interesting and practical. It regularly carries veterinary, dairy, poultry, horticulture, home and fashion departments in addition to market and live stock news. The special feature stories about successful farmers and breeders give many valuable hints, suggestions, and lessons that any intelligent farmer can apply with profit.

MONEY-SAVING OFFER

The Herald has made special arrangements with Farmer and Breeder which entitles us to offer you The Herald and Farmer and Breeder both for one year for only \$1.00. Send us your subscription now and save money. This offer is good for only a limited time. Every subscriber to Farmer and Breeder is entitled to free consultation with its editors on any phase of farming or stock raising.

Prohibition and Increased Taxation

A Message from Governor Capper of Kansas

"Kansas, in common with other states, has experienced in the last decade an increase in the cost of government and the burdens of taxation, far beyond the increase of population. In twelve years public expenditures have increased 68 per cent in the state; 77 per cent in the county; 153 per cent in the city; 119 per cent in the township; 132 per cent for schools."

This quotation is taken word for word from an official message from Governor Capper of Kansas to the Legislature of Kansas, 1915 session. The message is dated Jan. 12, 1915, is signed "Arthur Capper, Governor," and appears on pages 11-17, of the official Senate Journal, State of Kansas, 1915.

The attention of the reader is called to the fact that taxes have increased enormously in Kansas, a prohibition state.

NOTICE OF SALE UNDER CHATEL MORTGAGE

Notice is hereby given that by virtue of a chattel mortgage dated on the 25th day of May, 1916, and duly filed in the office of the county clerk of Dakota county, Nebraska, on the 15th day of June, 1916, and executed by Ben Verlinden to Geo. A. Perry to secure the payment of the sum of \$20.00, and upon which there is now due the sum of \$20.00 and interest, default having been made in the payment of said sum and no suit or other proceedings at law having been instituted to recover said debt of any part thereof, I will sell the property therein described, viz: One steel windmill, tower, pump and tank at a public auction at my home in Omaha precinct, of Dakota county, Nebraska, on the 21st day of September, 1916, at 10 o'clock A. M. of said day. Dated this 28th day of August, 1916. GEO. A. PERRY, Mortgagee.

Probate Notice to Creditors

In the county court of Dakota county, Nebraska. In the matter of the Estate of Herman Root, deceased. Notice is hereby given, that the creditors of the said deceased will meet the executor of said estate, before me, county judge of Dakota county, Nebraska, at the county court room in said county, on the 15th day of November, 1916, and on the 15th day of February, 1917, at 10 o'clock a. m., each day for the purpose of presenting their claims for examination, adjustment and allowance. Six months are allowed for creditors to present their claims and one year for the executors to settle said estate, from the 15th day of August, 1916. This notice will be published in the Dakota County Herald for four weeks successively prior to the 15th day of November, 1916. Witness my hand, and seal of said court, this 28th day of August, A. D. 1916. W. MCKINLEY, County Judge.

Notice of Opening Road

State of Nebraska, Dakota county, ss. Notice to Land Owners. To all whom it may concern: The commissioner appointed to locate and view a road commencing at a point near the southeast corner of the northeast quarter of the northeast quarter of section 25, township 29, range 7, west in Dakota county, Nebraska, running thence west on the quarter section line until it intersects the Jackson and Goodwin road in section 27, township 29, range 7, in Dakota county, Nebraska, and there terminate, has reported in favor of the establishment and location thereof, and all objections thereto, or claims for damages, must be filed in the county clerk's office on or before noon of the 6th day of October, A. D. 1916, or such road will be established and located without reference thereto. Geo. Wilkins, County Clerk.
