

A Distinctive Reason

What is the chief reason for the superiority of Royal Baking Powder?

There are several good reasons, but there is one which distinguishes Royal from other baking powders.

This reason, which every woman should know, is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

There is no alum nor phosphate in Royal Baking Powder.

The manner in which John L. Kennedy made the voters of Hall county sit up and take notice demonstrated that he is not only an orator but a spellbinder.—Hastings Tribune.

And we want to say right in this connection that John L. Kennedy will make just as good a United States Senator as he does a campaigner. He is thorough in everything he undertakes. If you want to know what sort of a man John L. Kennedy is just ask any prominent Omaha citizen, who has known of the splendid work he has done for Omaha and Nebraska during the thirty-three years' residence in the state.—Benkelmen Post.

Nebraska will have reason to be proud of John L. Kenney when he goes down to Washington. He will not be a representative of any section of the state, but will recognize the state as a whole and do his best for the interest of all the people of Nebraska, all the time.

Congressman Dan Stephens is evidently getting a little worried about being able to handle the voters at the coming election with the franking privilege and is now soliciting the complimentary support of the newspapers through his bill against fake advertising. Well, Dan gets paid for looking out for his constituents and if fake advertising is injurious to the people of his district he is but earning his money and why should he expect the press to laud him to the sky for tending to his business is a mystery. Maybe he has been reading the Genoa Leader and is becoming alarmed at the election prediction of Editor Young who says Warner will win so easily that people will wonder who is against him.—St. Edwards Advance.

The bill against fake advertising mentioned by the Advance is masquerading under a false title, as the bill does not in the least relate to advertising, but was designed by Dan Stephens, and we are using his own explanation, for the purpose of legalizing contracts for the resale of manufactured products and to enable the manufacturer to dictate to the retailer and consumer just what must be charged and paid for merchandise. The supreme court of the United States has held that such contracts are illegal, and it was the desire of Mr. Stephens to legalize an illegal practice when he fathered the bill. The Herald does not know who paid the Western Newspaper Union for the plate matter it prepared and sent out free to the country publishers who would print it boosting the bill, and it failed to see where the bill deserved a title that would lead anyone to think that it was a bill against fake advertising. It did, however, see where the bill was against the interest of the ultimate consumer, particularly the farmer.

GEORGE W. LEAMER

Democratic Candidate for

County Attorney

GEORGE W. LEAMER

is one of our own products, being born and raised in Dakota county.

He received his education at our State University, graduating from both the Arts and Science College and Law College, and has been practicing law at Dakota City since his graduation.

He stands for a clean, vigorous and humane enforcement of our laws.

Whatever support the voters may give him will be greatly appreciated.

SWAT THE SALOON!

It hatches all the evil talk about the town.

It is the headquarters for corrupt politics.

It is the one business in town which the citizens are ashamed of.

It is the head office of the white slave traffic in this territory.

It is an economic waste—it produces paupers, derelicts and murderers and pays but a few hundred dollars a year for the privilege.

Vote Nebraska Dry!
