Official Paper of Dakota County

John L. Kennedy is going to be the next United States senator from Nebraska. He is making friends every day and if he keeps growing in popularity in the remaining few weeks as he has in the past fortnight, he will get a rousing big vote. Every republican owes it to his party and to the welfare of Nebraska, to throw off his coat and help elect Mr. Kennedy. Let's do it.—Syracuse Journal.

It is mentioned to the credit of Judge Sutton, republican candidate for governor, that in the April primary he carried every Omaha ward where the better class of people live. It is pointed out that he carried every rural precinct in Douglas county. He carried the counties of Burt, Sarpy and Washington where he served as district judge for sixteen years. The people who know Judge Sutton best, are his strongest supporters—a fact which gives emphasis to his fitness for the chair of chief executive of Nebraska.—Wayne Herald.

Judge Jacob Fawcett of the supreme court is a candidate for election as its chief justice. Judge Fawcett is regarded by the Nebraska bar as a man of the highest integrity and one of the most able jurists who ever served on the high bench of Nebraska. Judge Fawcett is distinctly a self-made man, having worked his own way to a legal education. His exceptional talents were soon recognized at the bar, resulting in his election as a district judge of the Omaha district, later confirmed by re-election, making a continuous service of eight years. Judge Fawcett was appointed to the supreme bench in December, 1908, was elected to a full term in 1909, which he is just completing, and is a candidate now for election as chief justice on a non-partisan ballot. No higher compliment can be paid Judge Fawcett than to restate a truth universally known to the legal profession of the state: That he is everywhere regarded as fearless, unbiased and capable in the highest degree. His election as chief justice will be both a warrant and a guarantee that the work of the court will be expedited to the fullest degree consistent with careful and scholarly consideration of the issues presented. Judge Fawcett's record on the bench fully bears out this well-earned reputation.

Will Mr. Hitchcock please explain why the democratic congress in which he took a very active part created 30,000 new offices for "deserving democrats," at an annual expense to the tax payers of this country of \$36,000,000.00? Will Mr. Hitchcock please explain why the 63rd congress of which he was a member appropriated several million dollars more than any preceding republican congress? Will Mr. Hitchcock explain how much of this appropriation went into the pork barrel of the south? Will Mr. Hitchcock explain why he voted to protect through the Underwood tariff the products of the southern farmer? Will Mr. Hitchcock explain why he did not, by his vote, protect the interests of his own Nebraska farmers, instead of permitting their corn, wheat, and hogs to be placed in competition with every other producer in the world? Coming closer to home, will Mr. Hitchcock explain why he appointed Fanning the postmaster at Omaha, when he knew what kind of a man Fanning was? And will he explain why he appointed Fanning, if he knew at the time of making this appointment that Fanning had been charged with violating the Alberts law? An explanation of these matters, and others in Mr. Hitchcock's record would be interesting to Nebraska people, more so in fact than his eulogies of Wilson. Hitchcock realizes that his explanation of these matters of his record would make votes for his republican opponent, John L. Kennedy, and that is why he is silent, preferring to talk entirely upon why Wilson should be re-elected.

Looking Backward.

Sioux City Journal, Oct. 8, 1876: Eugene Wood, formerly in journalism in Covington, now does "Persons and Things" on the Chicago Evening Journal, and does them well.

CORRESPONDENCE

HUBBARD

Guy Weir was a city passenger one day last week.

Mabel, Gertrude, Roy, Melvin, Ollie and Elmer Bartels, Mr. and Mrs. Harry Ostmeier and daughter and Mr. and Mrs. Renze and daughter.

To My Friends:

It hardly seems necessary to recall to you my conduct and the manner in which I have served you as County Clerk. The details in the office of County Clerk are numerous and of vital importance; I am familiar with them, having gained it by experience and close attention, and as before, will continue my method of serving all alike in attending to the duties of the office I am aspiring to. The title to your home depends on strict attention to correct and careful recording. I am constantly on the alert to have everything correctly done, and my experience helps me in this work.

Your support is solicited on my part record.

Respectfully,
GEORGE WILKINS
Republican Candidate for Re-election to the Office of County Clerk.

ter, ate Sunday dinner at the Thos. Renz home.

F. W. Swingle was here last week looking after his farm south of town.

Annie Erlach returned to St. Joseph's hospital Wednesday to resume her studies in the nurse training course.

J. J. McAllister's Candidacy

A Letter to the People

—READ—

Dakota City, Neb., Oct. 16, 1916.
To The People of Thurston and Dakota Counties:

I desire to say to you that I am a candidate for representative on the democratic ticket. Democracy means the strength, the rule, the power of the people. It means that in a republic, the people should rule, not the classes. In this sense I am a democrat. I believe in the absolute right of the people to control, own and administer their government, state and national.

The chief end of government should be the welfare of the masses. The masses of humanity, with souls and hearts and minds, labor to work out their own problems, involving their welfare. This should be the purpose of government—the welfare of the masses. So far as government achieves this, it is a good government. So far as it ignores the interests of the masses, and promotes the interests of privilege and special interests, it is not a good government.

For fifty years special interests, trusts, corporations, combinations, syndicates, stockholders, have been the care of government. The people have been overlooked. Their grievances have been obscured and ignored. Infinite selfishness and avarice have been allowed to prey upon the necessities of life, the productions of the people and the toil of millions. The Morgans, the Guggenheims, the Carnegies, the Rockefellers have been allowed to lord it over the people, their government, their property, and their natural resources. Rivulets of wealth are given to the people, and it is called prosperity, while their feudal masters swim in oceans of wealth, stolen from the people.

The wealth of the nation is concentrated in few hands. The springs of wealth, the public utilities, the natural resources of the people, the products of the farm, the financial power of the country, are, all, exploited by monarchs of great wealth. Two per cent of the people own 60% of the nation's wealth.

Education is the Citadel of our liberties. We must make it a tower of strength for the masses against the cunning, selfishness and power of corporate greed. The country child must be given equal advantages with the city child for education. I favor the state printing for schools at cost, for the people.

I favor good roads to enable the farmers, to get their products to market. I favor state hail insurance for farmers.

I favor strict regulation of telephone rates with proper regard for the interests of the people, and adjustment of these rates and charges for service.

I favor abolishing power of courts to set aside laws enacted by the people.

In a word, I am for the masses. Their welfare shall be the measure of my service, should I be elected representative. This is my platform—the interests of the people. On this I appeal to the generous electors of these counties—Thurston and Dakota—for their support of my candidacy for representative at the coming election.

Very Respectfully,
J. J. McAllister.

S. W. MCKINLEY
Non-Partisan Candidate for
County Judge
FOR RE-ELECTION
Non-Partisan in the Strictest Sense
of the Word

A NON-PARTISAN CANDIDATE

While 65% of the people own but 5% of its wealth, as a result of the control of the springs of wealth by the privileged classes. The shepherds of the people have neglected them. They have been turned over to the tender mercies of men with hearts of stone; and these gentlemen have become so powerful and arrogant that they think the everlasting hills have been created for them as an inheritance.

We want our own people happy and contented, ruling themselves, obeying law, and not oppressed by selfishness, nor waylaid by exploiters. I favor ownership by the people of all public utilities; and of all natural resources. In this principle, I am supported by the conduct of the present administration. It has taken over to the people the coal and railroads of Alaska; and is now about to create a merchant marine to control the paths of the sea for the people. This shows the government is getting a heart, that beats for the masses. I favor taking over the springs of wealth in our southern latitudes, as well as those lying under the Arctic circle.

The farmers have been systematically robbed by a grain and meat trust; and the consumers of farm products have been robbed too. I favor national elevators, public stock yards, public markets, a state office of markets, or other efficient agency of government to dispose of farmers' products, so as to secure him and the consumer from the piracy of the grain trust.

I favor our colleges teaching cooperative business, cooperative law, cooperative marketing, buying and selling. Cooperation has been a chief source of success for the corporation and stockholder. I want the people to know its secrets, and its power for good for the masses.

I believe in a broader and more economic use of the surplus money of the people than is now attainable under present selfish methods.

I am against the "Short Ballot" so called, as leading to despotism and one man power—and utterly inconsistent with democracy.

Education is the Citadel of our liberties. We must make it a tower of strength for the masses against the cunning, selfishness and power of corporate greed. The country child must be given equal advantages with the city child for education. I favor the state printing for schools at cost, for the people.

I favor good roads to enable the farmers, to get their products to market. I favor state hail insurance for farmers.
