QUIETED FOR SHORT TIME

Youthful Soldiers Had to Do Some Thinking Before They Could Find Effective Answer to Gibe.

Some young volunteers were traveling to their drilling ground and a certain noisy section of them at one station sought to pass the time by hurling ill-mannered gibes at a smart-looking officer in the "Regulars," who was waiting for his train.

"Guard, what is the meaning of this train's long delay?" "They are examining the volunteers' tickets, sir," answered the guard.

"Oh, thanks," drawled the officer; "but I always thought that children in arms never required tickets."

And the train started again before any of the volunteers had sufficiently recovered from the shock to reply.—London Tit-Bits.

J., and is next followed by the Western and mid-Western circuits.

over and spoke to those in the press seats.

"Say," he said, "I thought you fellows said this guy had a punch."

"Better be careful, Jim," cautioned one of the scribes, "if he lands you'll find out."

Clabby threw back his head and laughed. Then he came back with this: "If a guy has a punch and can't land it he hasn't got it, has he?"

The newspaper men had no immediate reply to the question. Jimmy held their goat. And throughout the remainder of the fight, between rounds and in the clinches, Clabby kept kidding the newspaper men about the punch that wasn't landing.

TRACKS FOR AUTO SPEEDING

Present Prospects Are That Five New Plants Will Be Added to Circuit Next Season.

Although the majority of the 12 motor speedways now in operation have not made money on their races this season, present prospects are that five new tracks will be added to the circuit next season.

Pittsburgh has just announced a million-dollar plant. Philadelphia and Birmingham, Ala., have tracks in the process of construction, while New Orleans and Columbus, O., have speedway projects in the process of promotion.

The 12 tracks now completed that have staged races within the last year follow: Indianapolis, New York, Cincinnati, Chicago, Los Angeles, Tacoma, Minneapolis, Kansas City, Des Moines, Omaha, Sioux City and Providence.

WATCH JONES' OUTFIT

Will Be Real Dark Horse in Next Season's Race.

Manager Contends That Pitching is First Essential for Winning Combination—McGraw of New York Giants Agrees.

Grandstand managers are pretty well agreed that Fielder Jones' Brownies lack that run-making essential—a punch. Sixty-four games of the one-run margin variety, 35 of these defeats, are pointed to as evidence that the club is deficient in batting effectiveness, writes Ed Wray in St. Louis Post-Dispatch.

It is also agreed by the amateur managers that Fielder Jones is making a mistake in sitting tight with his present outfit and in planning to continue his 1917 campaign with the same punchless cast.

But there is the large "on-the-other-hand" to his argument, one that can be backed up by figures. Bating is far from being everything in the life of a successful team; and that the injection of a little more timeliness into the swatting of our Brownies, plus the team's great superiority in speed, may yet vindicate the club's manager.

The answer to this view will, of course, be: "See what happened to the club this year. It had a fair trial."

Jones argues differently. He maintains that a good start would have brought confidence and a near-first-place position to his club.

Jones holds—and he is supported by facts—that pitching is the first thing

Manager Fielder Jones.

needed by a team. With that anything is possible. He regards the failure of his own club as due to Koob's illness at the start and in midseason Davenport's failure to round to form until he had lost about nine games. Plank's tardy return to championship class and the failure of Hamilton to come through, rather than to the downfall of clean-up men Pratt and Marsaus.

Johnny McGraw is ready to O. K. the view about pitching. For, while everybody is crediting his new infield with the return to winning form of the Giants, it is noteworthy that the pitchers of the club, in annexing their long string of victories, allowed a grand average of only 1.5 earned runs per nine-inning game.

M'LOUGHLIN STAYS IN GAME

California Star Will Not Forsake Pastime That Made Him Famous—Will Return to East.

Maurice E. McLoughlin, the California star has not forsaken the game that made him famous. At the close of the title tourney at Forest Hills, Ill., the former national champion said: "I am quoted every year as saying that I have played my last set of tournament tennis, while as a matter of fact, I have never made such a statement. Any man who has been an athlete and then enters a business career with its confinement indoors knows it is impossible to keep his physical condition perfect. That has been my trouble, but if I get the opportunity, I will return to the East and tournament play."

HOPPE CHANGES HIS STYLE

Champion Billiardist Drives Around Table Rather Than Take Chances on Thin Shot.

Balk line billiard champion Willie Hoppe is said to have changed his style since last year. Formerly he played close shots with a "shave" English figure to get the feather edge of each sphere. Now he drives around the table rather than play a thin shot, his object being to keep the object balls continually in front of the cue ball. He is hitting the balls full and taking no chances on spectacular shots.

Health Item.

A learned doctor of Johns Hopkins says that football spells health for the spectators because they leap up and cheer wildly. After all, it appears that what the world chiefly needs for its health is some trivial excuse to leap and wildly cheer. Perhaps it would be in order for medical science to ascertain the relative hygienic values to be derived by the spectators from an exciting game of pinocle or checkers.

Muffling Children's Cries. "Teach your child to take his hair-brush or old slipper spankings without tears and without crying," is the advice of Dr. Benjamin P. Croft of Indianapolis.

160 Acre Homesteads Are Actually Free to Settlers and Other Land Sold at from \$15 to \$20 per Acre

The great demand for Canadian Wheat will keep up the price. Where a farmer can get near \$2 for wheat and raise 20 to 45 bushels to the acre he is bound to make money—that's what you can expect in Western Canada. Wonderful yields also of Oats, Barley and Flax. Mixed Farming in Western Canada is fully as profitable an industry as grain raising.

The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, churches, markets, convenient climate, excellent military service is not compulsory in Canada but there is an unusual demand for farm labor to replace the many young men who have volunteered for the war.
