

You Can Make Excellent Cake with Fewer Eggs

Just use an additional quantity of Royal Baking Powder, about a teaspoon, in place of each egg omitted.

This applies equally well to nearly all baked foods. Try the following recipe according to the new way:

CREAM LAYER CAKE

Old Way

- 1 cup sugar
- 1/2 cup milk
- 2 cups flour
- 2 teaspoons Royal Baking Powder
- 3 EGGS
- 1/2 cup shortening
- 1 teaspoon flavoring

New Way

- 1 cup sugar
- 1 cup milk
- 2 cups flour
- 4 teaspoons Royal Baking Powder
- 1 EGG
- 2 tablespoons shortening
- 1 teaspoon flavoring

Makes 1 Large 2-Layer Cake

DIRECTIONS—Cream the sugar and shortening together, then mix in the egg. After sifting the flour and Royal Baking Powder together two or three times add it all to the mixture. Gradually add the milk and beat with spoon until you have a smooth pour batter. Add the flavoring. Pour into greased layer cake tins and bake in a moderately hot oven for twenty minutes. This cake is best baked in two layers. Put together with cream filling and spread with white icing.

ROYAL BAKING POWDER

made from Cream of Tartar, derived from grapes.

County Agent's Field Notes

BY C. R. YOUNG.

Although a bit late, we cannot help but realize that at last spring is upon us. The remaining few days before we can get into the field should be busy times with the farmers, getting manure hauled where this is possible, machinery repaired and painted, harness mended and oiled, seed wheat and oats cleaned for sowing and seed corn tested as to germination. Some of the most profitable days work done by the farmer are often those spent in doing these oft neglected jobs.

A few days ago the writer visited the farm of Mr. H. Biermann and found him fanning some of the best oats he has ever seen. These oats and also the wheat are to be treated for smut before seeding time. Mr. Biermann says that this treatment each year is paying him well. While it is sure that some years the oat smut is not so troublesome as at others because of climatic conditions, nevertheless, there is no year that it does not pay well for the labor and expense involved, and many years big returns are secured. Don't judge your oats or wheat seed as to their freedom from smut but treat before sowing. Often from five to ten bushels per acre are lost from smut.

The treatment for smut is one pint of formalin to forty gallons of water. Treat the seed in wagon bed or on granary floor. Wet the oats thoroughly by sprinkling the solution on a little at a time as they are shoveled in a pile. Shovel the pile over once or twice to insure all being wet. When the box is full, or a good pile treated, cover carefully with a blanket or tarpaulin for ten or twelve hours. After treatment shovel all grain over one or two times to hasten drying. Two men in a few hours can treat enough for fifty acres. The cost of labor and formalin should not exceed one and one-half cents per bushel.

Because of difficulty in drying, grain should not be treated for smut until just before sowing. Care should be taken in sowing, to make sure that the seed feeds fast enough to insure a good stand, and with oats it is best to sow a peck more than usual to allow for swelling.

Those desiring assistance in smut treatment should notify this office. We are now in touch with two labor bureaus. Those desiring farm laborers might secure them from one of these places.

Through the co-operation of the Agricultural Engineering Department of our State University we will be able to assist those having drainage projects. Application for this help should be made as soon as possible.

SCHOOL NOTES.

By Clarence Linton.

Myrtle Jones entered the third grade last Monday.

The Cole children are back in school after a siege of smallpox.

The fifth and sixth grades have enjoyed making wool and cotton posters the past week for hand work.

The grammar grades received the quarter holiday for best attendance the past month.

The new flag purchased by the school board for the school came last week and has been hung from the stair window each day since. A flag pole will be erected soon and the large flag may be seen from a distance.

The base ball season opens next week and a game is expected by Friday, April 6.

The last indoor basketball game of the season will be played Wednesday evening, beginning at 8 o'clock. The high school boys will play the "Invincible Five" again and afterward defeat the Boy Scouts for the second time. A good attendance will be greatly appreciated and without doubt you will be well repaid for the time and money.

Two very interesting basket ball games were played Friday evening.

The girls from the seventh and eighth grades gave the high school girls a lively time, the game resulting in a victory for the high school

girls with a score of 15 to 21. The high school boys triumphantly bested the Sioux City boys. The game was snappy from beginning to end though the score was at all times much in the favor of the local team. When the final whistle blew the score stood 56 to 19.

Practical Education

While our schools are being conducted very satisfactorily, we believe many of the problems in mathematics are not practical. Why not have problems useful in everyday life? For instance like the following:

If it takes a boy twelve years of age twenty-two minutes to bring in six small sticks of wood, a distance of seventeen feet, how long will it take him to travel a mile to see a circus show procession?

A woman placed four pounds of cold meat and eight slices of bread before a tramp. At the end of twenty minutes how much was left?

A housewife sold a coat to a peddler for a vase worth nine cents, a pair of boots for a china dog worth six cents, and a vest for a glass bottle worth four cents. How much did she receive for all and how much over \$9 clear profit did the peddler make?

A man pays thirty cents for three pounds of evaporated apples and gets a \$14 newspaper puff for sending them to an orphan asylum. Does he gain or lose and how much?

Two females, each thirty years of age are sitting on a sofa. Neither of them has a husband. One is worth two hundred thousand dollars and the other teaches a district school. Which is the unmarried lady and which is the old maid?

A man winks his eye an average of 30,000 times a day and a woman's tongue makes 78,000 motions every twenty-four hours. At this rate how long will it take the man to catchup?

If it costs \$200 for a young lady to learn painting, and she turns out two landscapes worth forty cents apiece, what is the net profit?

It takes twenty blows of a hammer in the hands of the woman to drive a tenpenny nail three inches. She misses the nail twice where she hits it once. How many blows does she strike in all, and how far can her voice be heard when she strikes her thumb?

Disposing of irrigation water rights in the North Platte River Valley in Nebraska, worth more than 2 million dollars, a Nebraska supreme court decree upholding validity of the state's Water Law of 1895 and sustaining the water claims of the Tri-State Land Farmers' Mutual Canal Company, was today put into effect by the supreme court.

Two harness racing meets will be staged in Omaha this summer, according to an announcement made by the Omaha Driving Club. This city was recently named by the Great Western Circuit as a member of the circuit and the week of August 20 was allotted for races here. The other race week—that of June 7—is to be devoted to the Tri-State association.

Claude Smith, a colored section hand, who was arrested at Big Springs on a charge of breaking into a car on a through train, entered a plea of guilty at his preliminary hearing. Forty pairs of tan shoes, some electrical supplies and notions were recovered by the railroad detectives. The value of the stolen goods amounted to \$400. Smith was bound over to the district court on \$1,000 bonds.

Claiming she had been kidnapped from her home at Green City, Mo., by a band of gypsies, Dina Jones, thirteen years old, appeared at a farm house near Diller, Neb., and asked for protection from her captors, a band of twelve, who, she said, had abused her. She was brought to Fairbury by Sheriff Rowles. An effort will be made to locate her parents, who, she said, are either at Hannibal or Kansas City.

Two years' imprisonment in the federal prison at Fort Leavenworth and a fine of \$10,000 was the sentence given J. Sidney Smith, president of the United States Live Stock company, who was recently convicted in federal court on charges of using the mails to defraud in the sale of wild horses. The sentence was the maximum under the law.

Clarence Brown, 19 years old, is in a critical condition at a North Platte hospital and his brother, Robert, aged 26 years, is a fugitive as a result of a wrestling bout between the two brothers at the home of the father, Daniel Brown, a farmer living south of Lisco. The youth is suffering from six knife wounds inflicted by his brother, who drew a pocket knife and stabbed him when the younger got the better of the wrestling match.

The state warrant issued from the county judge's office at North Platte following the paternity complaint by 16-year-old Dorothy Huffman, has been served on Otto Lind, a young farmer living south of Brady and he has given security for his appearance in county court when the case is set for hearing. No date has been set for the hearing as yet.

That a fist is a deadly weapon under certain conditions was the ruling of the Nebraska supreme court in affirming the conviction of William Sayles of Council Bluffs on a charge of murder in the second degree. Sayles was charged with having struck John G. Runyan with his fist. Two hours later Runyan died of suffocation.

State Superintendent W. H. Clemmons has received notice from the national bureau of education department of the interior, that under the Smith-Hughes act of congress approved February 23, the state of Nebraska will begin sharing in national funds for educational purposes in the year 1918. Nebraska will receive \$20,045 in 1918, \$28,010 in 1919 and \$36,900 in 1920.

William H. Paisley and his sons, James T. and Oliver F., charged with receiving deposits after they knew their three private banks at Chicago to be insolvent, were found guilty. The sons were sentenced to three years and the father to one year in prison.

Earl B. Gaddis, political writer on the World-Herald for several years past and correspondent in the legislature during the past four sessions, has become secretary to United States Senator Hitchcock. He will go to Washington within a short time. In the event an extra session is held,
