The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer \$100.00 reward for any case that it fails to cure. Send for list of testimonials. Address P. J. Sell the Champion Cream Saver

THE

NEW DE LAVAL

If you have ever owned a separator of any other make, there is one outstanding feature of the NEW De Laval that will appeal to you as much as even its mechanical superiority, and that is its simplicity.

You won't find any complicated, troublesome parts in the NEW De Laval. It does not get out of order easily, even when it is misused; and if for any reason you ever should want to take it apart, the only tool you need is the combination wrench and screw-driver furnished with each machine.

The NEW De Laval is the simplest cream separator made

Only tool required

A person who has never before touched a separator can, if necessary, unassemble a modern De Laval machine down to the last part within five minutes, and then put it together again within ten minutes. This is something that cannot be done outside a machine shop with any other separator made, and any separator user who has ever had to wrestle with the complicated mechanism found in other separators will appreciate what it means to him.

Don't fail to stop in and see the NEW De Laval the next time you are in town. Even if you are not in the market for a separator right now, come in and examine a separator that is sold by experts to embody the greatest improvements in cream separator construction in the last thirty years.

The Omaha road put on a new time card Sunday, which effect only the freight trains. The Lincoln Journal comments as follows on the new schedule: "Never again for the state railway commission. It once approved a hurry-up request of the M. and O. for approval of a change in passenger train schedules and later found that the railroad company had cut out the privilege of a stop at South Sioux City, and as a result passengers have been paying the increased interstate rate instead of the 2-cent rate in Nebraska, and the matter is not yet settled. So the commission did not bite last Saturday when the M. & O. filed a few changes in freight train time cards, with a request that it be approved immediately because the railroad proposed to put the changes into effect Sunday. The commission will take its time to check the changes to ascertain the result, but in the meantime it is reported the company put the changes in force Sunday without permission of the commission. If this proves to be true there may be something doing in the way of an order from the commission to reinstate the old time card, and possibly a penalty. It is supposed the new time card is intended to shorten freight runs to avoid contact with the Adamson law. The new time card contains a change of freights on the Creighton and Bloomfield branches from morning to late in the afternoon.

M. E. Church Notes.

F. J. AUCOCK, Pastor.

Next Sunday is the first Sunday in May and it reminds us that there are a few very important events scheduled for the month. First is Mothers Day. We intend paying particular attention to this day again. The second Sunday in May has been set aside for this purpose. Every mother will be invited and we hope to have an interesting and impressive service. Another important event is the Baccalaureate sermon to the graduating class of the high school. The pastor has been invited by the graduates to preach this sermon, the evening of May 13th. Then lastly we intend having a "Benevolence Sunday" the last Sunday in May when we will definitely clean up for the year our benevolent appointments. This week the pastor is sending the usual promise cards to the members. We particularly wish to make it clear that the apportionments are made on the basis—partly—of membership. It is necessary then that every member will contribute and not throw an unnecessary burden upon a few. Every member, both adult and child, is expected to give according to ability. The average asked of us this year is \$4 per member. Remembering that many young people are members who cannot be expected to give this amount, it is incumbent upon those who can give liberally, Dakota City had a splendid record last year. Dr. Hollingshead, who is considered one of the greatest statisticians of the church, examined our record for the last four years and gave it high praise. Every single item of finance and every statistical figure showed an increase over previous years. What will be the record of 1917? Shall we go forward again? In every department of church work we need a little more intelligent and earnest service before we can be even beginning to fulfil our mission.

Services will be held at the usual hours next Sunday. Come and worship with us at "The Church with a Welcome."

COUNTY SCHOOL NOTES

WILFRED E. VOSS, Supt.
Since some of the eighth grade sets of questions have been unusually hard this year, many of the county superintendents have requested the state superintendent to offer a two day's examination in May.
