IN BED FOR WEEKS Mr. Smith Was in a Bad Way, But Doan's Restored Him to the Best of Health.

In April, 1916, Louis Smith, 90 New St., Hackensack, N. J., said: "Words fail to describe the misery I cadured from kidney complaint. In my work I have to do a lot of heavy lifting and this weakened my kidneys. At first I only suffered from a slight backache, but almost before I knew it, I was all bent over like a man a hundred years

a man a hundred years old.

"I began to grow worse as the days passed and finally I had to take to Mr. Smith. my bed where I remained for weeks. My head pained terribly and my back just throbbed. I was always dizzy and it seemed as if everything was whirling. Little black specks came before my eyes and I also suffered from painful and scanty passages of the kidney secretions. Everything seemed dark and dreary."

"Doan's Kidney Pills completely cured me and I am enjoying the best of health now."

"Sworn to before me."

"Sworn to before me."
E. M. Johnson, Justice Peace. On March 19, 1917, Mr. Smith added: "I will never forget what Dogn's have done for me. Whenever I catch cold on my kidneys, I can depend on Dogn's to fix me up all right."

HAD WASTED THEIR LIVES

Good Saddlers Spoiled to Make Lawyers, Opinion of Sir Douglas Haig on Seeing Work.

The fact that Sir Douglas Haig attained his fifty-sixth birthday recently brings to mind a story told of him a short while back.

Sir Douglas is a soldier first, last and all the time, regarding all other professions as of quite negligible importance, a trait in his character which lends point to the anecdote.

. He was, it appears, inspecting a cavalry troop, and was particularly struck with the neat way in which repairs had been made in some of the

"Very good work," he remarked to the troop sergeant major. "Who did

"Two of my troopers, sir," was the "You're fortunate to have two such expert saddlers in your troop," said

Haig. "As a matter of fact, sir," was the reply, "they're not saddlers, in civil life being lawyers."

"Well," ejaculated Sir Douglas, "how men who can do work like that could have wasted their lives over law I dan't Imagine!"

A Waiting Game. "By the way, old man, how is your suit with Miss Roxley progressing?"

"Slowly. I'm playing a waiting game just now." "A waiting game?"

"Yes; I'm waiting for her to change her mind."

Treating Garden Seeds. "Do you know how to treat garden

seeds?" "Certainly."

"How?"

"Same as you treat your friends in a prohibition town-give 'em some water."

All the world loves a winner, but not for long after the winner becomes a loser.

A good man's countenance may fail, but it remains for some better man to

SPECTACULAR ENTERTAINMENTS AT INTERSTATE EXPOSI-TION AT SIOUX CITY.

Boys and Girls to Compete for Cham-Daily-Race Program a Good One-Big Stock and Mechanical Exhibits.

To assemble a fair this year that would excel any of those of the past in its sheer largeness, in its particular appeal to those who are interested in spectacular and extensive nature of its attractions and amusements, while at the time adding an entirely new and serious note by the attention that ought to be paid to patriotic things, was the task set before Joe Morton, secretary of the Interstate Live Stock Fair, that will be held on September 17, 18, 19, 20, 21 and 22 at the Woodland park grounds in Sioux City.

It is the judgment of those whose acquaintance with interstate and other big fairs during recent years entitles them to speak with authority, that this has been achieved, and that in respect to educational patriotism as well as to complete exhibits and novel entertainments, the 1917 exposition will take rank altogether by itself in this territory. Mr. Morton himself, while saying that he prefers leaving the praise to the people who attend the fair, makes no secret of the fact that he is well satisfied with the way all display space has been gobbled up and with the contracts that he has been enabled to secure with the country's best amusement

Boys Compete by States.

In particular the fair management s pleased by the truly interstate nature the annual exposition has come to take, and this characteristic will be more notable this year than ever before, entries indicate. The four neighboring states of Iowa, South Dacota, Nebraska and Minnesota are in terested not alone in the thousands of exhibits which range from fancy horses and cattle to the choicest of grains raised in this section of the country, and from home-made pastry to ladies' fancy work, but they are also keenly interested in such feature events as the boys' and girls' canning contest that will be staged this year.

Through invitations sent direct to the contestants themselves and also through arrangements made with leaders in conservation work in the several states, Mr. Morton has made certain that the interest and rivalry between the state clubs for top prizes in this competition will be exceptionally spirited. The state agricultural colleges and their food experts have taken the lead in most cases in encouraging home canning as a patriotic and sensible duty, and it is through these agencies largely that the boys and girls of the whole territory have been enlisted so generally in the Interstate contest. Prizes will be given, and the championship itself will stand as an honor to be considered among the chief awards.

Teach Food Conservation.

Along the same line of education to national duty and to home economy that will benefit every family, the federal and state governments are cooperating in plans that involve the use of a whole building at the fair grounds for food conservation demonstrations. These demonstrations, open to all fair visitors, will be conducted by experts of wide reputation and every convenience will be offered for the conveying of any information desired to those who come. This movement has the unequivocal indorsement of national food conservation leaders. The demonstrations have been so arranged as to be first of all practical. The object is not to exhibit superior knowledge on the part of experts, but to get that knowledge home to the people of the Interstate territory in such a way that it will be of real use and value to them. That was insisted upon by the fair management and the stand was given the highest approval by the food administration

Air Flights Every Day.

Partly military in its nature will be the daily flying exhibitions at the fair grounds by Louis Gertson, knewn as the greatest of American loop-theloop flyers. These flights will begin on Sunday, September 16, the day before the actual opening of the fair, and will be continued, two flights each of a solution of soap, it being possi day, throughout the week of the ex- ble to burn the resulting comi. action

United States to build a great air fleet, for which \$640,000,000 already has been appropriated by congress. which is to dominate the skies over Europe's battle fields, exceptional interest will attach to Aviator Gertson's demonstrations of war time air man-

Representatives of the United States army and navy will be in charge of military and vala exhibits on the grounds during the fair and will explain the working of objects ranging from the Whitehead torpedo, with which battleships are sunk, to the ma-CANNING CONTEST BY STATES chine gun, that makes infantry charges so bloody.

In the mechanical departments, all that is new and modern in machinery for an agricultural region will be on pionship-Gertson to Fly Twice display, and the annual automobile show will be complete as never before. Space for both these feature attractions has been allotted on a more generous scale than last year, deal ers insisting that the prosperity of this section has been such that bigger sales than ever before are to be expected this fall. Particularly in view fine stock and fine crops, and in the of the nation's demand for greater and greater acreage cultivation and crop production, and in view of the certainty of high prices under the government's guarantee, farm machinery is going to hold a high place in popular interest, they predict.

In the section of free attractions, which will feature the race track enclosure on each day of the fair, Roda Royal's Military Elephants are only one of twelve big acts that are contracted for. There will be acrobats, equilibrists, daring divers and climbers and very funny posers. The performers will be Americans, Europeans and Asiatics, including Arabs and Japanese. Last year, when the biggest free series up to that time was presented, there were only ten acts, and these, owing to conditions in the vaudeville and circus fields, were not quite up to the caliber that is boasted by the 1917 aggregation. On the Midway, where the pay streak shows will be located, the full Wortham shows, which heretofore have never appeared complete in any except the very largest of American fairs, will be located. This outfit travels in thirty-two special cars. It claims unusual distinction in that it does not depend upon ghastly freaks to attract patronage, but instead places its claim for favor upon clean amusement and entertain

In the department of races, running events will be mixed liberally with arness horse contests, as this policy was proven last year to meet the approval of the thousands who packed the grandstands on big race days. Secretary Morton has so adjusted the programs that each day will offer a classy card, instead of leading up to one or two big days with several other days boasting only minor contests. The total of purses hung up for the week's events exceeds \$6,000. Nationally known starters and judges have been engaged, so speedy and unquestionable work will be assured in those departments.

Fundamentally, of course, the Interstate Live Stock Fair is an agricultural and stock exposition, and in the development of new attractions this fact has not been lost sight of. Barns and stalls weeks ago were 'taken" up to their full capacity by ppin ants ic. eamort space for quar ty live stock. The total array of blooded and grade animals is certain to exceed in most all respects the oest previous showing of this terri-The "million dollar stock parade" that each year follows the judging and the awarding of blue ribbons will go so far in excess of that popular agure in real value that the phrase has ceased to be accurate description.

Big Evening Attractions at Auditorium

Beginning Sunday, September 16, the Auditorium will offer three big attractions for fair week in Sioux City. Max Figman and the original New York company will present a new play called "Nothing But the Truth." on Sunday and Monday nights, Al Jolson and the Wintergarden company will ppear Tuesday and Wednesday nights in "Robinson Crusoe Jr.," and the balance of the week "In Old Kentucky" with the Pickininy Band and the race horses will give a performance each

Many Attractions.

Visitors to the Interstate Fair will find many attractions in Sloux City and many places of interest to visit. The Morgan Wallace Stock Co. at the Grand Theatre, vaudeville at the Orpheum, besides the Plaza, Royal, Princess and Strand picture theatres, will make the evenings pleasant. Trips may also be made to points of interest such as the boat clubs, Stone park, Grand View park, the two country clubs and to Morningside college.

Solidifying Petroleum.

A Frenchman has invented a process of solidifying petroleum for safety in transportation by the addition position. In view of the plan of the to remove the soap with alcohol.

WHAT TO SELL TO CHINAMAN

Celestials Will Not Buy Some Things Regarded as Necessities, Says Commercial Attache.

An American commercial attache in China reminds the manufacturer at home that the Asiatic demand for Western articles is still somewhat primitive.

For example, the Chinaman is a liberal purchaser of American barbwire. He likes the locks we make. Files from the United States sell well and one American firm holds a monopoly on scoop shovels. But the razors made here have no attraction, for the Chinaman is contented with the clumsy instrument the local blacksmith hammers out of a file. Trying to sell him doorknobs and electrical bells is to waste time and breath. Chinese agriculture gets along with the farm implements devised centuries ago and cannot even understand the mechanism of American farm machinery. Nails, bolts and nuts have a ready market, being simple, yet when it comes to knives, the product of high skill and workmanship, China is perfectly satisfied with the cheap stuff sent out from Europe.

The commercial invasion of the far East can be successful only if the character of the people of the East is given careful consideration, says the Toledo Blade. The American merchant does not try to sell section hands fountain pens. The American manuacturers will lose money who seek an outlet in China for articles that a simple people look upon as luxuries or

Excrutiatingly Suggestive.

In a mining district where a great many soldiers are now quartered they are very kind to the Tommies and get up all corts of entertainments, for their benefit. The other week-end the following notice was posted upon the door of the hall:

"On Saturday evening a potato ple supper will be given to the soldiers in the district. Subject for Sunday evening, 'A Night of Agony.' "
