

Catarrh of Stomach

Mrs. Mary Fennell, R. F. D., Pomon, Missouri, writes: "I wish to say a few words in the praise of Peruna. I have used it with good results for cramps in the stomach. Also found it the very thing for catarrh of the head. My sister was cured of catarrh of stomach by the use of Peruna." Mrs. E. T. Chomer, 69 East 42nd St., Chicago, Ill., says: "Manall best laxative on the market for liver and bowels, very good for indigestion and heart burn." Those who object to liquid medicines can secure Peruna Tablets.

Canada's Liberal Offer of Wheat Land to Settlers

is open to you—to every farmer or farmer's son who is anxious to establish for himself a happy home and prosperity. Canada's hearty invitation this year is more attractive than ever. Wheat is much higher but her fertile farm land just as cheap, and in the provinces of Manitoba, Saskatchewan and Alberta

160 Acre Homesteads are actually free to settlers and other land sold at from \$15 to \$20 per acre. The great demand for Canadian wheat will keep up the price. Where a farmer can get near 20 for wheat and raise 20 to 45 bushels to the acre he is bound to make money—that's what you can expect in Western Canada. Wonderful yields also of Oats, Barley and Flax. Mixed Farming in Western Canada is fully as profitable an industry as grain raising.

The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, churches, roads, conveniences, climate excellent. There is an unusual demand for farm labor to replace the many young men who have volunteered for the war. LOSS FROM STATE HOUSE

Real estate values over the state as shown by the assessment returns, indicate an increase of \$3,500,000 over those of 1916.

Nebraska boys comprising the third unit of the initial draft will leave Lincoln for Fort Riley during the period from October 3 to 8.

State Health Commissioner Tenney says that the Nebraska epidemic of infantile paralysis is dying out, the reports of new cases being less and less frequent.

According to a statement from the office of the secretary of state, Nebraska has over 142,000 automobiles, which makes a car for every eight persons in the state.

Governor Neville has accepted the colonelcy of the Seventh N. N. G. regiment, and is to resign his office as governor when the regiment is mustered into government service.

State Superintendent Clemmons suggests the grouping of all school holidays and vacations, and urges that school children who will thus be at leisure, put in the time helping to harvest the state's corn crop.

Secretary of State Pool is being bombarded with letters from corporations which failed to pay their annual occupation tax before it became delinquent and which now desire the penalty to be omitted. Mr. Pool will insist upon the payment of tax and penalty.

For the first time in two years the cash balance in Nebraska's state general fund has dropped below \$100,000. At the close of business Saturday, which marked the windup of September transactions on the books of State Treasurer Hall, the fund contained \$95,000. It fell off during the month from \$233,000, which was the balance on hand August 31.

State Land Commissioner Grant L. Shumway has gone to Halsey and may proceed to Valentine to arrange for the exchange of thirteen sections of state school lands in government forests and bird reservations for government situated elsewhere in Nebraska. The Nebraska legislature authorized such exchange as being better for the state and government.

Acting Governor Howard has issued a proclamation calling upon Nebraskans to observe Tuesday of each week during the war as "meatless" days and every Friday as "meatless" days. The acting governor issued the proclamation in conformity with the request of Gordon W. Wattles, food administrator of Nebraska, for conservation of foodstuffs in this state.

Red Cross will receive all the profits of the athletic year at the University of Nebraska after the necessary expenses are deducted from the receipts resulting from the sale of tickets. This was announced by the board of regents, in control of athletics this year. Along the same lines the concession for the sale of cigars, chewing gum and candy has been turned over to the Red Cross.

The reported impending consolidation of Nebraska troops with those from other states in several composite brigades is contrary to the wishes of the officers and men, and Governor Neville will do what he can to head it off if anything of the kind is contemplated. He believes that the Nebraska boys are entitled to fight under their own commanders, and he has gone to Washington to see what he can do.

Announcement has been made by the commanding officer of the Nebraska and South Dakota district that the limit has been taken off enlistments in the United States navy. Heretofore the quota has been sixteen apprentice seamen a week. Now the number allowed to enlist in one week is unlimited.

How long the arrangement will last is uncertain and recruiting officers advise those who wish to take advantage not to wait. All who have been on the waiting list in this district have been notified by the recruiting officer to enlist at once. This has been met with prompt response.

Special arrangements have been made by the recruiting offices to take care of all young men who have registered for the draft and have not been called.

Co-operation of Nebraska teachers and pupils in the patriotic duty of helping husk the increased acreage of corn in the state is requested in a letter which is being sent out by the state council of defense to county superintendents and principals of public schools.

For failure to comply with an order issued by the Nebraska banking board nearly a year ago, three Wahoo men who are officers and directors of a state bank at Cresco have been refused a charter for a new bank at Ashland, in the same county.

Arthur English, president of the American Potash Co., operating near Antioch, is the highest bidder for the section of Potash lake school land in Sheridan county, bids for which were opened by the state board of educational lands and funds Friday afternoon. The board's action marks a new step in school land development in this state and means the addition of hundreds of thousands of dollars to the school fund when future potash development in western Nebraska school lands follows the same steps.

MUST NOT BOTHER EDISON

Visitors Not Permitted to Intrude on Great Inventor When He is Busy at His Experiments.

Thomas A. Edison's favorite pursuit is chemistry. Even as a boy telegraphist getting his first start towards a career, this inclination was manifest in his experiments with batteries and electric devices, and it still remains his greatest pleasure, observes an exchange.

His new laboratory is splendidly equipped. Every known substance ranging through all the kingdoms of matter from lanthanum to shark's teeth and including over 200,000 specimens, is kept on hand for immediate availability. It is a collection of over 30 years' standing, encouraged from time to time by prizes for new additions offered by the inventor to his men.

His own laboratory table is never, in any circumstances, allowed to be touched. A notice posted on the doorway reads to the effect that Mr. Edison is not to be disturbed in the course of his experiments except for matter of the utmost importance. So fond is he of his beloved pastime that he declares his idea of heaven is to be able to continue it, and his injunctions to his staff are: "When I die I want my table forwarded to me by wireless."

Faith Was Weak.

During an extended drought in the land that inspires the rag-time song writers the "Rev-end" George Washington called a gathering of his colored brethren to supplicate the Lord for rain. Before he opened his sermon the "Rev-end" surveyed his congregation critically, and with increasing satisfaction. At last he lamented: "De lack ob faith of yo' niggers is scandalous and sinful, and makes my heart sore and weary, and afeard for your souls! Heah we hab gathered to beg de Lord to stop de drought dat is burning up our fields, and to bless us with rain in abundance. And not one—no, sah!—not one ob' yo' disgraceful sinners had faith enough to bring an umbrella to go home with!"

ANY CORN LIFTS OUT, DOESN'T HURT A BIT!

No foolishness! Lift your corns and calluses off with fingers—It's like magic!

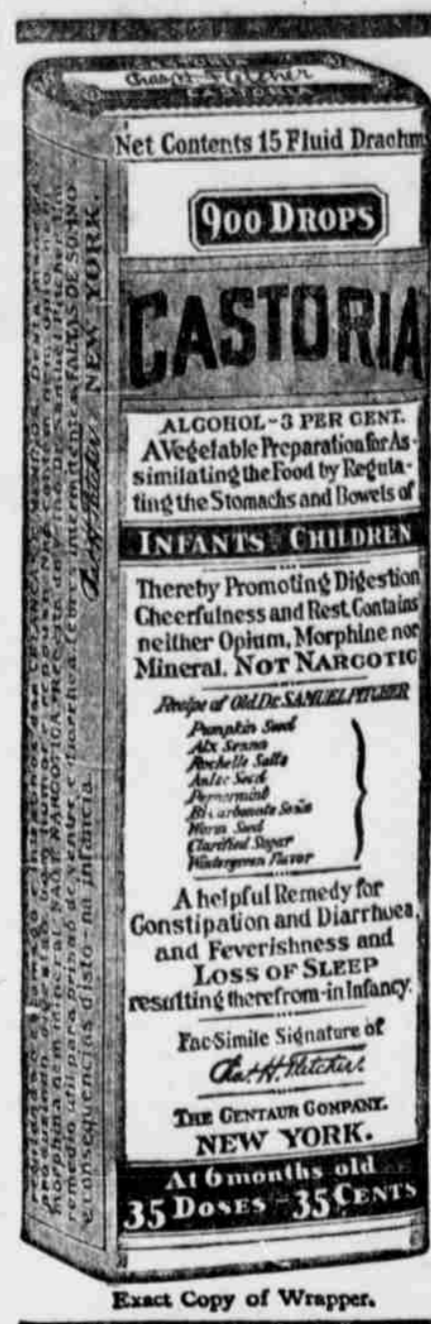

Sore corns, hard corns, soft corns or any kind of a corn, can harmlessly be lifted right out with the fingers if you apply upon the corn a few drops of freezone, says a Cincinnati authority. For little cost one can get a small bottle of freezone at any drug store, which will positively rid one's feet of every corn or callus without pain.

This simple drug dries the moment it is applied and does not even irritate the surrounding skin while applying it or afterwards.

This announcement will interest many of our readers. If your druggist hasn't any freezone tell him to surely get a small bottle for you from his wholesale drug house.—adv.

Help to Save Nation's Food Supply

In this time of high cost of living, everybody should use all possible means to prevent waste and to help save food. No one means can be more effective than a vigorous campaign to exterminate rats which destroy over two hundred million dollars worth of foodstuffs annually. Keep garbage in rat-proof cans, stop up their holes, and above all exterminate them with Stearns' Paste, which can be bought for a few cents at any store. A two ounce box will usually rid a house or barn of every rat. It destroys mice, cockroaches and waterbugs as well. Adv.

Needed His Muscles. The wounded Tommy writhed and squirmed as the masseuse, with iron fingertips, massaged his injured leg. At last he burst out: "Arf a mo. What d'yer think yer a-doing of? Ow!" "It's all right," said the masseuse. "I'm kneading your muscles." The Tommy gently but firmly pulled his leg away from the none too gentle grasp of his tormentor, and breathed: "So'm I."

Back Lame and Achy?

There's little peace when your kidneys are weak and while at first there may be nothing more serious than dull backache, sharp, stabbing pains, headaches, dizzy spells and kidney irregularities, you must act quickly to avoid the more serious trouble, dropsy, gravel, heart disease, Bright's disease. Use Doan's Kidney Pills, the remedy that is so warmly recommended everywhere by grateful users.

A South Dakota Case

William R. Smart, tailor, Belle Fourche, S. D., says: "I have a very complaint and rheumatic pains came on suddenly and caused an end of suffering. I think constant sitting at my work brought on the trouble. My kidneys were in bad shape and I kept getting worse until I had to give up work. I got so bad I was helpless. Doan's Kidney Pills acted like magic and since using them I have been free from all signs of kidney trouble."

Concrete Is Preferable.

Steel is going up, and concrete, as a result is coming into wider use. Railway bridges, for example, which used always to be of steel, are now often of concrete. A beautiful concrete railway bridge is being built across the James river at Richmond, Va., and it is much prettier than a steel bridge. For like reasons, concrete is replacing wood in mining structural works, where it has the great advantage of being waterproof.

BOYS MAKE BEST AIR PILOTS

More Likely to Possess Dashing and Intrepid Qualities That Make Ideal Aviators.

War aviation, with its exceptional dangers and its demands for supreme courage, is peculiarly a service for volunteers. But it has been demonstrated, says St. Nicholas Magazine, that the younger the war pilot the more likely is he to possess those dashing and intrepid qualities that make the ideal air fighter. Consequently, the government is opening wide the door of the aviation service for volunteers under twenty-one, the conscription age. The army is already giving officers' commissions to young men nineteen years of age, while the navy has reduced its limit to eighteen years. Only commissioned officers are permitted to operate American military airplanes, so all our fliers will get commissions.

Boys considerably younger than eighteen can be thinking now of becoming war pilots, with reasonable expectations of seeing actual service. As long as the war goes on, the aircraft program will keep growing, since only the declaration of peace will justify a lessening of our effort. First, let us see the qualifications of those suited to war aviation. The athletic type of boy is preferred. To have been a member of a team is usually a good indication of pluck and persistence. A sound physique, and good vision and hearing, are absolutely necessary. The ideal airman has a cool head; he is able to act quickly in emergencies. It is important, too, that the war pilot be an accurate observer and equally important that he possess the ability to form correct judgments.

Hello Profanity.

The rule is strict against using profane language when talking over the telephone. A telephone experiment has proved a failure in Lynn, Mass. The manager noticed that "wrong number" calls were frequent, and he ordered the "hello" girls to call each digit separately and to insert the word "dash" after each one. The method was slow, but the climax was reached when a Lynn man was in a hurry to get a Boston newspaper office. He called for "Beach 3000" and heard a sweet voice at "central" say: "Beach three, dash, oh, dash, oh, dash, oh, dash."

That nettled the Lynn man and he called out:

"Well, what are you cussing about?"

The order was abolished, and no more dashes are being said by the telephone girls at Lynn.—Buffalo Commercial.

Comparisons.

"Do you remember in your days of adventure the story you told me about the trouble you had in one voyage to dodge a man-eating shark?" "Yes, but that's nothing to the trouble I have to dodge my wife when she wants money for shopping."

Give the Wheat to the soldiers, but give me POST TOASTIES

(MADE OF CORN) — Bobby

A Letter From Washington

The Food Administrator Writes Us:

"The use of baking powder breads made of corn and other coarse flours instead of patent wheat flour is recommended by the Conservation Division of the Food Administration. The wheat needed for export is thus conserved, and at the same time healthful food for our own people is provided. The circulation of recipes providing for these uses would be of assistance in carrying out our plans."

The following recipes for Corn Bread and Rye Rolls save wheat flour and make attractive and wholesome food for every day when made with

ROYAL BAKING POWDER

CORN BREAD	RYE ROLLS
1 1/2 cups corn meal	3 cups rye flour
1 cup flour	1 teaspoon salt
1 level teaspoon Royal Baking Powder	1 level teaspoon Royal Baking Powder
1 tablespoon sugar	1/2 cup milk
1 teaspoon salt	1/2 cup milk
1 1/2 cups milk	1/2 cup milk
3 tablespoons shortening	1/2 cup milk

Mix thoroughly dry ingredients; add milk and melted shortening; beat well; pour into well greased pan and bake in hot oven about 25 minutes.
