DAKOTA CITY, NEBRASKA, THURSDAY, MAY 30, 1918.

VOL. 26 NO. 40.

Items of Interest Gleaned from Our Exchanges

Wakefield Republican: Mrs. G. Pranger was a Sioux City passenger Saturday.

Walthill Citizen: Miss Sylvia Lamson was a Lyons visitor Wednesday afternoon.

Dixon Journal: Rev. Father Collins was a week-end visitor at Jackson. Miss Marion Hall was a week-end guest of her brother's family at Jackson.

Lyons Mirror: Mrs. E. J. Hultberg, of Rosebud Agency, and children, visited the Swan Hultberg family this week. On Sunday, they, accompanied by Miss Lillie Hultberg, visited the Dr. DeBell family at West Point. Mrs. E. J. went to Dorchester, Neb., Monday to visit her father.

Sioux City Tribune, 24: Ray Clark, fishing at Crystal lake early today, caught the biggest fish for the local hook and line season, he believes. The fish was a mud cat and weighed 11 1/2 pounds. Clark and Dr. Ellis had a battle royal landing the fish. They also landed 15 other bull heads weighing about 1 1/2 pounds each.

Allen News: Mr. and Mrs. W. J. Pettit and daughter Beth spent Sunday at Albert Enders' home near Ponca. W. O. Money went to Dakota City Friday noon to see his brother, H. G. Money, who was taken quite seriously ill last week with tuberculosis. He died Saturday evening.

Sloan, Ia., Star: Mr. and Mrs. F. Bennett, of Homer, Neb., visited Sunday in the home of the latter's parents, Mr. and Mrs. S. J. Oliver. Mr. and Mrs. Geo. W. Thacker, Bert Thacker, Glen Thacker, Claude Thacker and Mr. and Mrs. John Thacker, of Homer, Neb., autoed over to this place last Sunday for a short visit with relatives and friends. They returned home in the evening.

Fonda, Ia., Times: Mrs. Lillian McLaughlin left Wednesday morning for Sioux City and Emerson, Neb., for a visit with friends. Mrs. S. W. Anderson and Mrs. T. P. Busby were hostesses to the Presbyterian Ladies' Guild at the home of Mrs. Burt Kroesen. After a short business meeting the afternoon was spent in the interest of the Red Cross. A luncheon was served at the close of the afternoon.

Sioux City Tribune, 25: Five boys, members of the graduating class of the South Sioux City high school, received their diplomas at the graduation exercises held last night at the Methodist church of South Sioux City. The boys were Thomas Monahan, Edward Metz, Otto Anderson,

Harold Pilgrim and Charles Glasser. J. F. Towers, an attorney gave the graduation address. Eighteen students who graduated from the eighth grade also were awarded their diplomas at the exercises.

Emerson Enterprise: Andrew Crow, of Hubbard, came up to visit at the Mrs. Winnie Crow home last Thursday. Genial Carl Schriever, so far recovered from his Alaskan experience of last December, was visiting among Emerson friends last week. One hand is yet a little raw worse for the severe freeze. The ball game last Sunday was rather disastrous to Emerson, the score standing 8 to 1 in favor of the visitors at the close of the game. Ungenerous zealots claim that a compact between the pitcher for the home team and the umpire with the lady friends of the Dakota City team was responsible for Emerson's low score, but this is unworthy of belief.

Waterbury Items in Allen News: Vernon Smith was in South Sioux City Friday at the bedside of his brother-in-law, H. G. Money. The sad news of the death of Prof. H. G. Money was received in Waterbury Saturday. His death came as a shock to his many friends, for although he had been in ill health for some time, he had been seriously ill for but a short week. Herbert G. Money was born at Beaman, Ia., May 25, 1881, and died at his farm home near South Sioux City, Neb., on May 17, 1918. With his parents he came to Nebraska in 1887, and has since made the Goldenrod state his home. For the past fifteen years he has devoted his time to the profession of teaching, of which time two years were spent as principal in the Oakdale school near Waterbury, and the past five years he has been the principal of the Waterbury schools. His success as an instructor has been marked, and that he was greatly respected and liked by his pupils was shown by the huge floral wreath sent by his Waterbury pupils to be used on his casket. His close application to his school work, while bringing him success in a business way, was the cause of his failing health, and he and his good wife decided it would be best to rent a farm so that he might be out of doors more of the time. For the past two months Prof. Money has been living alone on a small farm near South Sioux City, while his wife was completing his school work in the Waterbury schools. A week ago last Monday Mrs. Money was called to his bedside, as he had been suddenly taken ill with an abscess of the lungs, from which he never arose. In June, 1912, Prof. Money was married to Miss Louise Schroeder. Prof. Money is survived by his wife, daughter Mildred, father and mother, Mr. and Mrs. W. G. Money, of Dunbar, Neb., five brothers, O. W., of Allen; William, of Dixon; A. G., of Dunbar; E. L., of Omaha, and Sergeant Jas. L., of Camp Funston, Kans.; three sisters, Mary, of Dunbar; Mrs. Vernon Smith, of Waterbury, and Mrs. E. H. Cassau, of Oilton, Col. The remains were taken to Dunbar,

will win the war

He who wastes a crust of bread prolongs the war

don't waste it!

Neb., where the funeral services were held from the Presbyterian church on Tuesday morning. Rev. A. E. Perry, of Nebraska City, officiating. Interment was made in the Nebraska City cemetery. Prof. Money was a faithful member of the Methodist church, and belonged to the Modern Woodmen and Masonic lodges. Mrs. Money returned Wednesday to South Sioux City where she will hold a sale next Saturday in order to dispose of the farm tools and stock, after which she and her daughter will go to Lincoln and make their home with her mother and sisters.

Mrs. R. L. Cheney Tells of Bee Raising

The following special from Sioux Falls dated May 23, appeared in last Friday's Sioux City Journal, and refers to a former Dakota county girl, daughter of Dr. G. W. Wilkinson, a pioneer physician of this place, who with his children located in South Dakota about fifteen years ago.

Sioux Falls, S. D., May 23.—In connection with the campaign of education in honey raising, it was brought to light that Mrs. R. L. Cheney, of Milesville, this state, who resides forty miles from the town of Phillips, holds the record for having during the last year raised the most honey of anyone in the state. She harvested two tons of honey during the year, which amounts to 4,000 pounds. In a letter to Mrs. Gina Smith-Campbell, of Dell Rapids, she said:

"We live in Haakon county and have kept bees for eight years. We started with one colony and now have forty. We intended to produce honey just for our own use, but being favorably located the business grew. The honey is gathered from alfalfa and sweetclover. The clover is a weed all along the Cheyenne river and we have a world of it. We have more than 300 acres of alfalfa. We have pasturage for many times as many bees as we now have, and it seems a dreadful waste not to keep more, for it means so little work to care for them."

"In these days when economy should be a choice as well as a duty," wrote one bee raiser, "there is no better solution of the sweet problem than a few colonies of bees. It is really surprising and sometimes almost embarrassing to find how much honey is gathered in an average normal year by a single colony."

TEAM WORK.

It ain't guns, nor armament,
Nor funds that they can pay,
But the close co-operation
That makes them win the day.

It ain't the individuals,
Nor the army as a whole,
But the everlasting team work
Of every bloomin' soul.

RUDYARD KIPLING.

M. E. Church Notes.

F. J. AUCOCK, Pastor.
For the next three Sundays there will be no preaching service. The pastor has been granted the usual vacation and will spend the time on the farm. Owing to war conditions it is very difficult to secure pulp supply and it is thought better to close for the time rather than rely on inefficient help. Sunday school will be held each Sunday at 10 a. m. and it is hoped that as many as possible will make it their plan to attend. The Children's Day program will be given as usual, and the announcement of the time and date will appear in next week's issue of this paper.

Renowned Man May Visit This Section

L. T. Cooper, Noted Philanthropist, Gives Large Part of Income to Charity.

Not in recent years, perhaps, has the coming of any public character aroused such wide-spread interest as has the proposed visit to Omaha and other western cities of L. T. Cooper, the millionaire philanthropist.

Mr. Cooper is described as one of America's foremost leaders of advanced thought, and sprang into fame and fortune through his new health theories based on what is known as the Tanlac treatment. He never ceases to surprise you with the infinite variety of his knowledge, and its absolute correctness and thoroughness. In several of the larger cities, he has done a great deal of relief work among the poor.

Mr. Cooper is a firm believer in practical philanthropy and his relief work is familiar to charity workers over the country. His southern representative while in Houston, Texas, recently distributed, under the personal direction of leading charity workers, one thousand dresses of excellent quality to the poor women and children. In San Antonio the following week, he donated another thousand dresses to the poor of that city and a few days later four hundred of the garments were provided by him for the poor women and children of Galveston. Ladies prominent in social life and many prominent citizens of these places assisted and co-operated with Mr. Cooper's representatives in this worthy cause.

GIVES 50,000 LOAVES OF BREAD

Similar service was also performed by Mr. Cooper in Memphis, Birmingham, Atlanta, Little Rock, Shreveport, Vicksburg, Jackson, Nashville, Knoxville, Chattanooga, Macon, Savannah, Montgomery, Mobile and Augusta, and his establishment of the famous free bread line at Louisville, where he distributed fifty thousand loaves of bread absolutely free and without question to those in want, proved a revelation to charity workers there. In fact, in practically every city Mr. Cooper has visited he has always shown his great sympathy for the poor and unfortunate by performing some unique act of charity.

Mr. Cooper contends that nine-tenths of the diseases and ill health of the present day American is due to faulty digestion and improper assimilation of the food, which finally produces a stuffed up condition of the vital organs. It has been said that Tanlac, his celebrated medicine which is now accomplishing such remarkable results throughout the country, not only quickly overcomes all catarrhal inflammations of the mucous membranes, but acts directly in the correction of stomach, liver, kidney and intestinal disorders.

Tanlac as has been so convincingly proven by the thousands upon thousands who endorse it, is also a reconstructive tonic of great power, and has been known to entirely relieve the most obstinate cases of rheumatism and blood disorders in a very short time.

TANLAC SALES PHENOMENAL.

It is, indeed doubtful if anything ever placed on the market in the way of a medicine has sprung into such popular favor in so short a time. People everywhere have been quick to recognize its wonderful merit. The demand for it has been nothing short of phenomenal.

In Dallas, Texas, over 120,000 bottles were sold in twelve months, which according to druggists of that city, has established a new record, and is unprecedented in the history

of the drug business. In Denver over 65,000 bottles were sold in six months, in Ft. Worth, Texas, 122,204 bottles were sold in twelve months, in Atlanta, Ga., over 166,000 bottles were sold in twelve months time, in Knoxville, Tenn., Kuhlman-Chambliss Co., sold and distributed 48,326 bottles in nine months, in Louisville, Ky., the Taylor-Isaacs Co., who operate eight retail stores in that city, sold 32,000 bottles in less than 90 days. In fact everywhere Tanlac has been introduced its sales has likewise been phenomenal and the demand for it is continually increasing. A total of more than two and a half million bottles of the medicine has been sold through the Atlanta office alone during the past eighteen months, and it is without doubt the most widely talked of medicine in the world today.

When asked to explain this record breaking demand, Mr. G. F. Willis, international distributor of Tanlac, said: "There can be only one possible explanation, and it can be told in one word—'merit.' That tells the whole story. No preparation, no matter how extensively advertised, can possibly meet with such phenomenal success unless it possesses extraordinary curative power."

Thousands upon thousands are testifying daily that they have been relieved of disease after years of suffering by its use.

Tanlac is sold in Dakota City by Neiswanger Pharmacy.—Adv

Preserve and beautify your home with Mound City Paint and Varnish. For sale at Neiswanger Pharmacy.

"LET US HAVE PEACE."

A monster is slowly raising its head throughout this country which, unless beaten down immediately, will become the most dangerous enemy that the cause of civilization has yet been called upon to face. This evil that threatens is to be found in the desire for peace at whatever cost. It is the old "peace at any price" canker raised to the Nth power.

It is easy to dispose of this, as yet furtive but steadily increasing, desire for peace by pinning to it the label of German propaganda. But this will not suffice.

That the world is war weary is only too true. France and England have had this blood sickness on the part of their people to contend with for a long time. Its effect on Russia has been demonstrated.

We, in America, have but commenced our share of suffering and sacrifice. If this revulsion of feeling is allowed to spread before the road is half traveled there can be no doubt as to our destination. Open hostility to England, frank sympathy with Germany, "conscientious" or other objections to war, are as nothing in their effect upon our part in the struggle and the destiny of the world—which now admittedly rests upon our shoulders—compared to this desire for the war's ending simply that peace may reign. Peace today, with Germany undefeated, would be a living menace to America as a nation and to every man, woman and child who wish to continue to be known as Americans.
