By MRS. JAMES LEES LAIDLAW, Vice Chairman New York State Woman Suffrage Party.

The New York State Woman Suffrage party, since it finished its great task of carrying New York state for

woman suffrage, November 6, 1917, has devoted itself exclusively to war work and various forms of civic and patriotic service. We have recently sent the first woman's hospital unit abroad from the United States. This unit is the "War Baby" of the National Woman

Suffrage Associa-Mrs. J. L. Laidlaw, tion, with which

we are affiliated. We have just held a great naval and military meet at Madison Square Garden, where a large sum was raised for this remarkable unit, which has sailed to do such valuable work in France, Every person in it, even to the plumbers and mechanics, are women, and they volunteered for dangerous service.

Other branches of our war service have been an intensive food conservation campaign and the War-Savings Stamps campaign. In all this active patriotic work we feel inspired with the thought of our own chairman, Mrs. Norman deR, Whitehouse, abroad on an important government mission and many others of the rank and file of our women who are engaged in devoted service "over there."

Citizenship Schools, Another interesting branch of our work is the great university extension of citizenship. Schools are being held throughout the state under our Educa-Honal Committee.

Another line of work is that of our Intelligence Committee, which lists officials of all political parties and all men in every township and county in the state who have run or are to run for office. It is believed this commitice will become extremely intelligent us time goes on, sud its intelligence will react on the civic welfare of the state most tellingly.

Our Americanization Committee has sued some very effective and educaonal literature and is organizing in every center and community where there are foreign groups.

Maintaining Morale,

We realize that a great part of a nalon's war time efficieicy is in keeping life normal and efficient at home. In the last analysis that nation which keeps most nearly steady and normal in its industrial and domestic life will maintain that morale which will win he war for it.

The work of the Rural Problems Committee perhaps is of particular interest in this publication which is being sent out by the National Security Very few people in the con try have stopped to realize how in our body politic the rural committees are discriminated against in the matter of socializing forces. Our great cities have their amusements, their municipal halls and baths, their community kitchens, their public libraries and lecture courses and innumerable settlements and clubs where people are drawn together and stimulated mentally and spiritually. We feel that some of these advantages should be brought to the country districts.

Any rural woman who wants to be out in touch with our legislative bulletin, with our correspondence courses in civic education or any information in reference to the work of the Woman Suffrage party should write to that organization at 303 Fifth avenue, New York city.

### SECRET OF FRENCH CULTURE

Vibrating Balance Between Head and Heart at Top Speed, Is Deduction of Magazine Writer,

Intensely alive, is the chief impression one has of the French, writes John Galsworthy in the Atlantic, They balance between head and heart at top speed in a sort of electric and eternal see-saw. It is this perpetual quick change which gives them, it seems to me, their special grip on actuality; they never fly into the cloud regions of theories and dreams; their heads have not time before their hearts have intervened, their hearts not time before their heads cry, "Hold!" They apprehend both worlds, but with such rapid alternation that they surrender to

The secret of French culture lies in this vibrating balance; from quick marriage of mind, and heart, reason and sense, in the French nature, all the clear created forms of French life arise, forms recognized as forms with definite utility attached. Controlled expression is the result of action and reaction. Controlled expression is the essence of culture, because it alone makes a sufficiently clear appeal in a world which is itself the result of the incalculable interplay of complemen-

tary or dual laws and forces. French culture is near to the real heart of things, because it has a sort of quick sanity that never loses its way; or, when it does, very rapidly re-covers the middle of the road,
