FARM PROFITS.

Do favorable or unfavorable climatic conditions determine them? Yes, but more often the proper application or misapplication of generally recognized farming principles evolved by successful farmers and breeders and the government expert meat stations. Farmer and Breeder is a compendium of the best ideas and successful methods employed by successful farmers and breeders. It is issued semi-monthly at Sioux City, Ia., and deals with farming conditions as they are here found. Its subject matter is strong and appeals both to the farmer and stockman. You want to farm profitably - every important farmer idea, Farmer and Breeder will help you to do this and more, too.

Splendid Offer.

Special arrangements have been made which enable us to offer Farmer and Breeder for only \$1.25. Save money by letting us have your subscription now. Don't let our remarkable offer pass without taking advantage of it. Every subscriber to Farmer and Breeder is entitled to a copy of the book with its special service department on any branch of farming and stock raising.

Elsie Krumwiede, Doris and Dorothy Barnett and Helen Walden are enjoying a vacation at Norfolk with friends this week.

If this copy of the Herald coming to you this week feels damp, it is because there is so much "dew" on it. Send us the \$1.25 for another year.

Frank Powell has been laid up for several days with a lame hand, having been "hooked" with a pike pole while handling ice at the Consumers plant at Crystal Lake.

Roy Rymill came in from Lusk, Wyo., last week and on Friday was operated on at a Sioux City hospital and several quarts of fluid were drained from his chest.

Mildred Frederick, who recently had the misfortune to break her arm by being thrown from a horse, was removed to St. Joseph's hospital this week for examination and treatment.

Word received from the Derry family states that they are having a most enjoyable and satisfactory time in Murdo, S. D., where they are visiting with the W. E. Morrison family. They expect to leave for home some time this week. Henry Krumwiede, jr., is driving them in his auto.

Professor Fred Schriever, jr., arrived home for a vacation Saturday from Lincoln where he had been in attendance at a summer session at the university. He reports having met several of the Dakota county boys who are in camp at Lincoln and says they are all well and happy.

Editor B. A. McCormick of the Wynot Tribune has entered the race for representative from the Fifteenth district (Cedar county).

Mr. McCormick is a sure-enough democrat and deserves some recognition from his party. But things are going republican this year Mac.

Letters received by Emil Annes from his brothers, Edward R. Annes and Harold F. Annes, who until recently were privates in the Coast Artillery at Fort Winfield Scott, Calif., stated that both of them had received promotion and now held the rank of corporal. The letter also stated that Edward had transferred from the 9th Co. at Fort Winfield Scott to the 48th Co. Presidio, Calif., and that Harold had transferred to the 49th Co., North Cantonment, Presidio, San Francisco, Cal.

The Herald is glad to learn that the voters of Sioux City turned down the proposed purchase of Riverside Park as it is of the opinion that such a deal was not desirable nor does it think that its neighbor requires such a large tract of ground for a pleasure resort when the size and growing popularity of Stone Park, with its natural beauty and attractiveness, are taken into consideration. It seems to us that an extension of the Service Company's track from George street along the highway to the river, and also to Stone Park, making them more accessible to the public would be a more suitable project. We, however, do not advocate the abandonment of the State Fair.

Notice of the incorporation of the "Jackson State Bank" appears in this issue of the Herald. The bank opens for business today, August 1st, with a capital stock of \$25,000, and the best kind of backing. Thos. J. Hartnett is president of the new institution, John Ryan is vice president, and Chas. J. Goodfellow cashier. This new bank starts with a very promising future before it, and will assist materially in handling the big volume of business in that section of Dakota county.

Some of the readers of the Herald wish to call attention to the fact that in accordance with instructions issued by Dakota City authorities they have cut the weeds and grass around their premises, but that their neighbors on the other side of the street have failed to do so. The consequences are that when the main road becomes muddy those in charge of autos and wagons drive over the "velvety lawns" and spoil them. According to the notice if the weeds were not cut the city was going to do it and charge it up to the owner. Why doesn't the city do it, they ask?

E. C. Blundell, of Omaha, superintendent of the Nebraska division of the Chicago, St. Paul, Minneapolis and Omaha railroad, and E. A. Gray, also of Omaha, general agent for the railway, were in Dakota City Saturday to make preliminary arrangements for the stopping of trains at this place and South Sioux City. Stopping of several trains at Dakota City and South Sioux City ceased in December, 1916, and a complaint was made to the Nebraska state railroad commission by the people of both towns. The decision which was handed down in August of last year, provided for the continuation of stops at both places and the case was taken to the supreme court. An attempt is now being made by the railroad company to settle the question.

Mrs. Chas. Peden Gains 27 Pounds

Was Twice Examined and Each Time Told Operation Would Be Her Only Hope.

"I have just finished my third bottle of Tanlac and have gained 27 pounds," was the truly remarkable statement made by Mrs. Chas. Peden, residing at 556 Mill street, Huntsville, Alabama. Mrs. Peden is one of the best known and most highly respected women of that thriving little city where she has made her home for a number of years.

"When I commenced taking the medicine," she continued, "I only weighed ninety-eight (98) pounds; now I weigh one hundred twenty-five pounds and never felt better in my life. For years I have suffered with a bad form of stomach trouble, constipation and pains in my side and back. At times the pains took the form of torture and I was twice examined and each time told that an operation would be my only hope. I had fallen off until I only weighed ninety-eight pounds and was so weak I could hardly get around."

"I had no appetite scarcely at all, and what little I did eat would cause gas to form in my stomach which gave me palpitation of the heart, sick headaches and a dizzy feeling about the head. When these spells came on me, I would get awfully nervous. I worried about myself until I could rest and sleep but little."

"I had fallen off until I was almost 'skin and bones' and my strength and energy were slowly leaving me. I had a dread of the future and could see nothing but the operating table and the knife. I had a perfect horror of an operation, but had made up my mind that it was either life or death and prepared to submit to it. I had made all preparations for the operation and called on my sister to tell her goodbye, as I did not know whether I would live to see her again or not. My sister begged and pleaded with me not to allow them to cut on me and told me to wait and try a good tonic for a while. The next day as I returned from the consultation room I thought of what she said, and as I had heard so much about Tanlac, I decided to try it as a last resort, and stopped at the drug store and got a bottle. Of course I had lost heart and had no faith in medicine, but to please my sister, I made up my mind to take it, and oh, what a happy day that was for me!"

"I never returned for the operation, but just kept taking Tanlac, and my improvement has been so rapid that none of my clothes fit me. Right from the start I began to improve. The medicine seemed to take hold right at once. It had a soothing effect, and in a few days I felt no pain at all. I was so happy over my wonderful improvement that I sent for my neighbors to tell them how much better I felt. I sent and got another bottle of Tanlac and have just finished my third and feel like I have been made all over again into a new woman."

"As I have said before, I now weigh one hundred twenty-five lbs., and none of my clothes are big enough for me, and I will have to make them over again. I now have a ravenous appetite and my husband says I am simply eating him out of house and home. I have even gone back to my coffee which I was told not to touch. Those horrible pains in my back and head have all disappeared and I sleep like a child. I am no longer nervous, and when I get up in the mornings I feel refreshed, cheerful and bright. I am now able to attend to my housework again and I feel as if I had started life all over. My husband is highly delighted and my recovery is the talk of the neighborhood. I do nothing but rejoice all day long over the recovery of my health and praise Tanlac to everybody."

"I feel so grateful for my escape from the operating table and the knife that you may publish what I have said; you may if you wish, tell other women suffering as I was, to come and see me and I will be glad to tell them about my case."

Tanlac is sold in Dakota City by Neiswanger Pharmacy—Adv.

HOME DEMONSTRATION NOTES

Miss M. Hall, Home Agent.

The sugar shortage and sugar substitutes seem to be raising a host of us as much or more worry than the wheat shortage, limiting ourselves to two pounds a month isn't so bad, though. We need only enough sugar to make our meals palatable. About 3 level tablespoons of sugar or its equivalent in substitutes, this including what is used in cooking, will do this.

In cooking use the dried fruits, such as dates, raisins and figs in cereals or desserts when possible. They contain sugars, and syrups, and honey may be used. If a recipe calls for 1 cup of sugar use in its place 1 cup of honey or one and two-thirds cups of corn syrup. If honey or syrup is used the amount of liquid called for in the recipe must be reduced 1/2 cup for each cup of honey or syrup used.

In using sugar or its substitute or on beverages use 1/2 teaspoon amount and mix it completely with the food, eating all of it.

The slogan now is "Maximum Canning with minimum Sugar." In so many cases we have put our fruit down with sugar, which is often times losing the fruit.

The year a medium thin syrup is best, and one that can be used in many ways. One can use, for example, 1/2 cup of sugar with 1 cup of honey or 1 cup of syrup and 6 cups of water. Place either mixture over a slow fire and simmer gently for 10 minutes. This syrup may be poured over the fruit in jars and cooked according to the cold pack rules or the fruit may be dipped in the syrup, cooked and drained.
