Official Paper of Dakota County.

This paper has enlisted with the government in the cause of America for the period of the war.

Political Announcement. I hereby announce myself a candidate for the office of State Representative from the Thirteenth District at the general election in November.

WALTER SANDQUIST, Waitstill, Nebr.

Dan Stephens, in his political advertising, urges the country to stand by the president, by supporting politics and electing only democrats to office, and suggests that the country stand with Lincoln during the Civil War.

If our soldiers and their fathers and friends think the government is paying the soldiers too much money for their services, they ought to vote for Congressman Stephens.

Last June, in his effort to discourage any opposition to his re-election, Dan V. Stephens intimated that if any member of the republican party filed against him, the person so filing could be said to be outside of patriotism.

IS \$30 TOO MUCH? Dan V. Stephens is advertising himself as a congressman with a 100 per cent record, and insists that on this record he is entitled to the votes of everyone. Mr. Stephens voted against the Good amendment, which increased the soldiers' pay from \$15 to \$30 per month. This vote was taken on May 16, 1917, and is reported on page 2527 of the Congressional Record of that date. It is \$30 per month too much to pay our soldier boys? Evidently Mr. Stephens thinks that it is.

Spanish Influenza Rapidly Spreading

PERSONS WEAK AND RUN-DOWN EASY VICTIMS FOR THE DISEASE BY TAKING TANLAC.

According to late reports issued by State and Federal health authorities the Spanish Influenza epidemic is rapidly spreading to all parts of the country, and it now seems that practically every state in the Union will be seriously affected before it runs its course.

It has not only become a great and terrifying menace to the public health, but unless checked, it is apt to seriously affect the progress of war work in all its various departments. Already the Shipping Board has announced that ten per cent of its workers had been affected.

The disease has made its greatest progress in the East where it has claimed its victims by the thousands. Reports from other sections, however, are equally alarming; and both civil and military authorities have warned the public to take every precaution to prevent its further spread.

In many cities schools, churches and theatres have been closed and public gatherings of all kinds forbidden. Medical authorities agree that people who are weak and run-down are the earliest victims of the Influenza epidemic. If you find yourself tired, weak and losing flesh, or if you are in a generally run-down condition, or if you catch cold easily this warning should be heeded promptly.

You are really in great danger, because the germ of this disease is very catching and you are apt to fall an easy victim if you come in contact with the germs. People who are well and strong are not likely to contract the disease because they are able to throw it off. The common-sense way to keep from taking it is to fortify the system against attack by building up the constitution.

In other words to use the old adage, "An ounce of prevention is worth a pound of cure." And if you are in a sub-normal condition the proper thing to do is to begin immediately to build up your powers of resistance. To accomplish this, nothing on earth will strengthen you and build you up like Tanlac, the powerful reconstructive tonic, which contains the very elements needed by the system to give you fighting strength and ward off the influenza germ.

First of all Tanlac begins its action by creating a good healthy appetite for wholesome, nourishing food, and assists every organ of the body to perform its natural functions, thus helping to build up health and sthenmth in the natural way. Tanlac is also the ideal strengthening tonic for persons who are suffering from the after effects of Influenza, Grippe or Bronchial troubles and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanlac treatment, it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included with every bottle of Tanlac. It is also important that the every day rules of hygiene be observed; that is, sleep in well ventilated rooms, get plenty of fresh air and exercise and keep away from crowds.

Tanlac is sold in Dakota City by Neiwanger Pharmacy. Adv. Card of Thanks. We wish to thank our friends for their kindness and sympathy, also for the beautiful floral offerings, during our recent great sorrow. James Heaney and Son.

TO THE VOTERS OF NEBRASKA

Judge Charles B. Letton, formerly District Judge at Fairbury, one of the Judges of the Supreme Court, is a candidate for re-election. The Judge has made a record as an able, independent, honest and industrious member of the Court. His ability is recognized by the District Judges of the state, by lawyers generally, and by men of all stations in life who know him personally. This is too important an office to be considered lightly by the voter. Every voter should think twice before casting his ballot. "Hold fast to that which is good."
