**Catarrrhal Deafness Cannot Be Cured**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a ringing, buzzing or roaring in the ears, and when it is entirely perfect hearing is the result. Unless the inflammation can be removed, and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. **F. J. CHENEY & CO., Toledo, O.**

American Red Cross Aids With Supplies and Comforts in the Equipment of Valiant Army.

It is particularly interesting to Americans to know the tremendous work which the American Red Cross has done toward relieving distress in Belgium. Among the many things done for King Albert's gallant little army by the Red Cross the following are a few:

It established a dining room and reading and writing room at the warehouses in Le Havre.

It gave a plate and a bowl to 6,000 munition workers in — to use at their meals.

It fitted up recreation rooms for workers at munition plants.

It installed a co-operative restaurant for the military personnel of the Maritime Agency at Le Havre.

It installed shower baths and a barber shop for the army garrisons in Le Havre.

In army training centers the Red Cross gave household comforts, phonographs, games, etc.

It established a dormitory for 200 men at the Home for Permissionaires at Calais.

It established a canteen and library at Calais.

It established another canteen for the personnel of sanitary trains.

It gave material and games for a canteen for the personnel of the naval base at —

It gave the same for a canteen for the personnel of Belgian seaplane units.

It equipped a mess for the personnel of the unit at Calais.

It gave tents, canteens, reading rooms and shower baths for the personnel of the Bourbough bakery.

It organized dining rooms for searchlight companies and artillery batteries having fixed cantonments, and installed shower baths in them.

It distributed 60,000 enameled plates and cups for soldiers in the trenches.

It gave prizes for organized athletic tournaments.

It sent presents to each man decorated for bravery. These presents are usually razors, pipes, fountain pens and such. Up to now this work has only applied to the infantry.

The Red Cross provided the apparatus and films for cinema shows. Eight thousand soldiers see them every day.

It supplied books for all soldiers.

It installed a recreation and writing room at the large canteen at La Panne.

It presented to every infantry and cavalry regimental surgeon a medical traveling case, holding a set of medical instruments for field service.

This work required an appropriation of approximately 1,250,000 francs.

Straight from the front is this comment of a Belgian colonel. It was made recently while he was sitting in his dugout, talking of the work of a canteen for which the American Red Cross had just provided quarters on very short notice.

"One live demonstration like this is better than a year of talk."

American Red Cross has erected a barracks at Dijon, France, to serve as a day nursery for the children of the French women who work in the United States Army camouflage factory.
