CLAIMS CENTURY-OLD FUNC

Chilean Government Asks Return of Unexpended Portion of indemnity Paid in 1821.

The full bench of the Massachusetts supreme court has been called upor to determine the ownership of a func nearly a century old, which is claimed by the commonwealth of Massachu setts on one hand and the Chilcan gov ernment on the other.

In 1821 an American ship returning from China to Boston was seized by Chilean revolutionists and its carge confiscated, When normal conditions prevailed in Chile the United States demanded Indemnity and Chile pair \$70,400.

William H. Gardiner of Brookline Mass., was selected to distribute the money among those entitled, to it. He executed the trust except as to two Chinese-known only as Paqua any Moqua, merchants-and Thomas Fur ber of Boston. Mr. Gardiner falled te ed alder of the second while it was locate these persons or their represen tatives. When he died the trust was transmitted to his son, and upon the latter's death to the grandson and great-grandson, Robert H. Gardinss and Robert H. Gardiner, Jr., who are now its custodians.

The present holders of the, fund while the ship was being paulo

have searched through the records o the state department, through the American consular service at Canton China, and through various other sources, for the heirs of Paqua, Moqui and Thomas Furber, without success

"Cleans" Crowd of Cash.

Vacuum gleaning money from stree crowds was the striking scheme em ployed in one of the large cities some weeks ago for the benefit of the Red. Cross, says Popular Science Magazine

A suction pipe was held over the heads of persons congregated on the sidewalk, and contributions solicited by a leather-lunged seaman who shout ed through a megaphone. Crisp dos lar bills and worn greenbacks, it man tered not which, were drawn in by strong suction force when inserted iz the nozzle of the tube.

The novelty of the plan attracted passers by and drew forth many dona tions.

Bandages Now Made Quickly.

A recent invention which has no been marketed as yet, but is reported to be a great success, is an electric roller for use in making the much needed five-yard rolls of bandages This new device is not only a great time and labor saver, but requires little practice to learn to operate. The rollers operated by hand, as they have been heretofore, require skill and training to operate them successfully and the work is streauous. By rolling electrically the operator is able to keep both hands on the bandage while in hand operation one hand guides the roll or bandage and the other operates the roller.

Swamp a War Garden.

Too old to be taken into the service George Hoy, a Japanese resident of Juneau, Alaska, has turned a mon quito swamp into a patriotic garder that has become the admiration of the city.

Radishes in this unique garden send their green tops upward to form the word "Liberty," and near by is formet a bell.

To one side a cross blooms in ref sweet peas, while tiny walks, wright fences and rocks with flowers wander ing over them add to the attraction of the place.

Cost of Infectious Diseases. Scarlet fever, measles and diphthe ria cost the people of Chicago \$7,562. 442 during the course of the year. Tak huge bill represents so much paid on huge bill represents so much paid on grines always tooka port and pen tally that the fourte to the to the tall, the ALL ABOUT in the sound of the tall of tall of the tall of tall of the tall of tall disense might have been prevented by furced to land on any old field that precautions, moralizes the Journal of the American Medical Association urging the dollars and cents value o . ently," disease prevention.

Hed the dry dock where the ship wen after Diver Wields exploits, and wer astantshed that it had been possible. salvage the versel at all. The diver work is viewed all along the coust m an inspiration to labor in its great tas of winning the way.

New Light on Term "O. K."

President Wilson has his own way of doing things, and he also has very good reason for doing them bit own way. Not only does that apply to matters of world-wide importance but to trivial things as well.

In signing unofficial documents-of official documents he formally writes "Approved"- the president of the Unit ed States precedes his signifiare with the word "Ohenn"

One of his secretaries, suddenly realizing the significance of the world nexted the president why he did not write "O. K."

"Bacause that's wrong," and Wil son.

"Wrong?" ochoed the secretary "Isn't it doubed from Andrew Jack son's 'Orl Erecht?"

"No," suid WD = n. " O, R.' is ofter erroneously used for 'Ohoh? which it the Chorinw Inhumage thenny, 'It is 80.""
