

## Do You Want to Know Both Sides?

Swift & Company's 1919 Year Book, just out, tells you

- What Swift & Company's profits were in 1918,
- The truth about the Federal Trade Commission's investigation,
- Why the prices of butter and eggs are so high,
- And many other vital facts.

Whether or not you agree with us after reading this Year Book, you will at least know both sides.

You will find it interesting; Americans like to hear about big things done in a big way.

You will also discover that we are merciful human beings like yourself, doing in the best possible way a necessary service.

Legislation is pending in Washington; as a good American citizen you want to know both sides of this question. It concerns you, as well as one of the most important industries in the country.

Do not hesitate to send for a copy of this booklet. Your name and address are all we need.
