## Home Town Helps

### HOME SHOULD COME FIRST

Proper Habitations Most Important Things in the Development of a Nation Worth While.

Better homes make better people and, therefore, a better nation. Education which will bring about a general appreciation of absolute justice is the need of the world.

Centuries ago all the laws necessary for the good of mankind were summed up in ten brief clearly stated laws. Ever since that time the politicians of the world have been trying, without success, to make better laws. Laws there are without number, but not one is an improvement, not one is necessary if the original ten were generally observed.

The second is "Love thy neighbor as thyself." And in referring to the first: "On these two commandments the whole law hangeth."

Get out the Bible and read the first two and then the other eight.

Rural adornment through gardening is one way to make better homes. Give the family an attractive abiding place—outside and in. Not wealth alone can make a home. There are many attractive and beautiful homes where money is scarce. The memory of a beautiful home is a power for good as long as one of the family remains, or any who know them.

Growing things have a tendency to elevate one's thoughts and aspirations. They cause us to think of better living and show that really beautiful things may be ours for a little effort.

### DON'T NEGLECT THE GARDEN

Country Will Be Benefited If Each Lot Is Made a Permanent Food Producer.

If you started a home garden last season how about making it a permanent food producer?

A bed of asparagus is known to have given continuous service for more than thirty years, and asparagus is one of the first of the spring vegetables. A row of blackberries along a garden fence has produced abundant crops for twelve successive years. A few hills of rhubarb have provided delicious sauce and helped with the making of pie season after season, with very little cost or attention. Strawberries require more care, but they furnish the first ripe fruit in the springtime, and a very small plot of ground in one corner of the garden will supply the family.

Put into a home garden a little money, knowledge gained from competent advice and your spare time. Draw from it an insight into the workings of nature, healthful exercise and a reduction in your food bills. A home garden is a good thing to keep going year after year.

### Own a Home.

The Chicago real estate board has decided to launch an effort to encourage home ownership throughout the city, that Chicago may regain its title of "The City of Homes."

The department of labor at Washington is engaged in a national campaign to encourage the construction of homes for the purpose of avoiding any disarrangement of our business fabric, because of the discontinuance of war work, and to provide employment for our boys returning from the army.

The idea has been tried with astounding success in many cities. The advantage to the city as a whole, from the standpoint of better citizenship alone, is so great as to more than justify all the efforts that may be expended.

### Urges More War Gardens.

Increased efforts of horticultural societies to co-operate with war gardeners and thus continue the fruitful backyard gardening which attained such prominence during the war emergency was advocated by Leonard Barron of Garden City, N. Y., authority on garden topics, in a lecture before the Massachusetts Horticultural society. "Gardening," he said, "is a national asset because it gives outdoor occupation, production, education and profit, all at the same time." He believes that the gardening movement will continue.

### His Sweet Disposition.

"So you lost your case in court, Mr. Gloom?" said an acquaintance.

"Yes," replied J. Fuller Gloom. "And still I am not soured by it; I do not think all lawyers are dishonest. Lincoln was a lawyer, and he was honest. Rufus Choate was honest. Probably some of the signers of the Declaration of Independence were lawyers and honest. And I know the names of several other lawyers, also dead, who are honest."—Kansas City Star.

### Buy Good Trees.

It does not pay to purchase poor trees of any kind. Real economy consists in paying reasonable prices for high grade trees. A few good trees are better than more purchased at the expense of quality.

### Two Good Ideas.

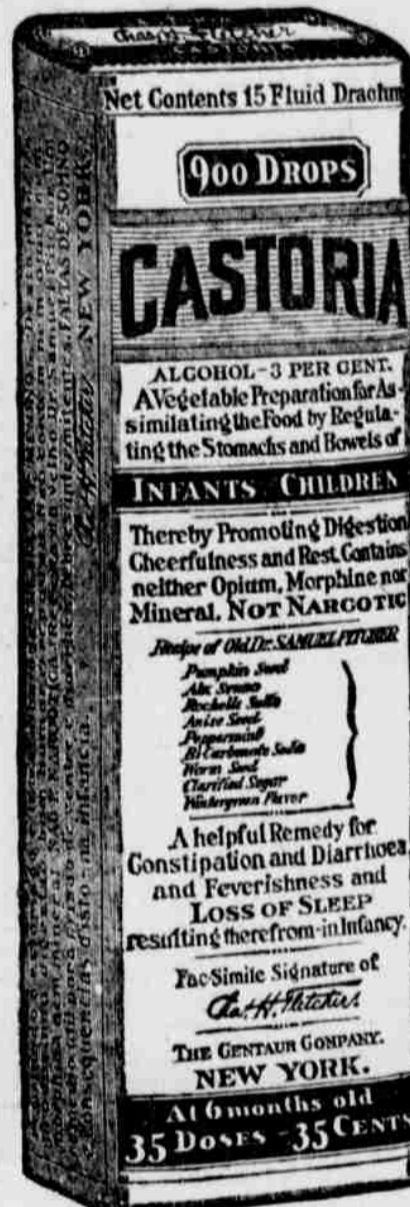

A splendid plan is for planting memorial trees by church congregations and for planting trees along motor highways.

## Physicians Recommend Castoria

YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you: the doctors with souls and hearts: those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Fletcher's Castoria is nothing new. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

## Children Cry For Fletcher's

# CASTORIA

### Do the People Know?

Do you know why you are asked to call for Fletcher's Castoria when you want a child's remedy: why you must insist on Fletcher's?

For years we have been explaining how the popularity of Fletcher's Castoria has brought out innumerable imitations, substitutes and counterfeits.

To protect the babies: to shield the homes and in defense of generations to come we appeal to the better judgment of parents to insist on having Fletcher's Castoria when in need of a child's medicine. And remember above all things that a child's medicine is made for children—a medicine prepared for grown-ups is not interchangeable. A baby's food for a baby. And a baby's medicine is just as essential for the baby.

The Castoria Recipe (it's on every wrapper) has been prepared by the same hands in the same manner for so many years that the signature of Chas. H. Fletcher and perfection in the product are synonymous.

### Less Wool Used.

Reports from manufacturers as received by the bureau of markets, department of agriculture, show that there was less wool used in February than at any time since such statistics have been compiled. The February consumption amounted to 27,500,000 pounds in the grease, compared with 63,700,000 pounds in February of last year. Strikes which shut down mills and the inability of small mills to secure wool because the wool sold by the government at auction was sold on a cash basis, furnished the reason for the small February consumption.

### Described.

"What sort of a fellow is he?"  
"I'll tell you. He'd make a perfectly lovely manicure girl."

### Enough to Condemn Them.

The Customer—You seem very bitter against the bolshevik. What's your objection to their principles?

The Tonsorial Artist—I don't know nothin' about their principles, but all the pictures I ever see of 'em show 'em in long hair an' whiskers.

### 'As a Horrible Example.

"There ought to be some way of perpetuating the wrangles of the peaceable diplomats."

"Why?"  
"To serve as a warning to the next fellow who thinks he wants to start a war."

### The needless infantile death rate

owing to neglect and ignorance costs this country \$3,000,000 a day.

### Grown Wise.

Chief of Police Butler of Los Angeles was questioning a woman who, through mistake, had been brought in on a vagrancy charge. It turned out that she was quite the contrary, being a working woman whose husband was in France. They grew quite chatty and Butler remarked:

"You seem to be doing quite well as a business woman."

"You bet I am," she retorted. "And right now I'm just waiting for that husband of mine to come home and spring the old gag about my not being able to get along without him."

### Apprehension.

"Sir, your talk is a tax upon my patience." "Good heavens! Is even talk going to be taxed?"

## Have you ever heard this?

"My baking powder," says the smooth solicitor, "costs less than Royal."

But he omits to say that it often leaves a bitter taste, that food made with it is likely to stale in a day and that it contains alum, which is condemned by many medical authorities for use in food.

England and France prohibit the sale of alum baking powders.
