

# THIS WEAK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weakness. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness. Mrs. J. WORTHLINE, 2842 North Taylor St., Philadelphia Pa.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthington.

# BILIOUSNESS Caused by Acid-Stomach

If people who are bilious are treated according to local symptoms they seldom get very much better. Whatever the cause, biliousness is usually temporary. Trace biliousness to its source and remove the cause and the chances are that the patient will remain strong and healthy. Doctors say that more than 70 non-organic diseases can be traced to an Acid-Stomach. Biliousness is one of them. Indigestion, heartburn, belching, sour stomach, flat and gas are other signs of acid-stomach. BIONIC, the marvelous modern stomach remedy, brings quick relief from these stomach miseries which lead to a long train of ailments that make life miserable if not corrected. BIONIC literally absorbs and carries away the excess acid. Makes the stomach strong, cool and comfortable. Helps digestion; improves the appetite and you then get full strength from your food. Thousands say that BIONIC is the most effective stomach remedy in the world. It is the help YOU need. Try it on our money-back-guaranteed guarantee. At all drug stores. Only 50 cents for a big box.

# Weak From Pain

Mrs. Gibbert Was in Misery, But Doan's Brought Her Splendid Health.

"About 15 years ago my kidneys were in bad condition," says Mrs. Lucy Gibbert, 15310 Columbia Ave., Harvey, Ill. "There was a constant, dull, bearing-down pain in the small of my back. I couldn't turn over in bed without such pain I could hardly breathe. Mornings I was stiff, sore and lame all over; my back was like a rusty hinge. "Inflammation of the bladder nearly drove me wild. The kidney secretions passed every little while, day and night, a little at a time, and burned like fire. Great sacs of water formed under my eyes.

"I was in such misery I would become weak and so nervous I would scream. I had nerve-racking headaches and the back of my neck pained me. I was so dizzy I didn't dare send over for fear of falling on my face. My sight became blurred. I was sick all over.

"Five boxes of Doan's Kidney Pills cured me of kidney trouble. Since then I have enjoyed splendid health and I owe it all to Doan's.

# Everybody Rich In Dobe Village

Tierra Amarilla, in New Mexico, Is Quaint and Curious. Town.

## WITHOUT LIGHTS OR WALKS

Very Large Portion of the Population Can Qualify on \$50,000 Bond—Make Wealth in Sheep and Wool.

Pagosa Springs, Colo.—While there is no frontier left in the West, now and then one may come across something interesting in the way of the primitive. In the northernmost and central part of New Mexico, just across the Colorado line, is the small town of Tierra Amarilla. There are about 500 people living there, mostly of Spanish birth, and among them a very, very large portion who can legitimately qualify on a \$50,000 bond.

They have made, and are still making, a great deal of money in sheep and wool, and are quite happy without electric lights, autos or sidewalks.

If you are ever fortunate enough to be invited to visit one of these families, no doubt you will go in a kindly, tolerant spirit and come away pleasantly amazed.

They are the very heart and soul of hospitality and welcome a stranger with a sincere enthusiasm that makes one ashamed of the cold-blooded, haughty politeness of an American.

They are Americans. And that calls to mind the dignified rejoinder of one of these citizens upon being questioned as to where his sympathies were in our trouble with Mexico—with the Americans or the Mexicans.

His terse reply, "I am an American," was sufficient. Considering that scarcely any of the inhabitants are educated, according to the average standard, that was a remarkable reply.

The houses are nearly all built of sun-dried bricks of mud called adobe, set down, more than likely, in a sea of mud or dust, according to the season, with few windows, and facing haphazard in any direction, without regard to the streets, if there are streets, and back door to the front or side of a neighbor.

No lights on the street make navigation at night a risk, and no sidewalks of any kind add to the excitement.

In the houses are piled hit or miss the most expensive of furnishings, as the big catalogue houses of the East know quite well that it pays to advertise where there is money, and no nearby merchants to beguile with window displays. A fine kitchen cabinet may be right beside the phonograph with its dozens and dozens of records, mostly strined and operatic music, and almost invariably the houses are clean as scouring with soap and water can make them.

If you eat with them, you will eat chill, as it is a standby like our bread and potatoes. There is nothing elusive about the chill. Nor has it lost any of the energy of its forefathers. It is a good plan to eat some of it before you patronize a local barber, as it tends to loosen one's hair, at least it seems to, which answers the same purpose.

The barber, who probably owns 1,000 head of sheep, wears a wool sack full of his own product on his face, and his uniform is overalls that have been so long a part of his wardrobe that they could belong to no one but the barber. They also serve as a strop, after the razor has been dipped in the basin of jellified conglomerate suds.

In the stores, which one and all carry enormous stocks for so small a place, you will be confronted with an odor, from the improperly cured hun-

# Alien Enemies Worry Canada

Returned Soldiers Protest Against Foreigners Filling Positions They Need.

## EXPECT FIGHT ON REPEAL

War Times Election Act Repeal Is Opposed—Educational Test May Be Made to Disfranchise Many of Teuton Origin.

Toronto.—Despite the approach of normal peace when there will be no more "enemies," the alien enemy question is still far from settled in Canada. Controversy surges around two points; first: Is the alien enemy to be allowed to work? and, second: Is he to be allowed to vote?

When the war was on the alien enemy worked. There were many objections to it, but labor was so scarce that the alien enemy who could work was rarely interfered with. And he made big wages. Now labor is not so scarce, and the alien enemy's job is more precarious. It is not employers who are interfering with him, nor is it government authority. Pressure comes from the returned

## Girls Fat Enough, Is Jury's Verdict

Cardiff.—A situation worthy of Gilbert & Sullivan's "Trial by Jury" developed here when a girl's class from the Howells Girls' school, Llandaff, filed past the jury box in order that judge and jury might judge as to their physical condition. The case was one in which the father of a pupil sued the governors of the school for damages, alleging that his daughter was not properly fed. The inspection of a class satisfied the court that the majority of the girls seemed to be doing fairly well on the food supplied, and the jury decided against the indignant father.

dreds of sheepskins piled along with the bright colored silks and shawls and artificial flowers, appealingly displayed for the edification of the feminine residents. Perfume is sold here by the quart, as no proud young lady, or boy, would think of attending a dance without saturating both clothing and hair with it.

Altogether Tierra Amarilla is an intensely interesting place to visit, if one likes the out-of-the-ordinary.

One or the Other. Needzit—Why don't you pay your debts? You've got the money. Owem—Yes, but I wouldn't have it if I was to pay my debts.

Important to Mothers. Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Fletcher* In Use for Over 30 Years. Children Cry for Fletcher's Castoria

A Movie Marvel. Dinks—I notice Binks spends all his spare time at the pictures since his wife became a movie actress. Jinks—Yes, he thinks it's perfectly wonderful to see her carrying on for two mortal hours and never hear a word out of her.

Destructiveness. "See that boy?" "Yes." "Very destructive." "How so?" "Wears a suit of clothes out the first day he gets them." "Impossible!" "Well, he does. He wouldn't go naked, would he?"

A Liberal Helping. The Wyn-Jenkins were giving a little dinner party. Pa Wyn-Jenkins was carving a fowl. It was older than it looked, and the knife refusing to do its bit, the bird shot into the silken lap of the principal guest. Mrs. Wyn-Jenkins went pale, but her husband never lost his sang-froid. "I believe," he said to the guest, recapturing the bird, "that I've helped you to too much. Allow me to take back a little."

Good Advice. "I am to make my first public speech tomorrow night. What would you advise me to do?" asked the young man of an old-time after-dinner speaker. "Are you fond of your wife and children?" asked the old-timer. "Yes, very." "Like your home?" "Very much." "Do you enjoy having an occasional evening at home with your wife and kiddies?" "I certainly do." "Well then take my advice. Make that speech of your's tomorrow as bad as you possibly can. Make it so bad that they'll never ask you to speak in public again, and live in peace and contentment the remainder of your life."

Accounted For. Why do they always speak of vessels as in the feminine gender? "Maybe one reason is that they're generally trimming their sails."

At the Hotel. "Mrs. Mary McGinnis," wrote the woman, "Miss Mayne MacGinnis," registered her daughter.

## WILL FIX RUSS RAILWAY

Allies Are Planning to Raise Necessary Money.

It Will Take \$20,000,000 to Put Trans-Siberian Railroad Line in Shape.

Washington.—It will take \$20,000,000 to put the Trans-Siberian railroad in proper working condition. Eight nations are now trying to finance the road temporarily, without waiting for formal recognition of the Kolschak government at Omsk. Present indications are that recognition must come before financial aid on this scale can be extended.

The interallied railway commission at Vladivostok has made strong representations to each of the eight countries, urging the making available immediately of this amount of money in the form of credits, so that the sys-

tem from Vladivostok to the Ural mountains may be put in working order.

The United States, Great Britain, France, Italy, Czecho-Slovakia, Japan, China and Russia are the countries represented on the railway commission. Italy, the Czecho-Slovak republic, China and Russia are willing to accept their share of the responsibility for the loan, but cannot supply funds or credits, as everything they have they need for their own people. France, too, needs all her resources.

Japan could furnish both cash and credit if the other allies would permit her to assume the entire burden. Great Britain and the United States are each in a position to arrange the necessary credits, but the bankers of these two countries insist upon having a tangible government back of the loan as a guarantee. The Omsk government is considered stable enough

by the bankers to warrant the loan, but until actual recognition is accorded the status and responsibility of the government are in doubt.

## TAXES CAUSE PENNY FAMINE

Mints Begin Making 2,000,000 One-Cent Pieces Daily to Supply Demand.

Washington.—Pennies are more in demand than dollars in these days of soda water taxes. Since May 1, when these taxes went into effect, the United States mints and subtreasuries have been flooded with orders for millions of one-cent pieces and these coins have been shipped to banks by the bushels. To meet the continued demand the Philadelphia and Denver mints are working almost exclusively on one-cent pieces, and an extra shift of workers has been ordered for the Philadelphia mint. Two million one-cent pieces will be turned out daily.

The United States owns fully one-half of the world's stock of diamonds.
