**"THE NEW-NEBRASKA FEDERATION"**

You are solicited and urged to become a member of the Federation:

**WHY?**

Because it is the only body of men in the state standing together in defense of all the people—high or low—and of ALL PROPERTY—big and little—and against all "class" legislation and all state socialism, in the framing of a NEW CONSTITUTION for Nebraska.

**AND—**

Because it must be supported by the interest and contributions of the every-day plain people to live and continue the battle. It has no "endowment" on which to rely. Numbers have already shown their appreciation of the work the Federation has undertaken by taking a membership and contributing.

**WHY NOT YOU?**

Whether you have a home, a farm, a job, a shop, a store or a profession, you are vitally interested in a square deal for all as against advantage to be given to any "class" of the people.

**MEMBERSHIP—3 CLASSES:**

Mr. and Mrs. Patrick Jones received a telegram announcing the safe arrival of their son, Michael Jones, at Norfolk, Va., who for the past eighteen months has been in service in France.  
 Hogs Killed by Eating Sand  
 One thousand dollars worth of hogs on the farm of E. C. Johnson, Saunders county, died from eating too much sand, according to a report of R. H. Watson, county agricultural agent. The hogs had been without mineral matter for some time when a wagon load of sand was dumped into the pen. A postmortem showed the large intestine to be gorged with sand. The Extension Service, College of Agriculture, recommends that the following mixture be kept before hogs:  
 Charcoal (coal slack, soft coal or wood ashes) .....1 bu.  
 Air-slacked lime .....8 lbs.  
 Salt .....5 lbs.  
 Sulphur (flowers) .....4 lbs.  
 Copperas (iron sulphate) .....4 lbs.

**National Egg Laying Contest**

To promote the breeding of high laying strains of standard-bred poultry, the Nebraska Agricultural Experiment Station is conducting what is known as the Nebraska National Egg Laying Contest. Any breeder of standard-bred stock may enter ten pullets and the State will keep a trapnest record of their laying. Monthly reports will be made and published in farm and poultry journals. The records will be of advertising value to breeders, and in addition help them establish a well-standardized flock. Entries must be made before October 1, and those planning to take advantage of this opportunity should communicate with the Department of Poultry Husbandry, College of Agriculture, Lincoln, at once.

**CHANGE IN LOOKS**

**SURPRISED THEM**

People Astonished By Big Improvement Shown By E. G. Bates After He Takes Tanlac.

"A number of people who ride my car every day have asked me what I've been doing to cause such a wonderful change in my condition, and all the boys who work for the company say they never saw me looking so well," said E. G. Bates, a popular street car motorman, living at 1108 North Park street, Bloomington, Illinois, in relating his experience with Tanlac, recently.  
 "Well, it is astonishing," he continued, "how Tanlac has put me on my feet when I was completely down and out and nothing else ever did me the least bit of good. I certainly do feel thankful and everybody will agree with me that I have the best of reasons for praising Tanlac when I tell them I hadn't been able to eat a meal in ten years without suffering agony afterwards. I would almost double up with cramping pains caused by the gas on my stomach and I would get so dizzy and blind that if I hadn't had something to hold on to I would have fallen off my car. If I ventured to eat anything except something very light I would have to lay off for a week and my work was just a drag and a burden to me for years. I was so badly constipated that I had to take a laxative every night, and I took so much strong medicine for indigestion that my stomach was in terrible shape. I got in such a bad fix that I couldn't stay on my run more than half the time and when I did work I was so weak and run down that I was in misery all the time.  
 "I knew very well I couldn't go much longer unless I got something to help me, but I was at a loss to know what to do. It was about this time that I heard some of the boys talking about what a great medicine Tanlac was. I also noticed in the papers where it had done some good work, so I bought a bottle, and it beats the world the way it helps a man when he's down and out. Just a few doses stopped the forming of gas on my stomach. Then I quit having cramps and dizzy spells and was so much pleased that I took care never to miss a dose of Tanlac. So I stuck right to the treatment and now I never feel a sign of my old troubles. I am now on my run every day and, as I said, all the boys say they never saw me looking better. But no wonder I'm looking better, I haven't missed eating a big meal three times a day since right soon after I started taking Tanlac, and I am never bothered a particle with cramps, dizziness, constipation, or anything else. In fact, I am as well and strong as I could wish to be and I'm here to tell you that's a great change, for I was doubtful about ever being any better. So it is that I have the best of reasons for feeling thankful and I will always boost Tanlac for the good health I now enjoy."  
 Tanlac is sold in Dakota City by Neiswanger Pharmacy, in South Sioux City by Shane's Pharmacy, and in Homer by Wagner Pharmacy.

**Long Distance Telephone Rates Are Standardized**

Long distance service is often conducted over the wires of more than one company and frequently across state lines.  
 Heretofore there have been several differences in the methods of quoting long distance rates by various companies.  
 This resulted in much confusion because of the many different conditions involved. This was not only expensive but caused many difficulties in operating the long distance lines.  
 Under the rates now established long distance service is on the same basis throughout the country whether it is inter-community, inter-company or interstate. It is available everywhere on the same standard terms.

**Your wagons and implements should last longer**

Every farmer knows his wagons and farm implements will last longer if kept out of the weather. It is equally important to have them protected from sun and rain when in use.

**DEVOE Farm Wagon and Implement Paint**  
*The Guaranteed*

is the one protection that we can recommend. We guarantee it to give a durable and lasting finish. Ordinarily a gallon of it will repaint all the wagons and machinery on the average farm. In addition to saving many times its cost every year, this paint will keep things looking spic-and-span. Devoe Farm Wagon and Implement Paint is made in green, vermilion, yellow, blue, black and clear. All the colors are durable. Which do you prefer?
