DAKOTA CITY SCHOOL NOTES

A. H. BRUNELLE, Principal
Those who looked for a walkway on the part of the Sioux City second team last Friday, were disappointed, for our boys gave them a stiff fight.
Sioux City's final score was 13, and Dakota City was unable to register a point.
The local boys, however, made their downs several times, and the line was punctured for a touchdown only once; the other touchdown came from a perfect forward pass to the outside of Dakota City's goal-line.
Sioux City proved expert in the use of passes, as well as in defense against them. Sides and Krumwiede were able to complete but a few of the aerial plays. Sides played his first game, and held down left end very acceptably. Some of our boys played the best game they have played this season, notably Cullerison, who proved a demon in his defensive work at center, and Morgan, whose work at guard has improved about one hundred per cent in the last two weeks.
The boys ought to give South Sioux a good drubbing when they journey to South Sioux City next Friday. A great deal depends on whether the team will remember to speed up their work in the last quarter of the Sioux City game they played their opponents off their feet for a few minutes when signals were called rapidly and some thing was happening every second. Just as soon as they slowed up, Sioux City held.
Five additional games are in store, besides those announced in the schedule some weeks ago. The boys journey to Lyons November 14th, and to Laurel for Thanksgiving. Newcastle has been secured for a game here November 17th, and should prove not difficult, as they have tied Ponca, whom Dakota City took in by a 47-0 score. Lyons defeated Tekamah 20-0 last week and will prove a hard nut to crack. Laurel will prove another hard one, for they defeated Ponca by about thirty more points than Dakota City was able to roll up. Jackson will be played October 31st and November 21st the latter date at home.
Friday is the day that has been decided on for assembly singing; about twenty minutes are devoted to this, and the seventh and eighth grades join with the high school. The students seem to be enjoying this variation from the regular routine which must needs grow a little monotonous now and then, even to the most capable student. A regular music supervisor could undoubtedly accomplish some very fine results from this feature.
The winner contest planned for last Tuesday was a fine success. Enough notes were obtained to carry the entire crowd to the bluffs. A bright moon, the charm of the woods at night, the crackling, cheery camp fires, and a plentiful supply of hams, mustard, pickles and the regulation "dogs" all contributed to a happy evening. No serious mishaps are recorded, and we are looking forward to the next high school social event, the Halloween party, with expectations of another evening of hilarity and merriment.

GRINDING ALFALFA

(From Farm Bureau News)
Each year we have enquiries relative to the advisability of farmers buying small machines and grinding their own alfalfa hay. The following letter is from the Professor of Animal Husbandry of the State University relative to this subject:
Lincoln, Neb., October 8, 1919.
Mr. C. R. Young, County Agent, Dakota City, Neb.
Dear Sir:
I have your letter of September 27 pertaining to alfalfa grinders. Beg to state that there is still some question in my mind regarding the advisability of the average farmer installing one of these machines. If a man has quite a large amount of live stock and if the labor problem is not a serious one with him, I am inclined to think that the grinding machine will pay for itself, especially if he desires to feed the ground alfalfa to fattening stock or to pure bred stock. There is a good deal of labor involved in the grinding of alfalfa and it is a very dusty job and the average man hesitates about undertaking it unless he gains a material advantage.
I am having sent to you a copy of sheets giving one test in which we fed ground alfalfa last year to cattle. You will note that these cattle made a very satisfactory gain, namely the cattle in lot 3. The machine which we use is a Stover and is handled by the John Deer Plow Company. It is a No. 55 commutator.
It stands to reason that alfalfa will be consumed somewhat better where fed in the ground condition. In other words, there will be less waste. One big advantage of having the alfalfa ground is the fact that it can be mixed with grain and serves as bulk in the animal's ration. Quite a number of practical cattle feeders in this state are running alfalfa through their ensilage cutters. This leaves it in lengths approximating one inch and fixes so that it can be fed with shelled corn very nicely in bunk. It, likewise, can be mixed with silage if one wishes to and that makes a very nice feed. The whole problem resolves itself into one of labor and unless a man has considerable labor, I am inclined to doubt, under present conditions, whether it would be advisable for him to procure one of these machines, assuming that he has only an average farm and an average amount of live stock.
Yours very truly,
H. J. GRAMLICH.

JACKSON

Mr. and Mrs. Milo Myers and daughters Vera and Evelyn, departed Saturday by auto for a visit with relatives at Villisca and Montezuma, Iowa. J. W. Collins is looking after the E. & B. lumber business during Mr. Myers' absence.
Miss Sara McCormick is filling the position as teacher in our schools made vacant by the marriage of Miss Bernice Dugan.
Mr. and Mrs. Paul Cole and baby, of Cody, Neb., and Frank Hogan, of Billings, Mont., who were called here by the death of their father, Dennis Hogan have returned to their homes.
Mr. and Mrs. Fred Schneider, of Sioux Falls, S. D., are guests in the Wm. Riley home.
Harold Boyle, who was attending the University at Lincoln in the vocational training department, has been transferred to Ames, Iowa.
Mr. and Mrs. R. J. Nolan and children, of Struble, Iowa, and Mrs. J. P. Towhig and son Hugh, of Sioux City, were guests in the Scott Fullen home Sunday.
The Erbach brothers have purchased 1000 head of sheep which were shipped here to them Saturday from Iowa.
Jack McCormick and wife departed Monday for Custer, S. D., to spend the winter.
Mark O'Neill departed last Friday for Chicago to attend the wedding of his brother Frank, to a Chicago young lady, which takes place on Wednesday, October 16th.
A number from here attended a Knights of Columbus entertainment at Sioux City Sunday in honor of Columbus day.
Mrs. Magirl and son Bobby departed for Omaha last Saturday, and Dr. Magirl and Matt Zulauf motored to Omaha Saturday evening.
Miss Lizzie Cullen passed away at her home here last Friday morning after a few weeks' illness. The funeral was held from the Catholic church here Monday morning. Rev. Fr. Carmody celebrating a high mass of requiem. Six of her nephews acted as pall bearers. She is survived by the following sisters and brothers: Mrs. Pat Jones, of Hubbard; Mrs. D. Mitchell, and Jane Cullen, and John, Tom, Mike, and Joe Cullen, of this place.
Mrs. C. H. Duggan and daughter, of Sioux City, visited in the Henry O'Neill home Sunday.
Ned Kearney, who recently arrived from overseas, visited relatives and friends here last week. He had been in Germany the past three months. He is en route to his home at Boulder, Col., where his parents recently moved from their former home at Elkton, S. D.
Mr. and Mrs. Will Hayes and baby, of Hubbard, visited in the M. Quinn home Sunday.
The marriage of Miss Bernice Dugan, of Jackson, Neb., to Clarence Garrod, of Washta, Iowa, took place in Omaha on October 7th. The ceremony was performed by the Rev. Father Andrew Murphy, rector of the Cathedral. Mrs. Horace Dugan was present at the marriage service of her daughter. Mr. and Mrs. Garrod will live on the farm of the groom's father, near Washta.
The Misses Ryan and Madeline Hall, Kathleen Ryan and Rose Hart, next who are teaching in Iowa, spent over Sunday at home, en route from LeMars, where they had been attending teachers' institute.
Josephine Bennan celebrated her 12th birthday Sunday by inviting 12 of her school mates to her home. The afternoon was spent in games, music, etc., after which refreshments of sandwiches, cake, ice cream, lemonade and candy were served. The little folks then repaired to their homes, wishing her many happy returns of the day.

HOMER

Mrs. M. S. Mansfield of Winnebago, was a Homer visitor Sunday.
Mrs. Augusta Ostmyer and daughter Lena, were Dakota City visitors Saturday.
Mrs. Henry Rasmussen and baby of Sioux City, are guests at the Chas. Holeworth home.
Misses Gertrude, Mattie and Marjorie McKinley were Homer visitors Sunday at the B. McKinley home.
Mrs. Augusta Ostmyer was a Dakota City visitor Thursday of last week.
Ed Pilgrim, wife and son Lewis, and Mrs. T. D. Curtis motored to South Sioux Sunday and called on friends.
Misses Gertrude and Mattie McKinley of South Sioux City, were Homer visitors Sunday at the home of their father, B. McKinley.
Miss Lena Ostmyer visited at the Alfred Challie and Will Ostmyer homes Sunday.
Jim King and family of South Sioux, were Homer visitors Sunday.
Bert Thacker went to Omaha Friday and drove a Ford car back Saturday.
Miss Gertrude McKinley was over from Sioux City Wednesday.
Mrs. Wm. Clapp was down from Dakota City Wednesday.
Alfred Harris and wife were Sioux City shoppers Tuesday of last week.
James Allaway and wife and Tom Allaway were Sioux City visitors last Tuesday.
Mrs. Augusta Ostmyer and daughter Lena, attended Lutheran Aid society at the Fred Bartels home Wednesday of last week.
Miss Mae Altemus of Dakota City, visited the week-end at the home of her sister, Mrs. Audrey Allaway.
Mrs. Cora Scrammen was a Sioux City shopper Friday.
Chris Jensen and sister were shoppers in Sioux City Friday.
Mrs. Clara Thacker and daughter, Mrs. Jack McTaggart, were down from South Sioux City Friday.
Harold McKinley, who is attending Trinity college in Sioux City, was a week-end visitor at home.
A. F. Dohenecker and wife and Mrs.

W. H. Dohenecker

W. H. Dohenecker stopped over night in Homer last Thursday, the rain making it unpleasant autoing in the dark. They were on their way home to Wayne from a cattle buying trip into Iowa. W. H. Dohenecker came by rail with his cattle.
Frank Forrest of Dakota City, has been doing telephone work here for several days.

HUBBARD

Mr. and Mrs. L. H. Harris, Louis Reiss, Mr. and Mrs. Lars Larsen, Mrs. John Hartnett, Bridgie Hayes, Ellen Duggan, Mike Mitchell and John Hartly were among the city passengers from here the past week.
Mrs. August Andersen and children came in from Wood Lake, Neb., to visit her folks here.
Mrs. J. K. Waters returned last week from a few days' visit with relatives in Sioux City.
Mrs. Millard and son returned from their visit in Omaha last week.
Mike and George Hayes bought the Tom Long farm west of Hubbard last week.
Ray Goddard, W. Reiss and W. Shannaban motored to Sioux City on Sunday.
Clarence Hood of Minnesota visited his family here last week.
Mike and Jim Green, Ray Callen and Will Duggan were city goers the past week.
Tom Heffernan and little son motored to Sioux City last Friday.
Mrs. Dan Hartnett and son were in the city a couple of days the past week.
Louis Larsen and family visited the past week in the Mads Hansen home.
George Timlin and family were Sunday guests in the Grandma Grell home.
Dave Beacom was a business caller in Hubbard last week.
Chas. Londenger motored to Waterbury last Friday.
Mrs. Tom Long spent a few days the past week with her daughter, Mrs. Frank Welch, at Waterbury.
Josephine Laedem and Julia Graves were among those from here who attended the dance at Homer last week.
The Rasmussen family was in Sioux City Saturday.
Mrs. Knudsen has been suffering with a severe cold the past week.
Kathleen Smith spent Saturday and Sunday in her home here.
Mrs. Jesse Graves, who has been quite sick, is again able to up and about.
Ray Graves was down from Wakefield Tuesday.
Fred Bartels was in the city last week on business.
Rev. Fr. Zeph was in New York on a visit the past week.
Gertrude Bartels spent over Sunday in her home here.
Carl Andersen and wife visited relatives in the country Sunday.
Mr. and Mrs. E. Christensen enjoyed a visit with friends from Iowa the past week.
Jim Heeny and little son Frances returned Saturday from their visit at O'Neill, Neb.
Mr. and Mrs. Young entertained relatives at dinner last Friday.
Mrs. L. P. Harris was in the city last Thursday.
Mrs. Frank Welch is spending the week in the home of her parents, Mr. and Mrs. Long.
George Ebel was in the city last Saturday.
Mr. and Mrs. Renze were visitors in Jackson one day last week.
E. Christensen was in Sioux City Monday.
H. Nielsen visited in the Christensen home last week.
Mrs. and Mrs. Guy Andersen motored to Sioux City Sunday.
Chas. Varvais and wife were city shoppers Friday.
Mike Waters has sold his bank here to D. G. Evans and H. H. Adair, of Dakota City.
Mrs. Chas. Heeny visited last week in the home of her parents, Mr. and Mrs. Tom McGee.
Oscar Sharp and Vic Harris were in Sioux City Sunday.
Tom Heffernan motored to the city Saturday.
Mr. and Mrs. Wm. Goertz entertained several friends at dinner Sunday.
Mr. and Mrs. Jas. Smith visited in the W. Hartly home last week.

SALEM

Mr. and Mrs. M. G. Leamer spent a few days the past week in Omaha.
Mr. and Mrs. Herman Leuder were Sunday visitors at the Sam Heikes home.
A baby boy was born to Mr. and Mrs. Charley Heikes of Wayne, last week.
Miss Eida Bridenbaugh is taking care of Mrs. Charley Heikes and baby at Wayne.
Mr. and Mrs. Fred Lahrs called Friday evening at the Herman Sand home.
Mr. and Mrs. Arthur Armbricht and children spent Sunday at the Mrs. Mollie Broyhill home in Sioux City.
Marie Glese is assisting Mrs. Henry Lahrs with her housework.
Mr. and Mrs. A. M. Armbricht called Sunday evening at the Steve Joyce home.
Ray and Dewey Heikes are spending a few days at their ranch up in Boyd county.

MATRIMONIAL VENTURES

The following marriage licenses were issued by County Judge McKinley during the past week:
Name and Address. Age.
Minet B. Shoemaker, Sioux City... 25
Dorothy Reese, Sioux City... 23
Ivan B. Russell, Argenta, Ark... 21
Tillie E. Ehrdrigg, Wichita, Kas... 22
John Engel, Gregory, S. D... 22
Vida Lindberg, Sioux City... 20
Irl R. Lampert, Sargeant Bluff, Ia... 21
Agnes S. Sharp, So. Sioux City... 20

FEEDING THE CHILD

The child is the adult of tomorrow. The kind of food the child has, determines to a considerable extent the fitness of the future citizen. A child's diet is not the same as the diet for an adult. Those directing the feeding of the child have a responsibility which should not be overlooked. Good food habits should start today. Tomorrow may be too late.
The boast that a fifteen-month-old baby "eats everything," is not a tribute to its precocity, but to the ignorance or culpable negligence of its mother.
At the end of the first year the main part of the diet is cow's milk to the amount of nearly a quart a day. It should also remain the chief staple throughout the second year.
Scientific study of the milk shows that the protein in the milk contains nitrogen in ideal form for cell and muscle building; its fat carries some constituents essential to growth; its supplies of calcium and phosphorus are ample for the bone construction; its iron compounds, although present in a small amount, are of high value; its supply of other building and regulating substances is liberal; and its ease of digestion insures utilization of these valuable elements.
During the first two or three months of the second year, cereals in the form of gruel may still be added to the milk. After feeding strained cereals for several months, the finer varieties may be given unstrained.
This gradually trains the digestive tract to take care of solid foods and of foods containing cellulose.
The yolk of an egg should be given daily because of its iron and phosphorus. Fruit juices should also be given daily. Orange juice remains staple, but gradually other kinds, mild in flavor, may be tried, as prune juice or the pulp or cooked apple juice or the pulp. Not more than two or three tablespoons should be given at one time and if a new kind is being tried only half the quantity should be given, diluted with half as much water.

This is best given between two morning meals. It is valuable to the system because it helps to counteract constipation and adds ash for growth.
After the child has several teeth it is well to occasionally give him some dry toast so as to foster the habit of mastication.
After the middle of the second year one green vegetable should be included in the diet every day. This is best given in the form of diluted and thoroughly cooked soup, strained and mixed with milk.
The child should have his meals at regular times. If the child should get very hungry two or three hours before time for the next meal, give him a slice of bread and butter. Do not give a child candy, fruits, nuts, cake or cookies between meals.
A child should drink plenty of water between meals, as this often satisfies the craving which many mistake for hunger.
Frequently children will have to be taught to like things which are good for them. One must be patient but firm, when teaching a child to like new foods.

Another important essential is that the mealtime for the child, as well as for the adult, should be a joyous occasion, without undue excitement just before, during or after eating.

KEEP WELL.

- 1. Ventilate every room you occupy.
2. Wear loose, porous clothing suited to season, weather, and occupation.
3. If you are an indoor worker, be sure to get recreation outdoors.
4. Sleep in fresh air always; in the open air if you can.
5. Hold a handkerchief before your mouth and nose when you cough or sneeze and insist that others do so, too.
6. Always wash your hands before eating.
7. Do not overeat. This applies especially to meat and eggs.
8. Eat some hard and bulky foods; some fruits.
9. Eat slowly—chew thoroughly.
10. Drink sufficient water daily.
11. Evacuate thoroughly, regularly.
12. Sit straight and walk erect.
13. Do not allow poisons and infections to enter the body.
14. Keep the teeth, gums and tongue clean.
15. Work, play, rest and sleep in moderation.
16. Keep serene. Worry is the foe of health. Cultivate the companionship of your fellowmen.
17. Avoid self drugging. Beware the plausible humbug of the patent medicine faker.
18. Have your doctor examine you carefully once a year. Also consult your dentist at regular intervals.
(Poster Series No. 8.)

HEALTH ESSENTIALS.

To be emphasized every school day.
A full bath more than once a week.
Brushing the teeth at least once every day.
Sleeping long hours with windows open.
Drinking as much milk as possible, but no coffee or tea.
Eating some vegetables or fruit every day.
Drinking at least four glasses of water a day.
Playing part of every day out of doors.
A bowel movement every morning.

FEED TANKAGE WITH YOUR CORN

Thousands of spring pigs are busy husking corn and getting ready for market at this time of the year, but many of them are not making the best use of their feed because they get nothing but corn and water. There are farmers who think that "good corn and clean water" is all a pig needs to make a hog of himself, but a ration of that sort is a very

Charging to Move a Telephone
Some people keep their telephones at the same location for a long time.
Other people move every little while.
Here is an actual record of 100 telephones in an exchange a year ago:
21 were kept 2 months without moving.
19 were kept 4 months without moving.
24 were kept 6 months without moving.
13 were kept 8 months without moving.
14 were kept 10 months without moving.
9 were kept the entire year.
We charge for moving or installing a telephone because we feel that a part of the cost should be paid by the person responsible for it rather than the expense be borne by all telephone users.
NEBRASKA TELEPHONE COMPANY

poor one for that purpose. Corn, whether it is being hogged off or fed in a dry lot, should be supplemented with tankage, oil meal or shorts—tankage being preferable. Pound for pound tankage is worth twice as much as oil meal and nearly three times as much as shorts for balancing a corn ration.
Even if there is a blue grass or an alfalfa pasture alongside the cornfield to which the pigs can run, it is still good policy to provide a protein concentrate and the best way to do this is to supply it in a self-feeder so they can take what they want. When pasture is provided they will eat less tankage than when no green feed is to be fed. If a self-feeder is not available figure on giving two-fifths of a pound of tankage per head per day. Tankage or other concentrates should never be self-fed unless the hogs are getting all the corn they will eat. When tankage is fed with corn in the manner mentioned the pigs will eat more corn, make much more rapid gains and do it at less expense. Many tests might be quoted to show that the cost of pork production can be reduced 20 per cent by properly supplementing a corn ration as compared with feeding corn or other similar carbohydrate feeds alone.—Iowa Homestead.

THE HERALD FOR NEWS
Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and the tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. HALL'S CATARRH MEDICINE acts directly on the blood in the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc. F. J. CRENET & CO., Toledo, O.
