BETTER SIRES—BETTER STOCK.
(From Farm Bureau News.)

The first organized crusade in a large country to improve all its live stock simultaneously will get under way in the United States October 1. Its slogan.—BETTER SIRES—BETTER STOCK.

Its aim.—To hasten the replacement of the multitude of scrub domestic animals with pure-bred or high-grade stock and to improve the quality of pure breeds themselves.

Its main method.—Use of only good pure-bred sires in breeding. Sires in many cases to be owned cooperatively or exchanged.

Live stock included.—Cattle, horses and asses, swine, sheep, goats, and poultry.

Agencies cooperating.—The United States Department of Agriculture, the State agricultural colleges, State live-stock officials, live-stock associations, county agents, farmers' organizations, agricultural and live-stock journals.

Reasons for campaign.—Quality and productive capacity of the average American farm animal are still low. Millions of farmers are wasting time and money on animals that give less returns for the same expenditure than would better stock.

Public cooperation.—More than 500 live-stock specialists have made suggestions on the plan of campaign. Further constructive ideas and suggestions from any source will be welcomed by the United States Department of Agriculture. The following statements embody about nine-tenths of the ideas by the specialists:

Plan simple enough to be easily followed.

Federal department's chief interest will be to reinforce work of States and counties, not to concern itself with local details.

Department's energies merely along educational lines, although many suggestions of legislation against scrub

sires have been made.

Plan includes everyone who keeps any kind of domestic live stock, from the boy or girl with a few chickens to the extensive ranchman or breeder of live stock.

Scrub pure-bred sires as well as common scrub should be eliminated.

Feeding and care fully as important as good breeding.

Local agricultural leaders in every community to decide whether campaign shall be intensive or conducted slowly.

Department to keep records of progress by counties and announce results periodically. States to be furnished with records, which they may keep as they desire.

Emblems to be furnished keepers of pure-bred sires of good quality in all their classes of live stock; an official recognition of meritorious effort, but not a guarantee of the quality of live stock.

Emphasis on the use of good pure-bred sires rather than on ownership.

Individual benefits and more efficient production to be stressed, rather than increased number of animals.

Each county to follow its own ideas as to the kind of stock its farmers should keep.

Farmers who do not care to take part will be asked to let their children do so.

The plan of campaign interferes in no way with any work in live-stock improvement now being conducted, but makes all the work more definite and effective by providing official recognition for progressive breeders.

CARING FOR BREEDING GIANTS
(From Farm Bureau News.)

All spring gilts intended for breeding purposes should be selected at this time and given special care.

They should be kept growing by supplying them with a liberal feeding of a well balanced ration. Where this is provided with plenty of exercise these young sows will keep growing without getting too fat.

Not only will the gilts mature much larger if properly fed, but the pig crop will be stronger and in larger numbers. Alfalfa hay, shorts, oil meal and tankage should supplement corn. Oats is one of the best as well as one of the cheapest feeds.

Carnahan Gains

Twenty Pounds

ALTHOUGH 69 YEARS OF AGE
HE WORKS LIKE HE DID 30
YEARS AGO — TANLAC
BUILDHS HIM UP.

"If I had not found Tanlac I don't believe I would be alive today," said J. W. Carnahan, of 1414 Third St., South, Cedar Rapids, Iowa, in relating his remarkable experience with the medicine, recently.

"Last October," he continued, "I went to Nitro, West Virginia, to work in the ammunition plant and as they were paying extra good wages I got greedy, overworked myself and broke down. Until that time I had never suffered from any serious illness, but now my stomach was all out of order and I was so run down that I couldn't work without just playing out completely. I never wanted anything to eat and what little I did force down gave me trouble."

"I have never had much faith in medicines, especially the advertised kinds, and never took two dollars worth in all my life. But after reading what others said Tanlac had done for them I got a bottle and it certainly is wonderful how quickly the right medicine will get a person to feeling right again. I had not taken but a few doses of Tanlac until that knotty feeling left my stomach and I began to straighten right up. The medicine has put me in shape to where I have actually gained twenty pounds in weight, and, although I am sixty-nine years old I can do as much work as I could thirty years ago."

"Today I shoveled dirt over a nine foot wall for five hours, unloaded cement for two hours, then started unloading lumber, and came home feeling all O.K. I can eat just anything I want and lots of it and then get hungry between meals, and nothing I eat gives me the least trouble. I want to emphasize the fact that I have not had an ache nor a pain since right soon after I commenced taking Tanlac. I simply feel like years have been added to my life. I expect to always keep a bottle of Tanlac on hand. It beats anything in the way of medicine I have ever seen or heard of and I recommend it to all my friends when I hear them complaining of not feeling well."

Here is another instance of the remarkable reconstructive powers of Tanlac. Mr. Carnahan is only one of many thousands who have taken it with the same results. Tanlac proved of great benefit to him because it contains certain medicinal properties which enrich the blood and promote a healthy appetite for nourishing food. Tanlac has been very successful in overcoming nervousness and sleeplessness, not from a quieting effect on the nerves, for it has no such effect, but by strengthening the nerves and bringing back the normal state of health through its effect on the appetite and nutrition of the body.

Tanlac is sold in Dakota City by Neiswanger Pharmacy, in South Sioux City by Shanes Pharmacy, and in Homer by Wagner's Pharmacy.
