Catarrhai Deafness Cannot Be Cured Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is early one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

The Pageant, "America the Beau-tiful," given by the M. E. Sunday school in this place last Sunday, was a highly entertaining feature, was so well carried out, and so thoroughly enjoyed by those attending that it will be given at the Salem church next Sunday during the ses-sion of the County Sunday School convention. Every one of the charac-ters did just splendid, and a spirit of patriotism was manifest throughout the audience during the entire program. Rev. Draise has kindly offered the use of his truck to carry hose who have no conveyance to the Salem church next Sunday afternoon.

The voters of Dakota county will next Tuesday have an opportunity to vote for a Dakota county man, who has lived in this community all his life and who enjoys the respect and esteem of everyone who knows him. Emmett H. Gribble, the candidate for member of the constitutional convention, is one of Nebraska's most successful farmers and business men, well known for his up-to-date ideas and methods. His farm west of Dakota City is equipped with the most modern appliances, in the home as well as in the yards and other buildings. Mr. Gribble has always kept thoroughly posted on all matters per-taining to the affairs of the state, and in our opinion is admirably qualified to represent Dakota and Thurston counties in the convention. Nebraska being purely an agricultural state, it is our opinion that a large percentage of the membership of the constitutional convention should be composed of men who are thoroughly familiar with the problems and needs of farming and allied industries. We know that Mr. Gribble is thus equipped, and also know him to be as shrewd a business man as there is in the community. Your vote for him will not be misplaced.

Everybody Vote!

Owing to the fact that no primary election was held in Dakota county this year it is feared that many voters will neglect going to the polls. It is a fact, however, that one of the most important elections ever held in the state will take place next Tuesday, when members of the constitutional convention are to be stitutional convention are to be elected. These members are to formulate amendments to our state constitution, a work which becomes necessary on account of changed conditions since the original constitution was drafted in 1875. The old constitution has done duty for nearly half a continuous but necessary but a constitution of the continuous continu half a century, but now changes to meet present day conditions are absolutely necessary. Constitutions are laws not easily changed, and should any amendments to the present one be adopted that are not to the interest of the people it will be an al-most hopeless task to get rid of them for many years.

The selection of a member of this constitutional convention is not only a privilege of the voters, but a most solemn duty as well, and no voter should so far fail in the duty he owes his state by reason of his citizenship as to remain away from the polls next Tuesday when matters of such lasting importance are to be decided. We cannot emphasize too strong-Mrs. Bert Butterfield of Sioux City was an over Sunday visitor here in the W. P. Warner home.

Long Distance Rates are Uniform

The schedules for long distance telephone service established a few months ago are proving generally satisfactory to the public.

Long distance service is often conducted over the wires of more than one company and frequently across state lines.

Heretofore various companies differed in their methods of quoting long distance rates.

Under the rates now established long distance service is on the same basis throughout the country.
