NOTED LAWYERS DEFEND FEDERAL FARM LOAN ACT

McAdoo, Hughes and Wickersham Appear in Kansas City Court as Champions of Land Banks, Which Have Given Farmers \$300,000,000 at Low Interest Rates.

America's system of rural credits was upheld in the federal court in a suit which questioned the constitutionality of the law creating federal land banks and joint stock land banks. Charles E. Smith, a stockholder in the Kansas City Title and Trust company, brought suit to enjoin this corporation from purchasing the bonds of these banks, contending that because these securities are exempt from federal, state and local taxation, they were issued in violation of the Constitution of the United States and contending also that congress had no authority to create such banks. Judge Van Valkenburgh gave his decision immediately at the close of the arguments, holding that the law is constitutional. An appeal was taken and the case will now go to the United States Supreme court for final decision. The validity of the farm loan act being thus attacked, the government of the United States, the federal land banks and the joint stock land banks became parties to the suit. Mr. McAdoo represented the government as assistant to the attorney general and also, together with George W. Wickersham, attorney general under President Taft, represented the joint stock land banks of which there are now 27. Former Justice of the Supreme court Charles E. Hughes represented the federal land banks.

on hand and families in most instances are well supplied with fuel. The Chicago, Burlington and Quincy railroad has nearly 100 cars of coal sidetracked near Dakota City, but the fuel is being closely guarded through out the day and night to prevent its theft.

THE ANNUAL MEETING

(From Farm Bureau News).
The annual meeting of the County Farm Bureau has been postponed from December 26th to December 31st. This is to give everybody a chance to recover from their big Christmas dinner so that they can indulge in the still bigger one that will be served at this meeting.
At the last board meeting it was decided to make this annual meeting a really worth while affair. Tickets will be sold in advance to cover the cost of the dinner. The regular monthly board meeting will be held in the morning and the annual meeting in the afternoon. Prof. W. H. Brokaw, Director of Extension Service, has promised to be present for an address on the occasion. Mr. Brokaw is a very pleasing speaker and always has a real message. He has selected for his subject, "A Farmer's View Point of Extension." He will also discuss the pure-bred sire campaign being put on in Nebraska. Annual reports of the Home Demonstration, the County Agent and Farm Bureau officers will be read. This will be followed by the regular election of officers.
